INTRODUCTION

If you are brave: read this book from beginning to end, and then draw your own conclusions.

If you are a coward: you can stop reading the book now.

CHAPTER I: THE BIBLICAL GOD, A GOD 100% IN FAVOR OF SOCIAL DARWINISM AND THE TEACHINGS OF JESUS CHRIST.

Social Darwinism consists of the belief that the strongest must subdue, dominate or eliminate the weakest, the most vulnerable and the most innocent.

Social Darwinism includes the sexist ideas that are present in both most men and most women that: harming the weakest is strength, harming the most vulnerable is power, and harming the innocent is bravery.

When the truth is that whoever harms the weakest is not strong, whoever harms the most vulnerable is not powerful and whoever harms the innocent is not brave. Whoever harms the weakest, who harms the vulnerable and who harms the innocent is a coward and trash who should never have been born and should never have existed.

In many places in the Bible, the Judeo-Christian god commands the murder of children and pregnant women:

Isaiah chapter 13, verse 18: They will sweep away the young with bows, they will not have mercy on the fruit of the womb, nor will their eyes have mercy on the children.

Hosea chapter 13, verse 16: Samaria will be desolate, because she rebelled against her God; They will fall by the sword; Their children will be dashed to pieces, and their pregnant women will be cut open.

Psalms chapter 137, verses 9: Blessed is he who takes and dashes his little ones against the rock.

And in many places in both the Old Testament and the New Testament, the Judeo-Christian god supports human slavery and a father selling his own daughter into slavery:

Exodus chapter 21, verse 7: If anyone sells his daughter into slavery, she will not be freed like male slaves.

I asked the believers in this god:

Do you think it's okay for a father to sell his own daughter as a slave because his god says so in the Bible?

Exodus chapter 21, verses 20 and 21: If someone hits his or her male or female slave with a stick, and they die as a result of that blow, they will be punished. However, if the slave survives a day or two, the attacker will not be punished, since the slave was his property.

Colossians, chapter 3, verse 22: Slaves, obey your earthly masters in everything, not only to gain their favor when they are watching you, but with a sincere heart and out of respect for the Lord.

1 Timothy chapter 1, verse 6: Let all who are under the yoke of slavery consider their masters worthy of all respect, so that the name of God and our teaching will not be dishonored.

That the Judeo-Christian god orders the murder of children and pregnant women, and supports human slavery, is proof that the Judeo-Christian god is a god in favor of social Darwinism.

Of course, believers in this god always say that these parts of the Bible that do not suit them are metaphors, symbolic or taken out of context, but the parts of the Bible that do suit them, they never say that they are metaphors or symbolic, and They never say they are taken out of context, even if they mention one or two verses.

Some stupid criminals like Ragnar Redbeard (whose real name is Arthur Desmond) who wrote a book called *Might Is Reason*, Ayn Rand creator of the stupid philosophy of Objectivism, and Anton Szandor LaVey founder of the first satanic religion called the Church of Satan and who acknowledges that he was inspired by Ragnar Redbeard and Ayn Rand for his writings: they believed that social Darwinism is the opposite of Christianity.

Images recovered from the internet.

Jesus Christ taught to forgive everything, to love your enemies, not to judge, to endure everything and to turn the other cheek, and he taught that revenge is bad, which is why the majority of humanity considers revenge and resentment as something bad:

Leviticus chapter 19, verse 18: You shall not take revenge, nor bear a grudge against the children of your people, but you shall love your neighbor as yourself.

Proverbs chapter 20, verse 22: Do not say, I will repay evil for evil; wait on the Lord, and He will save you.

Matthew chapter 5, verses 39 and 44: But I say to you: Do not resist him who is evil; but whoever strikes you on the right cheek, turn the other also. But I say to you: Love your enemies, bless those who curse you, do good to those who hate you, and pray for those who spitefully use you.

Matthew chapter 7, verse 1: Judge not, lest ye be judged.

Mark chapter 11, verse 26: For if you do not forgive, neither will your Father who is in heaven forgive you your trespasses.

Luke chapter 6, verses 27, 28, 29, 30, 35 and 37: But to you who hear, I say: Love your enemies, do good to those who hate you; Bless those who curse you, and pray for those who slander you. To him who strikes you on one cheek, turn the other also; and from the one who takes away your cloak, do not deny him even your tunic. To anyone who asks you, give; And do not ask whoever takes what is yours to give it back to you. Love your enemies, then, and do good, and lend, expecting nothing from it; and it will be your great reward, and you will be children of the Most High; because he is kind to the ungrateful and the evil. Do not judge, and you will not be judged; do not condemn, and you will not be condemned; forgive, and you will be forgiven.

When the excerpt from the previous Bible is written that this god is kind to the ungrateful and the evil, it is obvious that this god is defending those who harm the weakest, those who harm the most vulnerable and those who harm the innocent, and here It is clear what Jesus Christ means by loving your enemies, turning the other cheek and forgiving everything.

And so is the majority of humanity who, in the image and likeness of that god: consider heroic, admirable, brave and powerful whoever harms the weakest, whoever harms the most vulnerable and whoever harms the innocent, while they are indifferent towards the lives of the indigenous people who are the most vulnerable on the continent, and are also indifferent to the lives of animals of other species that are harmless.

And if I mention animals of other species, it is because scientifically and biologically humans are animals, even though these religions that believe in that god deny it. The word animal does not mean unworthy, it does not mean immoral and it is not an offense.

But, the religions that believe in this god do consider the word animal as lacking in dignity, as immoral and as an offense. Therefore, I have seen that criminals in Brazil and other countries on the continent treat the indigenous people as animals because, according to them, The word animal is an insult and these clowns think they are not animals.

Ephesians chapter 4, verse 2: With all humility and meekness, patiently bearing with one another in love

Criminals who defend social Darwinism believe that the teachings of Jesus Christ to forgive everything, love your enemies, turn the other cheek, do not judge, do not take revenge, endure everything, according to their high degree of stupidity: defend the weakest, defend the most vulnerable and defend the innocent.

The reality is that the teachings of Jesus Christ to forgive everything, love your enemies, turn the other cheek, not judge, not take revenge, endure everything: cause those who harm the weakest, those who harm the most

vulnerable and those who harm the innocent go unpunished and never pay for their crimes.

The teachings of Jesus Christ defend those who harm the weakest, those who harm the most vulnerable and those who harm the innocent because those teachings say that we should not judge him, that we must forgive him everything, that we must turn the other cheek, that we must love it and that you have to endure it.

Also, when Christianity says that the life of those who harm the weakest, of those who harm the most vulnerable and of those who harm the most innocent has the same value and deserves the same respect as the life of the weak, innocent and vulnerable: the Christianity is defending those who harm the weakest, those who harm the most vulnerable, and those who harm the innocent.

Throughout history, the greatest promoter of social Darwinism has been Christianity, Christianity was the one who promoted social Darwinism the most in the inquisition and colonization.

All humans have a side that is empathetic, compassionate and sensitive, and they have another side that is cruel, violent and insensitive.

The problem is that most humans express their empathetic, compassionate and sensitive side with those who harm the weakest, with those who harm the most vulnerable and with those who harm the innocent.

And they express their cruel, violent and insensitive side against the weakest, against the most vulnerable, against the innocent and against minorities.

The correct thing is to express our empathetic, compassionate and sensitive side with the weakest, the most vulnerable, the innocent and the minorities.

The correct thing is to express our cruel, violent and insensitive side against those who harm the weakest, against those who harm the most vulnerable and against those who harm the most innocent.

CHAPTER II: THE RIGHT, CAPITALISM AND THE NEOLIBERALS.

The political right is the conservative ideology that defends the traditional way of thinking of European origin, capitalism is the ideology that defends the economic system of Western origin and neoliberals (the same as libertarians) are those who place freedom above all else.

What do the right, capitalism and neoliberals or libertarians have in common?

The answer is that all three: they place money, technology and their ideologies above the environment and above the most vulnerable, which are the indigenous ethnic groups.

When neoliberals or libertarians talk about freedom they always refer to economic freedom, and they always place money above nature to benefit majorities and above the rights of minorities.

It is true that in the system we live in: money is important to eat, to have a home, to have access to drinking water and even to have resources that allow us to help others.

But, although money is important, money should never be above life on our planet, money should never be above the environment and money should never be above indigenous people.

The problem with these perverse ideologies that are the right, capitalism and neoliberalism or liberals that are made up of monsters that are already born with evil in their genes (and I will explain why later) is that they place money above life in our planet, they put money above the environment and they put money above indigenous people.

I am not saying that technology and money by themselves are bad, but what is bad is putting money and technology above life on this planet as the right, neoliberals or libertarians and capitalism do.

When neoliberals or libertarians place freedom above all else, this also means that someone is free to pollute and destroy the environment, that someone is free to harm the weakest, that someone is free to harm the most vulnerable, and that someone is free to harm the innocent.

For this reason, neoliberalism or liberalism is a criminal ideology that must be prohibited just like right-wing ideologies, capitalist ideologies and left-wing ideologies that oppress indigenous people (and then I will explain why I mention left-wing ideologies).

Many times the shit of the right and the neoliberals or libertarians accuse Hitler and the Nazis of having been communists or leftists, which is not always the same as communism, when Hitler and the Nazis were nationalists, homophobic, sexist and supported the Catholic Church.

Both Hitler and the Nazis supported the Catholic Church. Photographs recovered from the Internet.

Also, these Right-wing and Neoliberal or Libertarian clowns claim that criticism of miscegenation is the same as Nazism, when criticism of miscegenation has not caused the extermination of mestizos and has not caused concentration camps for mestizos.

The following is a screenshot of the publication titled: - Marcelo Gullo, on the conquest of America: Indigenism shares ideas with the Nazis.

The following is a screenshot of a publication commenting on Gloria Álvarez's statements entitled: - she compares indigenism with Nazism and they destroy her on social networks.

In Godínez Liberal's account the following is commented regarding Gloria Álvarez's statements: - Likewise, she explained how indigenism has nothing to do with Nazism.

On the other hand, there has been extermination of indigenous people in all the countries of the continent and if there have been concentration camps for indigenous people on the continent.

Just as in the present: when all these massacres, exterminations or genocides of indigenous people occurred in the past, the majority of humanity that is not indigenous (Europeans, Creoles, mestizos, mulattoes, blacks who are not indigenous and Asians who are not indigenous) remained apathetic, indifferent and silent, therefore, they are complicit and guilty.

This is why those who compare the criticism of miscegenation with Nazism are criminals who endorse the extermination and genocide of indigenous ethnic groups, which, as we will see later, continues in the present.

The criticism of miscegenation cannot be compared to Nazism. But, miscegenation can be compared to Nazism and I will explain the reasons.

The majority of mestizos are white mestizos or brown mestizos with indigenous features, just like the majority of Creoles and Europeans: they remain silent in the face of the injustices suffered by indigenous people, they are apathetic and indifferent to the lives of indigenous people, Therefore, miscegenation is a physical extermination of the indigenous people.

The majority of mestizos are white mestizos or brown mestizos with indigenous features, just like the majority of Creoles and Europeans: they

consider indigenous people as ugly and mestizaje as improving the race, therefore, miscegenation is a physical extermination of the indigenous people.

The majority of mestizos are white mestizos or brown mestizos with indigenous features, just like the majority of Creoles and Europeans: they lack the humble and simple way of being of the indigenous people, which is why mestizaje is an extermination of the way of being of the indigenous people.

The majority of mestizos are white mestizos or brown mestizos with indigenous traits, like the majority of Creoles and Europeans: they are consumerists, they see nature as a simple economic resource and they lack a vision of the world in harmony with the nature of the indigenous people, therefore, miscegenation is an extermination of the indigenous world vision.

How mestizaje is a physical extermination of the indigenous people, an extermination of the way of being of the indigenous people and an extermination of the world vision of the indigenous people, is for the reasons indicated above that miscegenation can be compared to Nazism and not the criticism of miscegenation.

But, in addition, many politicians and celebrities in Mexico said phrases showing that miscegenation was part of the extermination of the indigenous people, such as the following:

Francisco Bulnes and others affirmed that, to incorporate the indigenous people into society, the indigenous people had to lose their language, lose their customs and continue with biological miscegenation, so that after a short time they would all become white.

Porfirio Diaz also had the habit of having portraits represent him as white as a way to support the whitening of new generations through miscegenation.

José Vanconcelos said: - It is time to proclaim, without reservation, that both the Aztec and the civilizations that preceded it, formed an aborted case of humanity. The only way to save such decayed towns is the one that the Spanish used, miscegenation legalized by the Papal Bull that authorized marriages between Spaniards and natives. And with miscegenation, the total replacement of the old soul with a new soul, through the miracle of Christianity. The fact that we have so many millions of Indians in Mexico should not sadden us, as long as the traditional tendency persists.

The three criminals mentioned above, images recovered from the internet.

One fact that everyone should know is that Porfirio Diaz and José Vanconcelos were active members of Freemasonry. This was never a conspiracy theory, because these politicians and celebrities never hid being Freemasons. And Freemasonry is not a conspiracy theory because this nefarious institution openly accepts its existence.

Later, I will explain how Freemasonry is totally linked to hatred of indigenous people and the extermination of indigenous people throughout the continent and could even be related to the extermination of indigenous ethnic groups on other continents.

Now we are going to read comments from damned people who deserve the death penalty in a group in favor of Jair Bolsonaro:

The group is called Ustra Vive and is from WhatsApp:

Amora's first comment with the number +55 62 9805-4901 says: -Blacks, Indians and homosexuals are a disgrace. Our captain has to exterminate those filth.

And that's how the majority of people in Brazil are, and many vote for the deputies and senators who cause the extermination of indigenous people, because those deputies and senators are in power because the majority of Brazilians voted for them.

In response to Amora's comment, Anjinha with the number +55 11 98376-8264 writes: -I agree. Mainly about homosexuals because they are aberrations. God did not make Adam and Evo.

The following comment from a user who uses the word patria is from the number +55 63 9100-6507

From what I perceive, most of those who make those comments are women, most women are like most men.

But, also when these comments mention God and assume that the Judeo-Christian god is real, it is proof that in Brazil there is more ignorance and religious fanaticism (stupidity) than in other countries on the continent.

On the other hand, in the Bible this god condemns homosexuals to death, supports social Darwinism when he orders the killing of pregnant women and children, tells human beings to dominate or subjugate the earth and not to live in harmony with the earth, and he preferred the animal sacrifice that Abel offered him.

Leviticus chapter 20, verse 13: If anyone lies with a man like those who lie with a woman, both have committed an abomination; They must certainly die. His blood fault be on them.

1 Corinthians chapter 6, verse 9: Do you not know that the unrighteous will not inherit the kingdom of God? Do not be deceived: neither the fornicators, nor the idolaters, nor the adulterers, nor the effeminate, nor those who have sex with men.

Genesis, chapter 1, verse 28: And God blessed them, saying, Be fruitful and multiply; fill the earth and subdue it.

Genesis chapter 4, verses 3, 4 and 5: Time passed, and one day Cain presented to God an offering of the fruits he grew. For his part, Abel chose the first fattest offspring of his sheep, and took them to God as an offering. God received Abel's offering with great pleasure, but he did not receive Cain's offering with the same pleasure.

That is why it is incompatible to defend LGBT rights, be against social Darwinism, defend the protection of the environment and defend animals of other species with worshipping and believing in the Judeo-Christian god at the same time, and this is what many stupid The left does not understand and that is why they serve the right by believing in that god.

Tondolo with the number +55 51 8415-7728 comments: -The thief Lula made that disgusting race believe that they were normal, but now they have to accept the will of the majority and keep quiet.

And Ana Freitas with the number +55 88 9787-5175 in response publishes an image in support of Jair Bolsonaro.

When that bastard from Tondolo comments on the phrase "disgusting race", this is what the arrival of European colonizers to the continent and the existence of those who are not indigenous has done to the planet:

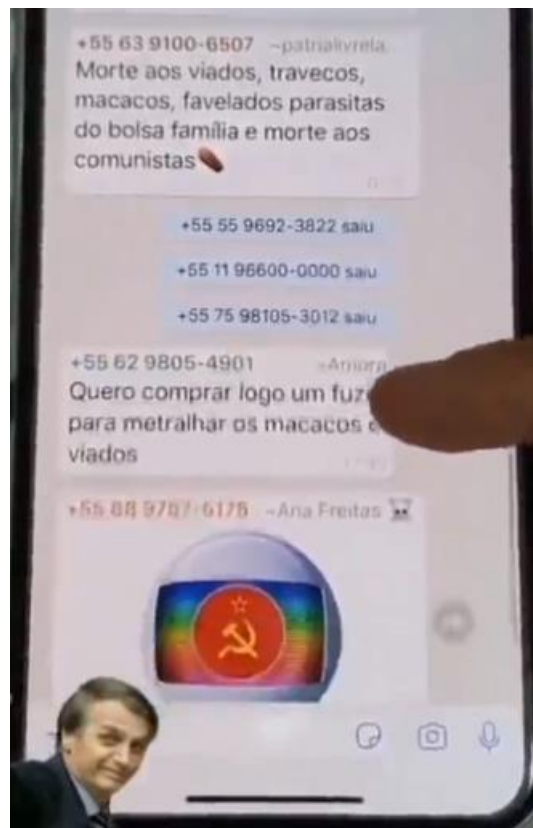

Photographs recovered from the Internet

Furthermore, I am white and for me white skin is horrible, it has a higher risk of skin cancer, it is more irritated, it is coarser, it is more dehydrated, it is less resistant to the sun and it has more body hair.

Always, when I say that the majority is bad, many are offended, some have even threatened to hit me for saying this, when it is the truth, the majority of humanity is bad, they are a virus or cancer for the planet, they are selfish, Individualists, they only care about money, and they have always been complicit in all the massacres and genocides that indigenous people have suffered because of their silence, their indifference and for voting for politicians who cause this.

Democracy means the will of the majority, and when left-wing politicians talk about defending democracy as Lula does, they are agreeing with the right and the neoliberals.

Then when this disgusting account that uses the word homeland which I hate because the entire continent should be one country and the other disgusting account called Amora use the word macaque and say they want to have a rifle to kill macaques and homosexuals, well, we should have a rifle to kill trash like them.

Therefore, the pacifism promoted by leftists like Lula does not work, and although these criminals will change that does not eliminate all the damage they have done.

The pacifism promoted by leftists like Lula means that these criminals go unpunished. Pacifism is something very beneficial for the right and neoliberals.

The only thing that works with the criminals who make these comments is to give them the death penalty, and I know that the human rights left who defend the lives of right-wing and neoliberal criminals would say that giving them the death penalty does not solve things.

But, it does solve because the world would be better without these criminals and it is also disastrous that these criminals reproduce because it is proven that genetics does influence behavior even though the politically correct left denies it.

Then this excrement of Amora claims to be in favor of Nazism, and as I have already commented many times, they are the same ones who defend Zionism, and Amora writes that homosexuals, transvestites, Indians and blacks are useless. And many Brazilians find it very respectable that these monsters think like this and write those comments.

What non-indigenous people have served is to spread Christian religions throughout the world:

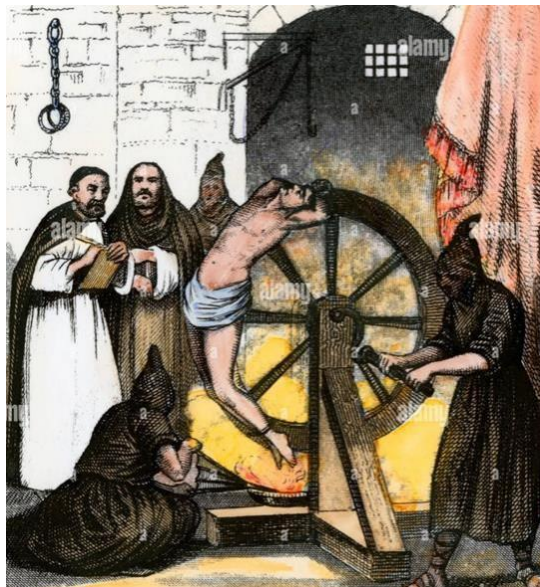

Image recovered from the Internet

What most non-indigenous people are good for is turning the land into a desert, polluting the water with garbage and excrement, and polluting the air:

This shit is what the damn criminal governments, the damn elites and the damn majority of humanity that is not indigenous call civilization, progress or development. Photographs recovered from the Internet.

What the majority of those who are not indigenous serve for is to expand livestock farming of cows, bulls, sheep, goats and pigs throughout the world, which causes the destruction of forests and ecosystems to make pastures for these animals, which causes large emissions of polluting gases such as methane and carbon dioxide, where the raising of these animals generates a lot of consumption of liters of water per day and therefore makes drinking water scarce, and where the water is contaminated with the blood and waste of those animals.

Images recovered from the Internet

Before the arrival of the Europeans: cows, bulls, sheep, goats and those species of pigs did not exist on the continent. What existed were buffaloes in some regions, and llamas, alpacas and vicuñas in the Andean areas.

It was the European colonizers who brought livestock farming of cows, bulls, sheep, goats and these species of pigs to the continent for meat, leather, milk and dairy products, thereby causing the destruction of forests and jungles to make pastures and enclosures for these animals, air pollution with large excessive emissions of methane and carbon dioxide, and water contamination with the blood and waste of these animals.

The majority of those who are not indigenous serve to expand hunting for pleasure (without being a necessity to survive), bullfighting and cockfighting around the world:

Photographs recovered from the Internet

Before colonization: the majority of indigenous ethnic groups and the majority of indigenous people of each ethnic group on the continent (with very few exceptions) only hunted to survive, never for pleasure.

But, it was the Spanish, Portuguese, English and French colonizers who brought hunting for pleasure to the continent, without it being a necessity to survive, and they were responsible for expanding hunting for pleasure to the entire continent.

The majority of Europeans who came to the continent (with very few exceptions) practiced hunting for pleasure, bullfighting and cockfighting because of that macho and cowardly way of thinking that they have to harm the weakest,

harm the most vulnerable and harm to the innocent according to his stupidity it is masculinity, power, bravery or strength.

If bullfighting exists in Mexico, Colombia, Ecuador, Venezuela and Peru, it was because the Spanish colonizers brought bullfighting to the continent. And if cockfights exist in Mexico, Nicaragua, Cuba and in many countries on the continent that the colonizers called America, it is because the European colonizers brought them.

Scientifically and biologically: humans are animals, the word animal never means lacking dignity, never means inferior and never means lacking rights.

It is the monotheistic religions (Zoroastrianism, Jewish, Christian and Islamic) who deny that we are animals, who affirm the stupidity that animal means lacking dignity, inferior or lacking rights.

Scientifically, animals of species other than humans feel physical pain because most have a central nervous system (brain) and nociceptors (pain nerve endings), and they suffer emotionally because they have a limbic system in their brains.

The only thing that should matter for a life to be respected is that it can feel, and never those perverse teachings of Christian religions that a life only deserves respect if it is human, if it reasons, if it is intelligent or if it has a soul (which according to stupid Christian religions, only humans have souls).

Therefore, whoever harms animals of other species, without it being a necessity to survive, without being out of a need for justice or defense in the face of an attack on oneself, in the face of an attack on a loved one, in the face of an attack on another human defenseless or in the face of an attack on other animals by a human; He is a coward for harming defenseless animals and deserves the death penalty.

I always have to remember that, before Christianity, white ethnic groups such as the Celts, Vikings, Slavs, Greeks, Romans and other white ethnic groups in Europe hunted for pleasure (without being a necessity to survive) and that the Vikings extinct the Walruses in Iceland.

Hunting for pleasure (without being a necessity for survival) in Greek engravings, there is evidence presented by experts that hunting for pleasure (without being a necessity for survival) was also practiced by the Celts, Vikings, Slavs and Basques in Europe. Images recovered from the Internet.

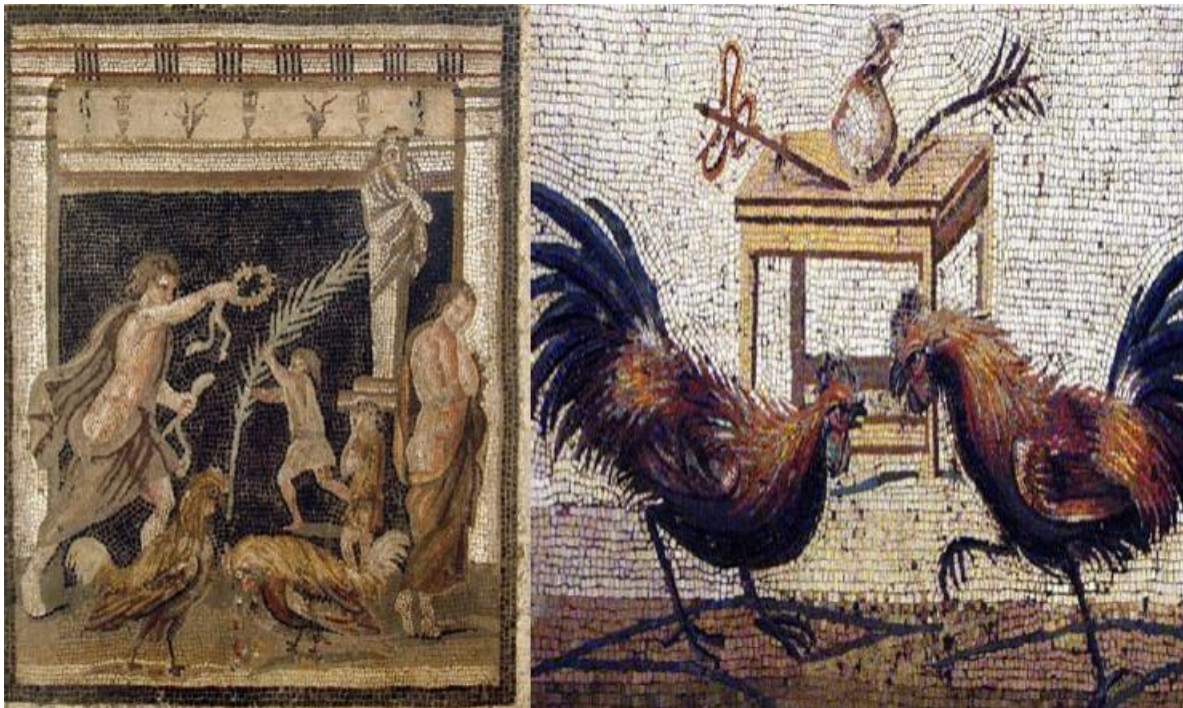

Hunting for pleasure (without being a necessity to survive) in Roman engravings. Images recovered from the Internet.

Los vikingos acabaron con las morsas en Islandia

Post titled: The Vikings wiped out the walruses in Iceland. Screenshot retrieved from: https://www.nationalgeographic.com.es/naturaleza/vikingos-acabaron-morsas-islandia_14926

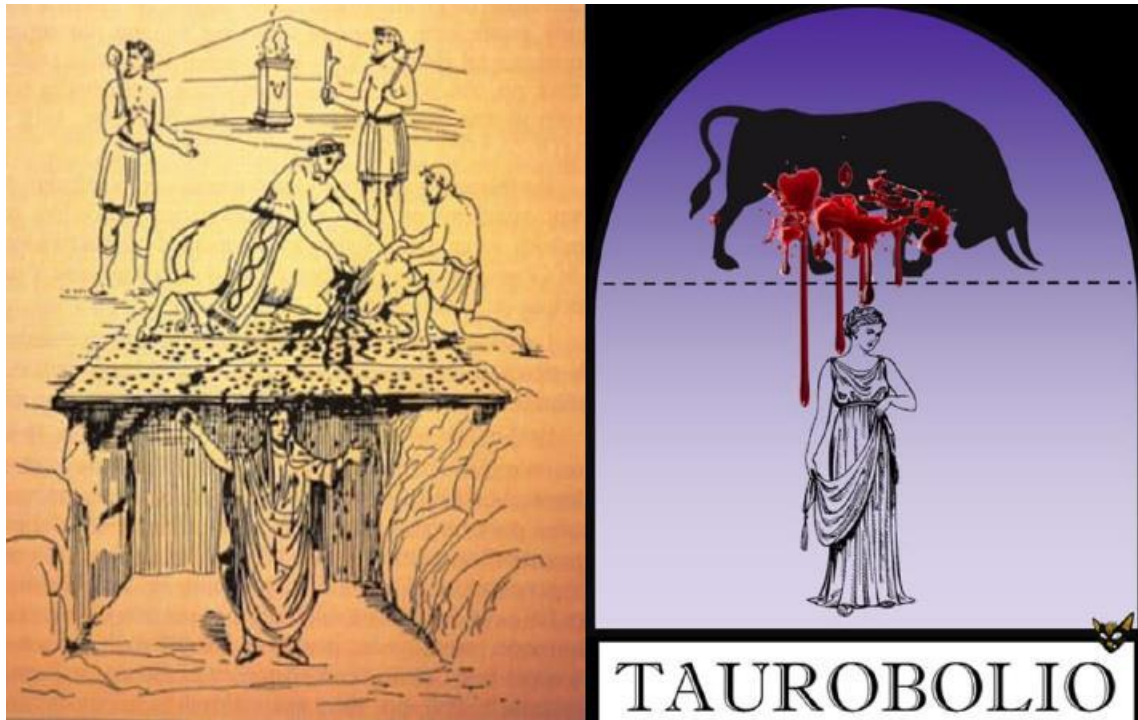

I always have to remember that, before the Christian religions, white ethnic groups like the Romans practiced cockfighting.

Cockfights in Roman engravings.

Although bullfighting as such emerged in Spain in the 13th and 18th centuries, before Christianity, white ethnic groups already had rituals that involved sacrificing bulls to their gods and that served as inspiration for bullfighting:

The bullfight dedicated to the god Attis and the goddess Cybele of the Greeks and Romans where they bathed in the blood of a bull, and the sacrifice of two white bulls or two white oxen to the gods that the Celts practiced.

The bullfight of the Greeks and Romans. Images recovered from the Internet.

The sacrifice of two white bulls or two white oxen practiced by the Celts to their gods. Images recovered from the Internet.

The Christian religions made everything much worse, but before the Christian religions when these white ethnic groups worshiped other gods, these white ethnic groups were already that way and the majority of their members (with very few exceptions) were born with evil in their genes.

As for these monsters that should have the death penalty, they treat the indigenous people like macaques. The skin of the indigenous people, which is

not white and not black, which is tanned, brown or reddish and soft, is a skin of great beauty and exquisite.

The slanted or almond-shaped eyes of the indigenous people are of great beauty. And the shiny black hair of many indigenous people is of great beauty. And many indigenous people have a beauty that non-indigenous people will never be able to surpass, because, in addition, white skin is rough, weak to the sun, easily irritated and has more hair:

Photographs recovered from social networks

Photographs recovered from social networks

Photographs recovered from social networks

Photographs recovered from social networks

Therefore, when there is mixing of indigenous people with races that are not indigenous, the vast majority (with few exceptions) tend to be selfish, individualistic and harmful to the environment due to their genetics, is something very sad because these beautiful physical features that are exquisite are lost.

The stupid majority (sick society), the neo-Nazis, the right, the neoliberals, social Darwinists and white neo-paganisms consider that: height in stature, white skin, blonde hair, light blue eyes and more open eyes are a symbol of power, beauty or perfection.

And Christian religions also because they represent Jesus Christ, the angels, virgins and saints most of the time with these European features.

It is proven that height in height generates greater health problems such as back and spine problems, greater risk of high blood pressure, greater risk of suffering from clots, greater risk of arterial fibrillation and greater risk of ulcers.

It is scientifically proven that white skin has a greater risk of skin cancer, sunburn, a greater risk of premature aging, white skin is more dehydrated, coarser, more irritated, and has more body hair that makes good hygiene difficult.

Blonde hair suffers more dryness, more dullness and more damage from the sun.

Light eyes, such as light blue eyes, are more sensitive to light and glare.

The medium or short height of the indigenous people generates less consumption, less possibility of having spine or back problems, less risk of suffering accidents, and less risk of ulcers.

The brown, reddish, cinnamon or tanned skin of the indigenous people, as it contains more melanin, better absorbs the vitamin D provided by the sun's rays, has less risk of skin cancer, remains more hydrated, has less irritation, fewer wrinkles and less aging.

The slanted, oblique or almond-shaped eyes of the indigenous people provide greater protection from the sun's ultraviolet rays and provide greater protection from the impact of the wind.

The black hair that predominates in many indigenous ethnicities is more radiant when reflecting sunlight, is less prone to sun damage and less prone to dryness.

I am white and I am tall, and I do not like these traits: criminals who defend colonization and harm to indigenous people to favor those who are not indigenous like Mamela Fiallo who, in her stupidity, says that the Bible is not sexist, when that god cursed Eve (the woman) to give birth in pain and submit to her husband, when in the New Testament it is written that women must remain silent in the congregation, which is a friend of Agustín Laje, who attacks the protection of the Yasuní Reserve where indigenous people live and who defends Ayn Rand just like Gloria Álvarez, they would say that I have low self-esteem and that I do not accept myself.

Genesis chapter 3, verse 16: - To the woman he said: I will greatly multiply your pain in childbirth, with pain you will give birth to children; and yet your desire will be for your husband, and he will have dominion over you.

1 Timothy chapter 2, verses 11, 12 and 13: -Let the woman learn quietly, with all obedience. I do not allow a woman to teach or to exercise authority over a man, but rather to remain silent. Because Adam was created first, then Eve.

Continuing with the comments about the shit called Anjinha, he says that homosexuals and transvestites cause AIDS and pedophilia.

Here we can see the stupidity of these garbage that only steal air and have shit in their heads instead of a brain: the origin of AIDS is related to zoophilia and the consumption of primate meat, AIDS originally only existed in chimpanzees, zoophiles who had sexual relations with chimpanzees and hunters who consumed chimpanzee meat were the causes of the virus infecting humans, the origin of the virus has no relationship with homosexuality.

We already know that Freemasonry is a disastrous and criminal institution that is based on social Darwinism and that they admire genocidaires who promoted the extermination of indigenous people, and it is a real institution because it has never hidden its existence and it is not secret because they do not hide.

But, those who invent conspiracy theories are all right-wing, neoliberals and conservatives who lie about Freemasonry saying that the Freemasons want to eliminate Christianity and that they want to reduce the population of the majority, such as when they mention the 2030 agenda, the LGBT agenda or that Climate change is a hoax.

And, furthermore, those who invent conspiracy theories promote hatred of minorities by generalizing and putting them in the same bag as when they say that the entire LGBT movement promotes pedophilia, or that all indigenous people perform human sacrifices, are cannibals, pedophiles or who practice infanticide.

Because these disgusting clowns like Anjinha, conservatives who invent conspiracy theories, right-wing and neoliberal shit:

They never comment on the many cases of heterosexual fathers abusing or raping their underage daughters and the many cases of heterosexual stepfathers abusing or raping underage stepdaughters.

And it is the same shit that generalizes and puts all homosexuals in the same bag stating that they are all pedophiles, but they are the same ones who complain when fanatic feminists say that all men are abusers, rapists or sexual harassers.

And then there is Maria with the number +55 11 95247-5756 publishing an image of death to gays and another of an umbrella with the Nazi symbol of the swastika.

But, these right-wing shits and neoliberals or libertarians when it suits them say that Hitler and the Nazis were left-wing or communists, when in reality the right and the neoliberals or libertarians are neo-Nazis and Zionists at the same time.

For this reason, feminism often also works on the right, because many women like Maria are exactly the same as most men, they have no differences from sexist men, just as white supremacists, sadistic, cruel and social Darwinists as the most men.

But, much of the left also promotes this feminism that favors a majority of women who are equal to the majority of men. Many women are not innocent and delicate creatures, in fact they are just as harmful as many men.

Furthermore, many women love cowboy men, men who bully, colonizers, men who hunt for pleasure, men who harm the weakest, and men who harm the most vulnerable, and many women consider these types of men as brave, powerful, attractive and virile because they think exactly the same as those men, and the worst of all is that they have children with those men, causing this type of trash humans to continue existing on the planet, which is why many women are not innocent victims.

The problem is that when the working class is defended, that working class includes ranchers, miners and loggers.

For this reason, unions defend those who oppress indigenous people, those who destroy the environment and those who harm animals for pleasure.

You, for example, come to the countryside like where I live: and you realize that the majority of that peasant working class who are not indigenous because they are Creoles, white mestizos, brown mestizos, blacks and mulattoes, hunt for pleasure without it being a necessity to survive. , they defend Christianity in a very fanatical way, they go to cockfights, they consider the indigenous people as ugly, and although some hypocritically say that they are proud of their indigenous roots or that they have indigenous ancestors such as a grandfather, grandmother or great-grandfather, They don't care about the indigenous people in the least and they don't do anything to defend them.

They have a concept of beauty that revolves around white and European, they prefer black people over indigenous people, they are selfish, individualistic and one asks them what they would do if they had money and many answer: trips to Europe, latest model cars, when Many men say that women spend money, that is, on sex, parties where people like the majority gather, the most luxurious cell phones, luxury houses and luxurious objects, and many women say the same thing that they would spend money on makeup, shopping, brand name clothes, brand name cell phones, and that they would look for a millionaire white man to be of the millionaire class if they have money.

So in the end that working class has the same way of thinking, being and vision of the world that the bourgeois have. It's like when feminism claims that the fault of machismo lies only with men when the majority of women like sexist men and think exactly the same as a sexist man.

For indigenous coins, the indigenous people did not cut down trees to make that paper they call money.

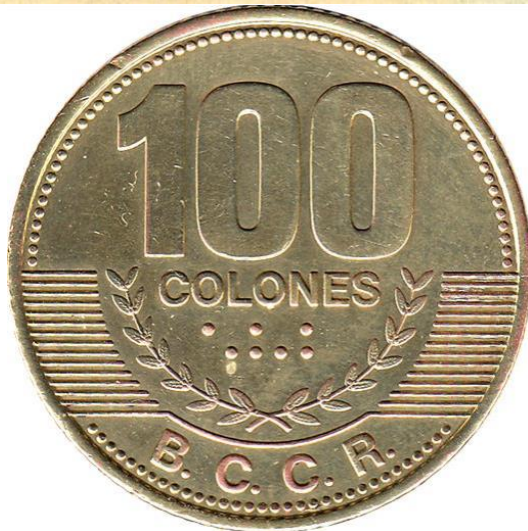

The indigenous coins were seeds like cocoa beans or other seeds that could be planted, and they were the feathers that naturally fell from birds and the shells that could be used in ceremonies.

The indigenous economy was not based on one person getting rich while others starve. The indigenous economy was based on reciprocal exchange where that balance was established between giving and receiving.

It's like the royalty within the indigenous ethnic groups, the royalty within the indigenous ethnic groups were nothing like European royalty. The indigenous economy was based on barter, exchange, the balance between giving and receiving equally.

On all or most of the banknotes and coins created by those who are not indigenous: tribute is paid to presidents, colonizers and politicians who oppress indigenous people, who made hate speeches against indigenous people, who caused indigenous people to be expelled from their territories and that caused massacres of indigenous people such as George Washington on the one dollar bill, Andrew Jackson on the twenty dollar bills, the colones of Costa Rica in homage to Christopher Columbus, the 50 Argentine peso bills that contain the face of Domingo Faustino Sarmiento, the 5 colone bills from Salvador both for the name and for the face of Christopher Columbus and the córdoba in Nicaragua which, both for the name and for the faces, pay homage to the Spanish colonizer called Francisco Hernández de Córdoba.

CHAPTER III: AYN RAND, THE EXTERMINATION OF THE INDIGENOUS AND GLORIA ÁLVAREZ.

Ayn Rand was a perverse philosopher who defended capitalism, individualism and selfishness. Ayn Rand is highly promoted by the right, by neoliberals or libertarians and served as an inspiration for Anton LaVey who was the founder of the first satanic religion called the Church of Satan.

Reich-Wing Watch is a YouTube channel that denounces the Right, Neoliberals and fascism, exposing their crimes and the atrocities they promote.

Reich-Wing Watch published a video showing a speech by Ayn Rand where this criminal defends the extermination of natives (indigenous people).

Video from the YouTube channel called Reich-Wing Watch with the title: Audio: Ayn Rand on Supporting Genocide of Native Americans (with text). Screenshot retrieved from: <https://www.youtube.com/watch?v=GPC7ICSI5Cg>

To defend the extermination of indigenous people, Ayn Rand says: - I don't think they had any right to live in a country simply because they were born here and acted and lived like savages.

All those who hate indigenous people claim that they are savages, but because of the atrocities that those who are not indigenous did to the indigenous people, no one claims that those who are not indigenous are savages, because of the harm for pure pleasure (without being a necessity to survive) that non-indigenous people do to animals of other species, no one says that non-indigenous people are wild, and for all the environmental pollution caused by non-indigenous people, no one says that non-indigenous people are wild.

Then Ayn Rand says: - they broke the agreements and attacked the white settlements. What were they fighting for if they opposed the white men on this continent? Because of his desire to continue a primitive existence?

What the criminal Ayn Rand does not say in her speech to justify the genocide of the indigenous people is that those agreements that the natives signed with the whites were signed through deception.

The white colonizers made the indigenous people believe that if they signed the agreements where they gave a large part of their land to the white people, they would let them live in a small reservation. What they never told the indigenous people was that those lands that they gave them as reserves. Many times they were not suitable for cultivation and this was done with the purpose of exterminating the natives through famine.

Logically, when the indigenous people (natives) realized the deception it was already too late. The colonial meaning given to the word primitive has also been used to justify massacres of indigenous people.

Ayn Rand says: - Your right to keep a part of the earth untouched, unused, and not even own property but just keep everyone out, so that you have to live, practically like an animal or maybe in some caves above? Any white person who brings the element of civilization has the right to take over this country.

When this criminal says that the indigenous people lived like animals, she means that they were self-sufficient before colonization, they produced their own food and lived in harmony with the environment. And what this criminal calls civilization is simply the destruction and pollution of the environment.

Ayn Rand says: - and what Indians do not believe to this day: respect for individual rights.

When criminals like Ayn Rand talk about individual rights, they are not referring to the right to life.

Libertarian or neoliberal and right-wing criminals with individual rights refer to considering land as simple property and money because all these criminals place money and private property above the right to life.

Ayn Rand says: - By the way, I am for Israel against the Arabs for the same reason. Just as the white settlers of America represented the progress of the mind, not centuries of brute stagnation and superstition.

Ayn Rand was an atheist, but she supported the crimes committed by white colonizers who belonged to Christian religions against indigenous people and the crimes committed by Israelites of Jewish religions against Palestinians.

This is how we can know that atheism serves the interests of Christianity and Judaism, as I will explain in greater depth later.

Furthermore, Ayn Rand's criminal once again refers to the colonialist meaning given to the word progress.

What a coincidence: Ayn Rand came from a Jewish family, that's why I'm not wrong when I talk about genetic evil, I don't give a shit what the moralistic, egalitarian and corny left thinks about political correctness, there is no such thing as anti-Semitism, period, and anti-Semitism does not exist because Jews are not races just as Muslims are not races.

Helena Blavatsky was a Russian who, together with a Masonic colonel from the United States, founded Theosophy, which later gave rise to the New Age. Ayn Rand is another Russian who became naturalized in the United States.

Reich-Wing Watch on its Instagram account exposes the following libertarian candidate named Matthew Schutter who is against the LGBT movement and surely like others on the right, neoliberals or libertarians and conservatives who invent conspiracy theories, he accused the LGBT movement of promoting pedophilia:

Matthew Christopher Schutter, 53, is charged with 40 counts of sexually abusing children and sharing photos and videos of the abuse with others.

Screenshot recovered from the Reich-Wing Watch Instagram account

Reich-Wing Watch also exposes on its Instagram account how a criminal who supports Donald Trump named William Lee Show was arrested for sexual abuse of children, possession of child pornography and manufacturing child pornography.

Screenshot recovered from the Reich-Wing Watch Instagram account

Interesting how all these right-wing capitalists, neoliberals, libertarians and conservatives who invent conspiracy theories, and who accuse the left, communism and the LGBT movement of promoting pedophilia: they are all those disgusting right-wing capitalists, neoliberals, libertarians and conservatives are the disgusting pedophiles who sexually abuse or rape minors, then the disgusting people project what they are onto the people they hate.

We must never forget that: Donald Trump was a personal and close friend of the pedophile Jeffrey Epstein who, through coercive manipulation and threats, dedicated himself to sexually trafficking women who were minors on Little St. James Island.

Photographs recovered from the Internet

But, like every cowardly criminal and lying psychopath, when all this became known, Donald Trump denied any relationship with Jeffrey Epstein.

Continuing with the topic of Ayn Rand: a libertarian who promotes Ayn Rand is Gloria Alvarez, and therefore by promoting her she is supporting Ayn Rand's speech that justifies the extermination of natives (indigenous people).

In relation to that disastrous video in favor of Ayn Rand:

Both giving everything for others and giving everything only for oneself (egoism) are imbalances, they are sides of the same coin, everything must be a balance between giving and receiving.

And furthermore, collectivism does not deny the individual, this is what these right-wing, capitalist and neoliberal garbage do not understand that collectivism does not deny the individual, but individualism does deny collective well-being.

Collectivism never nullifies the individual, each individual simply serves the collective well-being and by serving the collective well-being all individuals mutually benefit.

And collective well-being is not putting money above everything, collective well-being is protecting the other nature that we need to live, it is sharing, it is where it is served for the collective good, but where all individuals benefit

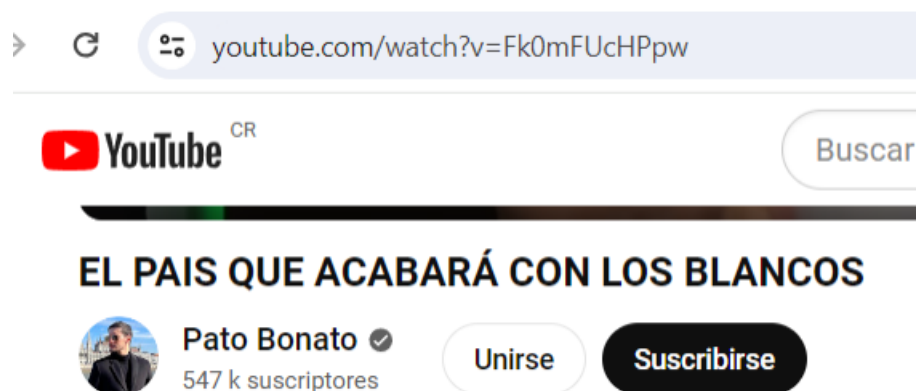

mutually, where there is a mutual and constant give and receive, therefore, collectivism does not nullify the individual.

On the other hand, that bullshit of individualism (egoism) that right-wing and neoliberal garbage promotes so much, by placing money and technology above life and nature, When it should be the opposite of nature and life being above money and technology, what it does is that, by focusing solely on the individual, it denies the collective, if it denies collective well-being, by focusing only in individual well-being.

And the biblical god promoted selfishness (individualism) by telling human beings to dominate or subjugate nature, by telling humans to cause fear of animals of other species, That is why their servants (Jews, Christians and atheists) do not care about destroying nature and harming collective well-being in exchange for individual monetary gains, and this is why capitalism, the right and neoliberals are not the opposite to Christianity.

All of these who caused the extermination of indigenous people in exchange for money to use their lands for livestock raising bulls, cows, goats and sheep, mining and the logging industry that the right-wing scum and neoliberals so defend, were Christians, and the atheists They are part of the same by supporting the right, neoliberalism, the Western and the European.

Now, we are going to analyze a video called: the country that will end the whites. This video was published by the right-wing YouTuber who calls himself Pato Bonato.

Video titled: the country that will end the whites. Screenshot retrieved from:
<https://www.youtube.com/watch?v=Fk0mFUcHPpw>

The first thing we must analyze from the video is:
Who are the white people what is this YouTuber defending in the video?

Screenshot obtained from the video

The white people that this YouTuber defends in the video are farmers descended from colonizers who are dedicated to livestock raising bulls, cows, sheep and goats.

That is to say, this YouTuber is defending criminals who affect everyone's lives because the livestock farming that is dedicated to raising these animals generates large emissions of methane and carbon dioxide, causing destruction of hundreds or thousands of meters of forest and ecosystems to make pastures, generates enormous water consumption, contaminates the water with the blood, excrement and waste of these animals, and by emitting polluting gases excessively, causes droughts.

Someone can tell me that a car also pollutes, but a car does not take up much space in a place. On the other hand, livestock farming dedicated to raising these animals causes the destruction of hundreds or thousands of meters of forests and ecosystems to make pastures for these animals.

The excessive high emissions of methane gas caused by the farming of these animals cause serious effects on human health such as complications of asthma, lung dysfunctions, respiratory tract irritation and premature deaths.

Because cows have a larger digestive system than the digestive system of humans and larger than the digestive system of other animals, and consume much more food per day, they produce excessively large emissions of carbon dioxide and methane per day.

Excessive amounts of carbon dioxide cause respiratory diseases, endothelial dysfunction, bone demineralization, and reduced cognitive abilities.

Since the livestock that is dedicated to raising these animals uses a lot of water because these animals consume more water than humans and consume more water than other animals, and generates large emissions of methane and carbon dioxide that affect the climate: it is guilty of the droughts.

Droughts are a threat to food cultivation:

It is for all this that the consumption of red meat that comes from livestock that is dedicated to raising these animals, the consumption of animal milk and its dairy derivatives, and the use of animal leather, should be considered serious crimes because they are a danger to human life and an environmental crime.

In addition, a large part of the destruction of the Amazon is caused by the livestock that is dedicated to raising these animals and by the cultivation of soybeans, where a large part of the percentage is used to make concentrates to fatten these animals.

In the United States and Canada, most of the settlers who murdered indigenous people were cowboys. In Chile and Argentina, the murderers who

exterminated indigenous people of the Selk'nam ethnic group were dedicated to the livestock that raises these animals.

And the majority of criminals who invade indigenous territories and burn indigenous territories are ranchers who are dedicated to raising these animals.

Image and photograph recovered from the Internet.

When I have approached a place where there are ranches dedicated to raising animals such as bulls and cows, the bad smell is unbearable and reaches up to a hundred meters away.

Therefore, livestock farming dedicated to raising these animals is both a criminal and genocidal activity and an unhygienic and disgusting activity.

How strange that Elon Musk is affected by this supposed white genocide.

But, don't be affected by the genocide of the indigenous people, because the damn Elon Musk made deals with Jair Bolsonaro and his company Tesla also destroys the environment because lithium and lead are used to make the batteries for electric cars, that's why Electronic cars are not really an ecological option.

During his government, Jair Bolsonaro and the military police (PM) of Brazil caused massacres of indigenous people of the Guaraní-Kaiowa ethnic group and Jair Bolsonaro caused the deaths of hundreds of indigenous children of the Yanomami ethnic group by allowing illegal miners to invade their territories.

Elon Musk and Jair Bolsonaro. Photograph recovered from the internet.

It strikes me that Pato Bonato talks about the supposed genocide of whites in this country, but not about the genocides of indigenous people that occur daily on the continent with the complicity of the majority who are not indigenous.

In 2019, the government of Jeanine Añez in Bolivia caused these massacres of indigenous people:

Photographs recovered from the Internet

Dina Boluarte has caused these massacres of indigenous people in Peru:

Photographs recovered from the Internet

Guillermo Lasso together with the police and the military army of Ecuador have caused these murders of indigenous people:

Photographs recovered from the Internet

While in all countries of the continent, indigenous people continue to suffer hatred, invasion of territories, massacres, exterminations, discrimination and continue to suffer a hidden genocide by suffering famine for lacking the means they had in the past to be self-sufficient:

The majority of those who are not indigenous (Europeans, Creoles, mestizos, blacks, mulattoes and Asians) remain silent, are apathetic and are indifferent to everything that indigenous people suffer in the present, and, therefore, are complicit and equally guilty, and with this they demonstrate a conscious or unconscious hatred of the indigenous people, even if they deny it.

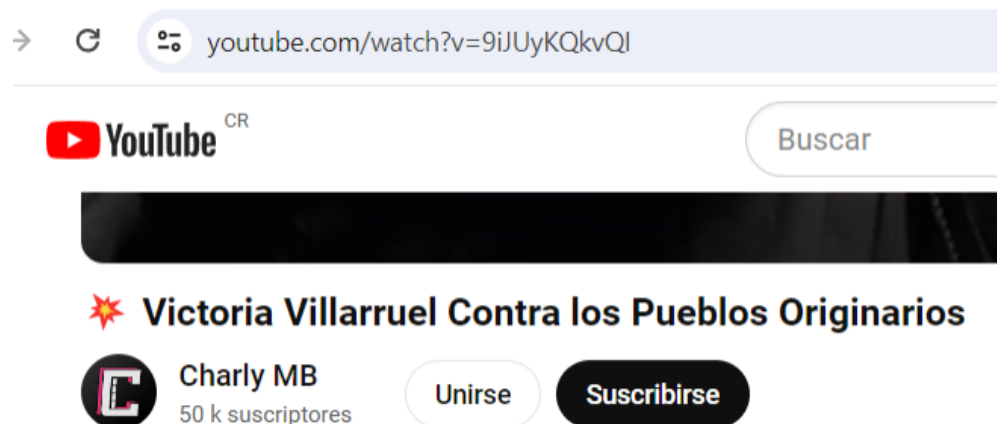

The right and the neoliberals cling to what happens in a single country to put white people as victims and talk about the conspiracy theory of the great replacement where, according to these stupid people, the elites want to replace white people.

All these politicians who promote hatred of indigenous people, who cause massacres of indigenous people, who cause indigenous people to be expelled from their territories and who cause extermination of indigenous people, came to power because a criminal majority (that is not indigenous) supports them.

In Argentina, those who hate indigenous people claim that the Mapuches are invaders who came from Chile and who exterminated other indigenous ethnic groups. But, the real experts assure that before the arrival of the Europeans, the Mapuches were present in both Argentina and Chile.

Furthermore, there is no evidence that the Mapuches caused an extermination of other indigenous ethnic groups, but, even if that had happened in the past, the Mapuches of the present are not to blame for what other Mapuches may have done in the past.

On the other hand, all those who accuse the Mapuche of all this: they descend from European colonizers who caused massacres of many indigenous ethnic groups in Argentina.

News titled: President Javier Milei is a catastrophe for the indigenous people in Argentina. Screenshot retrieved from: <https://ici.radio-canada.ca/rci/es/noticia/2035050/milei-catastrofe-indigenas-argentina>

But, the genocide of indigenous people occurs daily on the continent and governments always want to replace the indigenous people with Creoles and mestizos, and none of these Youtubers and Influencers care about what the indigenous people suffer, because they even support the genocide of indigenous people like Dalas Review does by supporting or justifying the right and neoliberals.

For example, Dalas Review supports Javier Milei with what he is clearly supporting the genocide and extermination of indigenous people:

Dalas Review video titled: Vote Milei Long live Freedom!!!. Screenshot retrieved from: <https://www.youtube.com/watch?v=IRITIBpY5ww>

And if on the one hand those YouTubers and Influencers support the right and the neoliberals, they promote them or simply justify them with what they are clearly supporting the genocide and the massacres of indigenous people.

On the other hand, the majority of YouTubers and Influencers who are left-wing: do not comment enough on the genocide that indigenous people continue to suffer in the present and how the majority of those who are not indigenous are complicit.

Just as no one should watch television, movies, or series: no one should see or listen to these YouTubers and influencers.

To be entertained, YouTubers are not necessary, influencers are not necessary, television is not necessary, movies are not necessary and series are not necessary.

For entertainment: you can spend time in nature, adopt an animal and share time with the animal, exercise, play sports, and spend time with loved ones.

In Colombia, for example, the indigenous people of the Emberá ethnic group suffer expulsions from their territories by the police and the military, which often leads them to live in poverty and go hungry with their families.

And in Colombia: when the Emberá indigenous people defend themselves and take revenge on the police and the military; The media such as television, politicians and the damn majority who are not indigenous, treat indigenous people as criminals, savages or terrorists, and the same thing happens in all the countries of the continent.

This clown from Pato Bonato says that the absolute indifference of the Western media, but the indifference with the lives of the indigenous people, the idiot doesn't care, what a clown this guy is, and just by seeing his appearance due to genetics you already know the class of person he is.

The clown says that the media does not talk about this every day, but he does not care that they do not talk about what the indigenous people suffer and that they even treat the indigenous people as terrorists, savages or criminals when they defend their rights.

The clown says that the perpetrators of these crimes are acquitted by the courts, but he does not care that on this continent those who commit crimes against indigenous people most of the time go unpunished and harsh sanctions are not applied to them.

The clown complains that someone saying that white farmers should be killed is freedom of expression, but he doesn't care that social networks like Twitter, Facebook and Instagram and video platforms like YouTube allow hateful comments against indigenous people where criminals express that all indigenous people should be exterminated, and never delete these comments or the accounts that make them.

He complains that in that country only blacks govern, when on this continent the indigenous people do not govern, even though they were first of all.

And it is fair that only black people govern in Africa, just as it would be fair that only indigenous people govern on this continent; white people already have Europe to govern.

Therefore, I am not wrong when I say that genetics do influence behavior, I have met many people with the appearance of that Youtuber and they are all like that, it is the shitty genes they are born with.

And it is really very sad that the mother of these parasites that are a cancer for the planet, has not aborted them, if they had aborted them the world would be better off without these garbage that brainwashes young people.

Another thing, whenever someone talks about the glass generation, they are all right-wing and neoliberal, and many of them, part of them are neo-Nazis and the other part are Zionists, another way to identify them is that they always talk about progressive as if it were something bad and conservative as something good.

Another tomfoolery: white lives matter too. Ha ha ha, what a joke, I'm white, but the majority of white people and the majority of mixed-race people are trash to me, and the clown says that they have no mercy on white people, as if the majority had had mercy with the lives of indigenous people when they have suffered exterminations and genocide, and when they vote for politicians who harm indigenous people.

Another thing the clown says is the Christian shit that revenge is bad, that resentment is bad and that resentment is bad, he had to be a right-wing idiot and a believer in conspiracy theories for him to say that garbage

Also, when those who invent conspiracy theories, from the right and neoliberals, talk about the crystal generation, it is like they live in a parallel universe, because they think that the majority of young people are different from them when the majority of young people It's like them.

Just like when these right-wingers, neoliberals and those who invent conspiracy theories talk about there being a conspiracy against Christianity:

What conspiracy against Christianity if movies, series and soap operas continue to promote Judeo-Christian beliefs (god of the Bible, devil, Jesus Christ, antichrist, angels and demons)?

Or when the clowns talk about a conspiracy to reduce the world population: Where has that happened?

Yes, the only ones that governments and elites want to exterminate are the indigenous people, not the majority.

But, all these Right-wingers, Neoliberals and conspiracy theorists who accuse those of us who defend minorities of victimizing minorities, are the ones who victimize a majority that has never been a victim, but a majority that loves to believe that they are victims.

The clown says:

Is there any country in the world where white people are currently determined to kill and exterminate the black race?

Not currently with the blacks, but with the indigenous people always, examples of countries determined to exterminate the indigenous people are Brazil and Argentina, but the same thing happens throughout the continent, the

priority of the governments are the whites and the mestizos, not the indigenous people, and the majority that is not indigenous is complicit in what indigenous people suffer through their silence and indifference.

These Right-wing people always come out with their conspiracy theories, the clown talks about how soon white people will be a minority, I don't know whether to laugh or cry, because white people are 75% of the world's population, it's like when they talk about how the elite wants reduce the world population, when every year the human population grows more.

But, since the majority of humanity is stupid, and does not analyze true data and they love to pretend to be victims, that is why they believe them.

I can read non-verbal language such as looks, facial expressions and gestures, and for me this is not a coincidence and it is not something learned, I do believe that a large percentage is genetics, they are already born this way, that is why the importance of this people don't reproduce.

Another video of Pato Bonato

Three of those who appear in this video promote the extermination of indigenous people: Donald Trump, Javier Milei and Jair Bolsonaro. But the clown, since he is from the right, a believer in conspiracy theories and surely a Christian religion like all of them, does not talk about this, and says the joke that they want

to exterminate white people and that no one talks about exterminating white people.

We must also question why it mentions only whites and blacks, and not indigenous people. Regarding Nayib Bukele, although there is no hate speech against indigenous people, Nayib Bukele does show silence, apathy and indifference to the life of indigenous people, and a preference for whites and mestizos.

Those who hate indigenous people claim that all indigenous ethnic groups and all indigenous people of each ethnic group made human sacrifices. It is not true that all indigenous ethnic groups made human sacrifices, nor that all indigenous people of each ethnic group made human sacrifices.

But, if that had been the case, this was done by the indigenous people of the past and not the indigenous people of the present, to worship the indigenous gods in the present it is not necessary to make human sacrifices to them and these criminals promote hatred of the indigenous people of the present who do not human sacrifices.

On the other hand, white ethnicities made human sacrifices in the past, the Vikings practiced the blood eagle human sacrifice, and the Celts practiced human sacrifices such as the wicker man and other forms of human sacrifice, and no one promotes hatred of the whites in the present for this.

Images recovered from the Internet

On the other hand, in one part of the Bible, the Judeo-Christian god accepts a human sacrifice:

Judges chapter 11, verses 30 and 31: And Jephthah made this promise to the Lord: If you give me victory over the Ammonites, I will offer you as a burnt offering to the first one who comes out of my house to meet me when I return from the battle.

Judges chapter 11, verses 32 and 33: Jephthah invaded the territory of the Ammonites, and attacked them, and the Lord gave him victory. Jephthah killed

many enemies, and conquered twenty cities between Aroer, Minith, and Abel-cheramim. In this way the Israelites dominated the Ammonites.

Judges chapter 11, verses 34 and 35: When Jephthah returned to his house in Mizpah, his only daughter came out to greet him dancing and playing tambourines. Apart from her, he had no other children, so, when he saw her, he tore his clothes in desperation and said to her: "Oh, my daughter, what great pain you cause me!" And you yourself are the cause of my misfortune, because I have made a promise to the Lord, and now I have to fulfill it!

Judges chapter 11, verses 38 and 39: Jephthah granted her two months, and during that time she walked through the mountains with her friends, crying because she was going to die without having married. After that time he returned to his father, and he fulfilled the promise he had made to the Lord. Jephthah's daughter died without having had sexual relations with any man.

Jephthah sacrificed his own daughter to the Judeo-Christian god, and the Judeo-Christian god did nothing to stop it.

Those who hate indigenous people claim that all indigenous ethnic groups and all indigenous people of each ethnic group practiced cannibalism. It is not true that all indigenous ethnic groups practiced cannibalism, nor that all indigenous people of each ethnic group were cannibals.

But, even if that were the case, the indigenous people of the present do not practice cannibalism. And these criminals promote hatred of the indigenous people of the present who are not the same indigenous people of the past.

It is known that all white ethnicities are of Indo-European or Eurasian origin and it has been proven that Europeans have 2% of DNA that comes from Neanderthals, it is known that Neanderthals practiced cannibalism and no one has justified the hatred of Europeans of the present for this.

But, in addition, the Judeo-Christian god affirms that he causes cannibalism:

Leviticus chapter 26, verses 26, 27 and 28: If you still do not listen to me, but proceed against me in opposition, I will proceed against you in anger, and will punish you seven times for your sins. And you will eat the flesh of your sons, and you will eat the flesh of your daughters.

Deuteronomy Chapter 28, verse 53: And you shall eat the fruit of your womb, the flesh of your sons and your daughters, which the Lord your God gave you, in the place and in the trouble with which your enemy will distress you.

Jeremiah chapter 19, verse 9: And I will make them eat the flesh of their sons and the flesh of their daughters, and each one will eat the flesh of his friend, in the siege and in the hardship with which their enemies and those who seek their lives will surround them.

And if anyone does not believe me that everything I mention in this book is written in the Bible, I challenge you not to be a coward and look for these parts in your Bible for yourself so that you can verify for yourself that all of this is written.

Those who hate indigenous people claim that all indigenous ethnic groups and all indigenous people of each ethnic group practiced infanticide. It is not true that all indigenous ethnic groups practiced infanticide, nor that all indigenous people of each ethnic group practiced infanticide.

But, even if that were the case, the majority of indigenous people today do not practice infanticide. And these criminals promote hatred of the indigenous people of the present who are not the same indigenous people of the past.

It is known that white ethnic groups such as the Vikings practiced infanticide when they sacrificed the weakest children to their gods and that the Romans also practiced infanticide, and no one justifies hating present-day white people with this.

The Judeo-Christian god ordered infanticide when he ordered the killing of children and pregnant women in the Bible:

Isaiah chapter 13, verse 18: They will sweep away the young with bows, they will not have mercy on the fruit of the womb, nor will their eyes have mercy on the children.

Hosea chapter 13, verse 16: Samaria will be desolate, because she rebelled against her God; They will fall by the sword; Their children will be dashed to pieces, and their pregnant women will be cut open.

Psalms chapter 137, verses 9: Blessed is he who takes and dashes his little ones against the rock.

Isaiah 13, verses 16 and 17: Their children will be dashed before them; Their houses will be looted, and their women raped. Behold, I awaken the Medes against them.

And the European colonizers, when they invaded indigenous territories and waged war on the indigenous people, also committed infanticide when they murdered indigenous children.

Those who hate the indigenous people affirm that the indigenous ethnic groups themselves waged war against each other to justify their hatred of the indigenous people.

But, among the white Europeans themselves, they waged war against each other before colonizing this continent, some examples are:

Hundred Years' War (1337-1453): conflict between England and France.

Thirteen Years' War (1474-1487): conflict between Spain and Portugal for control of the territory of Guinea.

War of the Castilian Succession (1475-1479): conflict between Spain and Portugal over the succession to the throne of Spain.

Anglo-Spanish War (1585-1604): conflict between England and Spain due to the religious and political differences of the time.

And among the different Christian religions there were wars between some Christian religions against other Christian religions, such as the following:

Eighty Years' War (1568-1648): conflict between the Netherlands (Protestant) and Spain (Catholic).

Thirty Years' War (1618-1648): A conflict that involved several European nations, including the Holy Roman Empire, Sweden, France, and Spain, and which began as a war between Catholics and Protestants in Bohemia.

Hundred Days War (1648-1649): conflict between France (Catholic) and Spain (Catholic) for control of Flanders.

War of the Portuguese Restoration (1640-1668): conflict between Portugal (Catholic) and Spain (Catholic) after the independence of Portugal.

Franco-Dutch War (1672-1678): conflict between France (Catholic) and the Netherlands (Protestant) for control of the Spanish Netherlands.

Nine Years' War (1688-1697): conflict between France (Catholic) and the League of Augsburg (Protestant) within the framework of the Nine Years' War.

Among the same Europeans from different countries, they killed each other in the First World War and in the Second World War, and no one justifies hating Europeans for this.

I have never said that all indigenous people are good, obviously there are good indigenous people and there are bad indigenous people, and the indigenous people are not perfect because no one is perfect, perfection does not exist, perfection is just a Judeo-Christian myth.

But, although there are good indigenous people and bad indigenous people, and the indigenous people are not perfect because perfection does not exist: the indigenous people have genetics that make them simpler, more humble and less consumerist, and that makes them live more in harmony with the other nature.

And I must clarify that indigenous humility does not consist of feeling inferior, it does not consist of humiliating oneself and it does not consist of feeling less.

Indigenous humility consists of not feeling superior and not feeling inferior, in sharing, in hospitality, in reciprocity, in giving and receiving, and in feeling united with Mother Earth.

The world would be better and would not be on the verge of destruction: if the majority of its inhabitants were indigenous and those who are not indigenous were the minority in population.

But, unfortunately: the majority of the planet's inhabitants are not indigenous and indigenous people are only a minority of 5% of the world's population.

And since many indigenous people are incapable of taking revenge against the majority of those who are not indigenous, against the governments and against the elites for their ways of being or because they are manipulated by left-wing ideologies with pacifism, the ideology of equality or what politically correct, then:

If some people who are not indigenous agree completely with me, and have the power to do so: they should take revenge against the majority of those who are not indigenous, against the governments and against the elites for all the damage they did to the indigenous ethnic groups, and they should return control of the continent to the indigenous people.

Miscegenation was another plan by elites and governments to eliminate indigenous people. But many indigenous people, upon seeing that mestizos were treated better, accepted miscegenation so that, according to them, their children would have a better life.

Also, the elites and governments have always used to put some indigenous people against others to kill each other, this is what all the colonizers did, whether Spanish, Portuguese, English, French and others, to recruit indigenous people of different ethnicities to beat indigenous people of other ethnicities.

Many times they recruited indigenous people from some ethnic groups to defeat indigenous people from other ethnic groups through deception, promising them better treatment and not exterminating them, but after the battles, they never fulfilled the promises and always had a domination deal with the indigenous people.

It was the same thing that the United States government did by deceitfully getting the indigenous people to sign peace treaties where in those peace treaties the indigenous people gave up most of their lands and the government sent them to small reservations, What the government never told them was that in those small reserves the land was not suitable for cultivation, and in the end those reserves were concentration camps to make them die of hunger and to be able to exterminate them more easily.

Unfortunately there are also some indigenous traitors on the side of those who oppress them. Look at this photo:

Photographs recovered from the Internet

In the previous photo, former President Donald Trump meets with natives (indigenous people), and behind him he places the photo of the Freemason president named Andrew Jackson who was a murderer of indigenous people.

The elites and governments in power have always taken great pleasure in making indigenous people who hate viscerally feel that they are in their hands and that they cannot escape their control, it is as if telling them that if they want to live they have to accept domination, hatred and contempt, and loving those who hate them, turning the other cheek to them and forgiving them everything.

But, all these governments and elites that viscerally hate indigenous people are in power because the majority that is not indigenous votes for them and keeps them in power, that is why the majority that is not indigenous are complicit and guilty of everything that indigenous people suffer.

It works this way: governments and elites are sadistic, and they want indigenous people to be masochistic, that is why they sexualize the domination and extermination of indigenous people, governments and elites are perceived as predators, and indigenous people are seen as prey, resources or objects.

There are videos that sexualize the relationship between cowboys and indigenous people:

Cannibal Holocaust II was a way of both denigrating indigenous people and sexualizing domination due to its high sexual or erotic content. In these films they present the indigenous people as savages, but they also have a high sexual content, which shows a fetishism of those who produce them.

Images recovered from the Internet

In a cartoon there appears an indigenous character who dressed as a cowboy and defended the white settlers; the indigenous character served the white settlers with great pleasure.

Images recovered from the Internet

That this indigenous character is represented as a cowboy is as if saying that indigenous people must love their oppressors, remember that the livestock that is dedicated to raising bulls, cows, goats and sheep for meat, leather, wool, milk and dairy products were brought by European colonizers.

The cowboys were the ones who murdered indigenous people the most, and this causes the destruction of forests and ecosystems to make pastures for these animals, and also causes large emissions of methane and carbon dioxide.

For all this, I do believe that governments and elites have a sadistic sexual fetish with indigenous people. It is not news that governments and elites in power are sadistic people.

When an Italian producer made the movie: Salò Or The 120 Days Of Sodom. In addition, making a reference to the Bible, specifically to a part of the Old Testament invented by the Jews, in that film it is represented as the political elites and the religious elites are, and everything comes from Rome:

Image recovered from the Internet

It makes me sick to have to mention this film because of the pedophile content and allusion to coprophagy, but exactly how the political elites, religious elites and military elites (who are in power with the support of the majority) are represented in the film, that's how they are in real life.

Images recovered from the Internet

Just as the political elites, religious elites, and military elites are disgusting in that movie, so they are in real life.

A mistake that the majority of indigenous people often make is to care about the lives of those who are not indigenous, when the majority of those who are not indigenous remain silent about what the indigenous people suffer, are apathetic and indifferent to what the indigenous people suffer, and see films and series that promote hatred of indigenous people.

Governments and elites take pleasure in harming and oppressing indigenous people, but they also take pleasure in the fact that the majority of non-indigenous people make indigenous people invisible, look down on indigenous people were inferior, humiliate the indigenous people and make fun of them, remain silent, apathetic and indifferent to what the indigenous people

suffer, despise the physical features of the indigenous people and vote for politicians who harm the indigenous people.

It is a fact that Christian religions continue to cause extermination of indigenous people because all the governments that cause murders of indigenous people belong to Christian religions, but the majority of indigenous people are from Christian religions and submit to Christian moralisms. But, this is the fault of colonialism caused by those who are not indigenous.

CHAPTER IV: THE NEW AGE, THE HIPPIES AND PACIFISM.

The New Age consists of a religious salad where Judeo-Christian beliefs are mixed with Buddhism, Hinduism, paganism, magic rituals, sometimes with indigenous beliefs, and with modern beliefs such as the visit of extraterrestrial beings and ascended masters.

The New Age occurs when opposite and incompatible beliefs are mixed.

The New Age consists of a religious salad where Judeo-Christian beliefs are mixed with Buddhism, Hinduism, paganism, magic rituals, sometimes with indigenous beliefs, and with modern beliefs such as the visit of extraterrestrial beings and ascended masters.

The New Age occurs when opposite and incompatible beliefs are mixed.

Although the New Age is presented as something new, the reality is that the New Age occurred since ancient times with Gnostic religions that mixed Judeo-Christian beliefs with Hindu and Buddhist beliefs such as reincarnation or that mixed Judeo-Christian beliefs with Greek paganism, with Persian paganism and with Egyptian paganism.

For the New Age, there is no problem with mixing the worship of the Judeo-Christian god and his servants (Jesus Christ, angels, virgins and saints) with the worship of other gods and spirits of other cultures, and with occultism, esotericism, shamanism and other magical practices.

But, this nefarious fictional character who is the Judeo-Christian god invented by the Jews, is very clear in his word (the Bible) and in the Koran that he condemns the worship of other gods and that he condemns any practice of magic:

Exodus chapter 22, verse 18: -You will not let the sorceress live.

Exodus chapter 20, verse 3: -You will not have other gods before me.

Deuteronomy chapter 7, verse 25: -You will burn the sculptures of their gods in the fire.

Quran, surah 16, verse 51: -Allah has said: Do not take two gods! He is only One God! Fear Me, then, and only Me!

Quran, sura 2, verse 191: -Kill them where you find them, and expel them from where they have expelled you. Tempt is more serious than killing.

Therefore: for the Judeo-Christian god and his servants (angels, Jesus Christ, virgins and saints) it is a blasphemy and an offense to be mixed with the worship of other gods and with magical practices, and for the gods and spirits of other cultures it is an insult to be mixed with a god and his servants who condemn the worship of other gods and the magical practices that derive from their cults.

One of the great promoters of the New Age were the hippies, and many will wonder:

What's wrong with hippies if they promoted love and peace?

It is necessary to remember that love and peace with those who harm the weakest, with those who harm the most vulnerable and with those who harm the innocent, is allowing their crimes to go unpunished, without severely paying for the damages caused.

It is necessary to remember that love and peace with those who harm the weakest, with those who harm the most vulnerable and with those who harm the innocent, is allowing them to continue harming the vulnerable, to continue harming the weak and to continue harming the innocent.

The New Age is closely linked to social Darwinism, and many will wonder: How can the New Age be related to social Darwinism if it teaches that everything is solved in a corny way with unconditional love and peace?

The teachings of the New Age teach that if someone innocent, weak or vulnerable suffers injustices, crimes and atrocities it is because they are paying karma from past lives, because they attracted them with their mind through the law of attraction or because they are agreements what the victim did before incarnating with the person who hurt him.

In fact, the belief in karma arose when the Aryans of Persia invaded and colonized India to justify all the harm they did to the indigenous Dravidian population by claiming that the Dravidians suffered all the harm they did to them because they were paying karma from previous lives where they also did the same damage.

This is how the New Age serves social Darwinism by teaching its followers to lack empathy and compassion for the pain of those who suffer injustices, crimes and atrocities. Therefore, a New Age is indifferent to the pain of a child who is dying of hunger.

For this garbage that is a New Age: the victims of abuses, rapes, massacres, genocides and famines deserve it because in other lives they caused the same thing, because they attracted those injustices with their minds or because they did an agreement before incarnating with those who cause these damages.

Even this garbage that is the New Age has come to say that children who are victims of abuse and rape made an agreement before incarnating with sexual abusers and rapists so that they did that to them.

An example of this is the New Age guru named Dana Nasso, who in a video said that those who die in fires were chosen by their soul before incarnating, that in fires the earth is transmuting, even though they generate a lot of pollution and that She passes herself off as a vegan when animals of other species also die in the fires in a slow and painful way when they are burned to death.

Just as most images and statues of virgins, saints, Jesus Christ and angels are represented with the appearance of Europeans:

Images recovered from the Internet

The New Age also represents their ascended masters, angels and aliens in whom they believe, such as Saint Germain and Ashtar Sheran, with the appearance of Europeans, so the New Age is also related to white supremacy and with neo-Nazism:

Images recovered from the Internet

The gods and spirits that indigenous ethnic groups believed in helped humans feel connected to nature, perceive themselves as part of other nature,

and respect other nature, because these gods and spirits represent forces of nature.

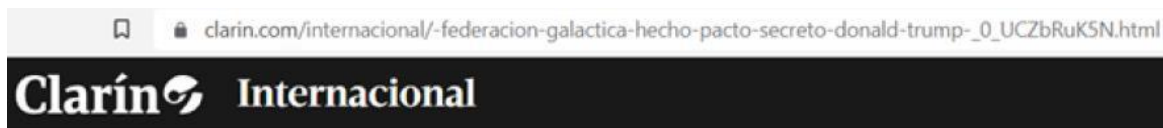

But, the Judeo-Christian god, Jesus Christ, the angels, the saints and the virgins, disconnect humans from the rest of nature, all these Judeo-Christian beliefs separate the human being from the rest of nature because they do not represent forces of nature.

And New Age beliefs in angels, ascended masters and visiting aliens also disconnect humans from the rest of nature and separate humans from other nature because these fantasy and fictitious beings do not represent forces of nature.

Whether there is life on other planets or no life on other planets is something that humanity should never care in the slightest, the only thing that should matter is caring for and protecting life on this planet Earth.

The New Age promotes the same conspiracy theories that conservatives of Christian religions promote. For this reason, many New Ages are right-wing, they are neoliberals and there are neo-Nazis within the New Age.

Many New Agers have claimed that Donald Trump is a being of light incarnated on earth and that his soul comes from a highly spiritually evolved planet.

All those on the right, conservatives and neoliberals consider genocidal criminals who murdered indigenous people as heroes.

For example, the YouTube channel called EL VIEJO DE HISTORIA (Pure history of Chile) celebrates that the colonizer Ines De Suarez caused the murder of indigenous chiefs by having them beheaded, considering her brave, admirable and an example to follow for this:

All this right-wing, conservative, capitalist, neoliberal or libertarian and neo-Nazi shit can never hide its visceral hatred of indigenous people.

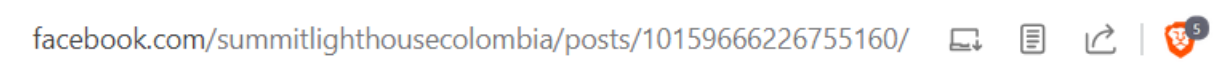

The New Age also pays tribute to murderers who caused massacres of indigenous people.

Defenders of Spanish colonization (Hispanists) claim that the atrocities committed by the Spanish colonizers against the indigenous people are black legends.

According to the Hispanists, there was no indigenous slavery during colonization by the Spanish and the viceroyalties. Although it is true that in 1526, King Charles I of Spain prohibited the slavery of indigenous people.

In 1528, two years later, Charles I made a new order that promoted what he called the just war against indigenous people, which meant war against indigenous people who did not accept to submit to the will of the royalty of Europe and did not convert to the Catholic religion.

In this new order, Charles I allows the slavery of indigenous people who do not convert to Christianity and do not submit to the authority of the king.

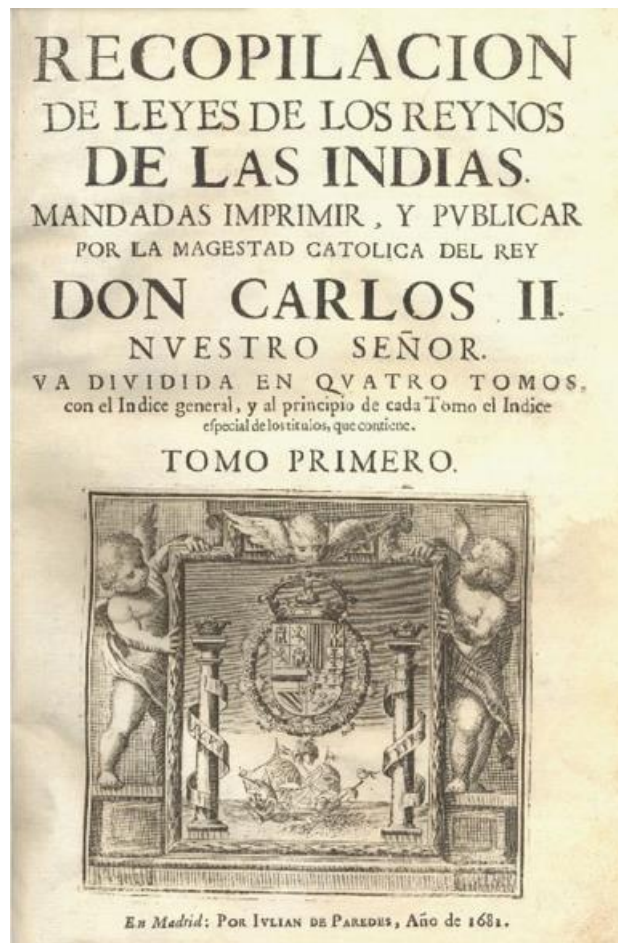

The so-called just war was a way in which many indigenous people were enslaved. King Philip II in 1569 also allowed slavery against indigenous people considered rebels (who did not convert to Christianity and did not submit to the king) such as the Caribs.

The encomiendas and mitas were repartimientos of indigenous people, where they were evangelized and forced to work, often without rest and where they suffered whippings, as they were obligatory jobs where they suffered abuse and humiliation, they were slavery.

It is true that they were not considered slavery in those times, but they clearly were: they were forced labor, without rest and without rights.

Another lie that the Hispanicists tell is that as long as the indigenous people did not make sacrifices, they were allowed to worship their gods as long as they did not make sacrifices to them, and that according to them there was no extermination because they worshiped other gods. According to them, only the sacrifice part was prohibited and not the worship of the gods themselves.

In the so-called just wars by the colonizers, the worship of gods other than the Judeo-Christian god was considered a major crime, even if they did not make sacrifices to them. In the book titled Compilation of the Laws of the Indies, by Carlos II, there is a section known as The Requerimiento.

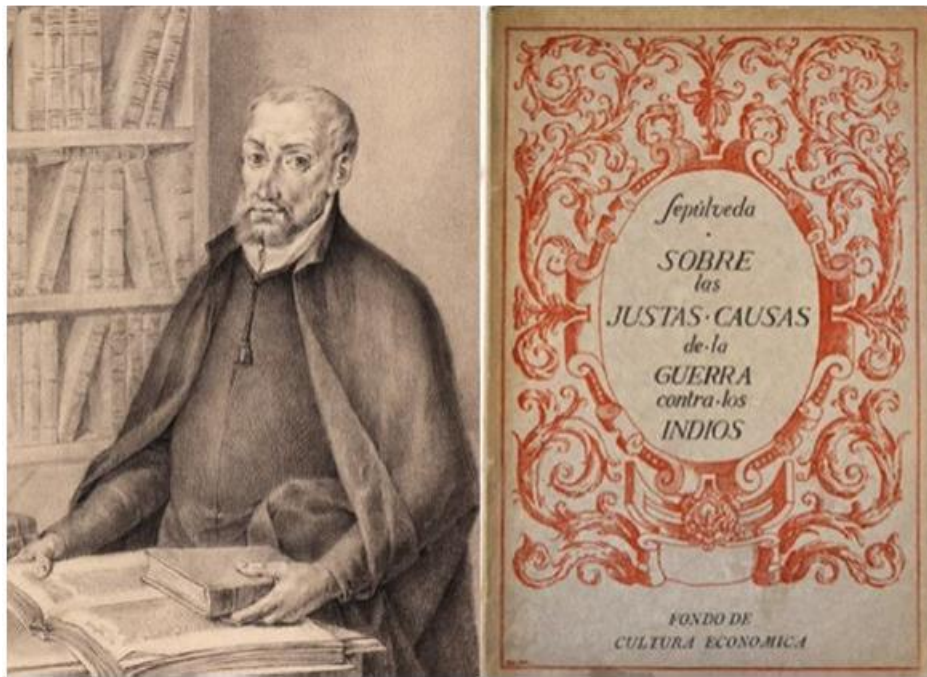

Book photograph recovered from the Internet

The Requirement, which is a document from 1512, is a document that has the purpose of informing the indigenous people to submit to the will of the king and convert to the Catholic religion or else war would be made on them, they would be captured or enslaved, including women and children, regardless of whether they made sacrifices or did not make sacrifices.

According to Hispanists, the Spanish colonizers treated the indigenous people better than the Portuguese, English, French and other European colonizers. This is false. No one treated them better or worse. They all felt hatred for the indigenous people equally, they all considered them inferior, they all committed the same atrocities against the indigenous people.

One of the things that Hispanists deny is that there were documents at the beginning of colonization where the colonizers accept that they waged war on the indigenous people and that they committed massacres of indigenous people.

It turns out that, if they exist, one of them is the book: Treatise on the just causes of the war against the Indians. This book was written in 1547 by Juan Ginés de Sepúlveda who was a Catholic priest who defended colonization and was part of the colonization.

Images recovered from the Internet

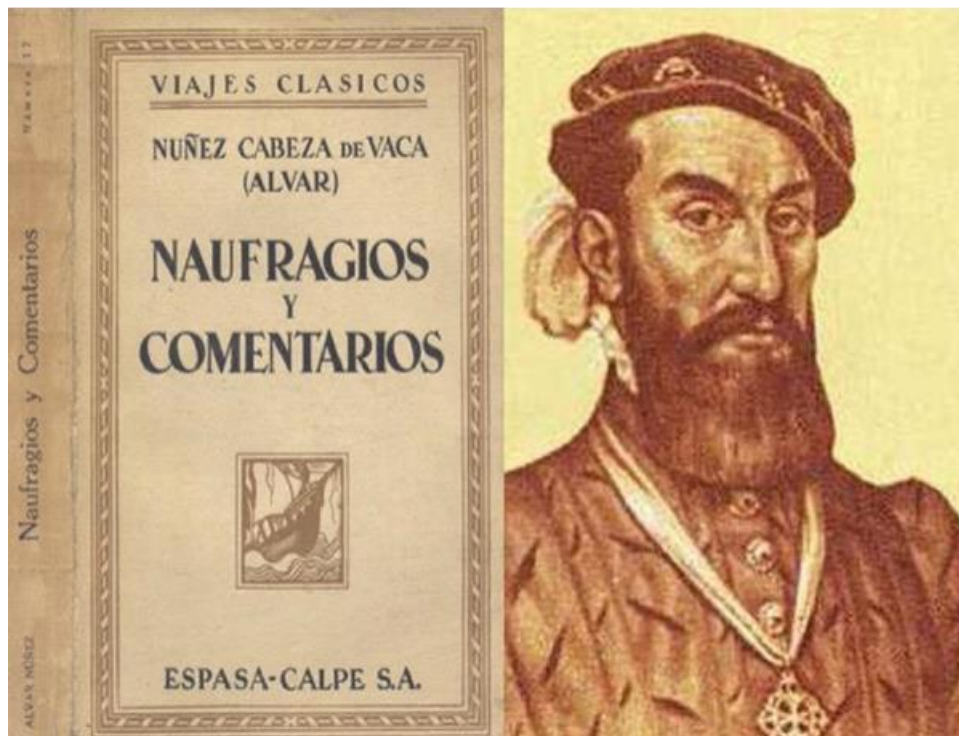

Like other enemies of the indigenous people, Juan Ginés de Sepúlveda justified the hatred and wars against the indigenous people with parts of the Bible, and also, generalized and put all indigenous ethnic groups and all indigenous people of each ethnic group in the same bag, stating that all indigenous ethnic groups and all indigenous people of each ethnic group made human sacrifices and committed cannibalism.

Juan Ginés de Sepúlveda justified the domination of indigenous people and wars against indigenous people by stating that they were immoral or libidinous creatures. By this he was obviously referring to indigenous sexuality, nudity, rituals that had a sexual connotation, polygamy and that in some indigenous ethnic groups, homosexuality was accepted, and all this is something immoral for Christian religions.

The fact that the indigenous people were not individualistic, they were hospitable and shared everything with everyone in their villages, also, for those who hated them like Juan Ginés de Sepúlveda, meant that they were servile by nature, and that their destiny was slavery and complete submission.

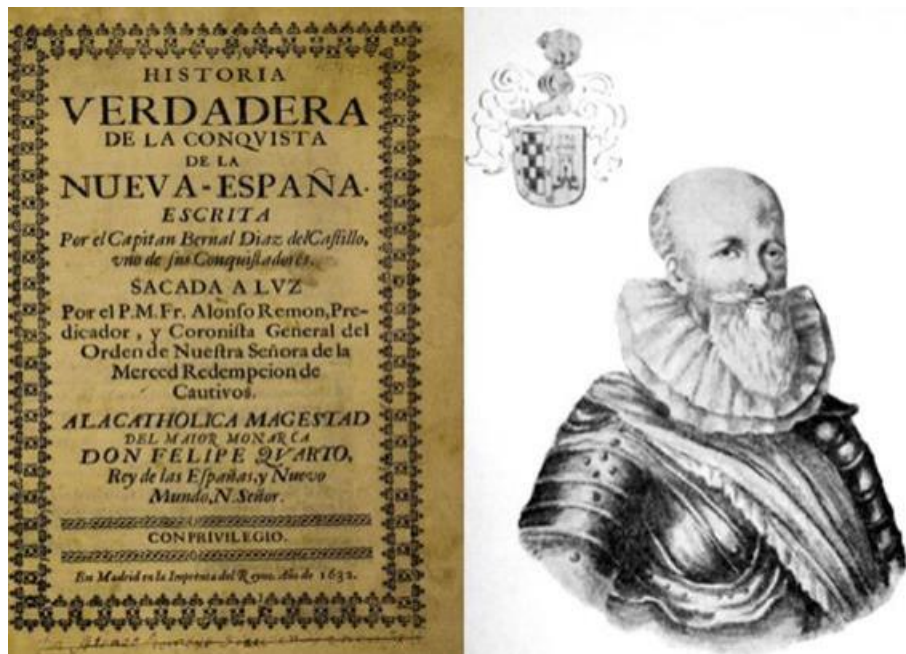

Juan Ginés de Sepúlveda considered that the Spanish were superior in intelligence to the indigenous people, and that this justified the Spanish making war on the indigenous people, until they surrendered and accepted domination.

In the book titled: Shipwrecks and comments. Written by the colonizer Álvaro Núñez Cabeza de Vaca and published in 1542, in chapter V they comment on how they fought against the natives (indigenous people) and captured five or six alive who kept them as prisoners to get food.

Images recovered from the Internet

In the book: True history of the conquest of New Spain. Written by the colonizer Bernal Díaz del Castillo and published in 1632.

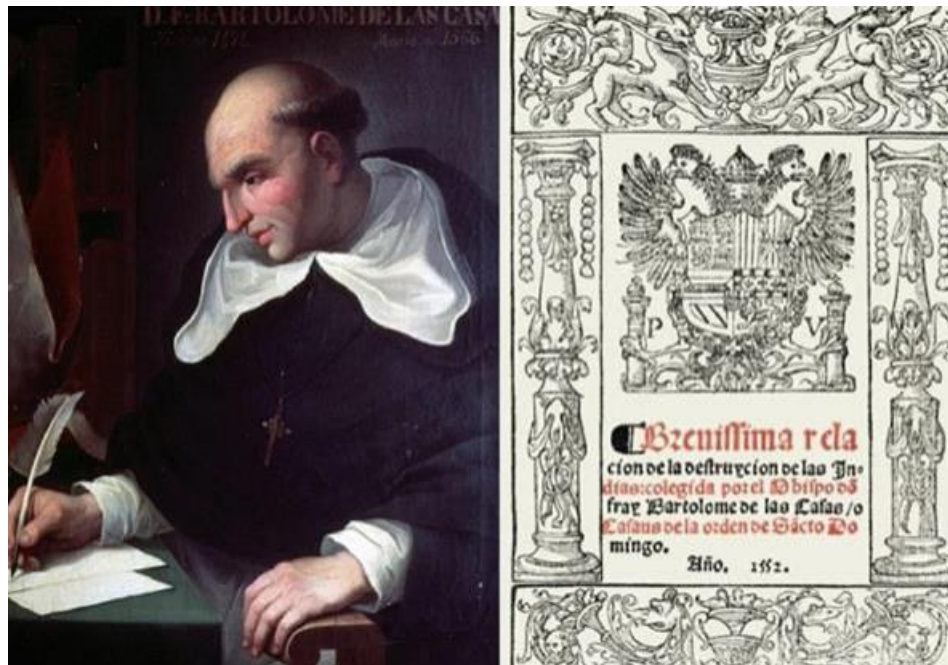

Images recovered from the Internet

In excerpts from the book this is written: -It was the first war that we had in the company of Cortés in New Spain (...) and we went to see the dead that were in the countryside and there were more than eight hundred. Then we buried two soldiers. We thanked God very much for having given us that accomplished victory.

The text refers to the Battle of Centla where the indigenous people of the Mayan-Chontal ethnic group were defeated. Only two Spanish soldiers died in this battle, this means that all the other deaths, which were more than eight hundred, were indigenous.

According to the Hispanists the book: Very brief account of the destruction of the Indies. Written by Bartolomé de las Casas and published in 1552, it is a book where people lied to attack Spain and the Catholic Church. But, Bartolomé de las Casas was a Catholic priest.

Images recovered from the Internet

But, it turns out that in those times when the book by Bartolomé de las Casas was published, no colonizer and no encomendero affirmed that what was written by Bartolomé de las Casas were lies.

What did happen is that religious people emerged in favor of colonization like Juan Ginés de Sepúlveda, colonizers and encomenderos who in books justified wars against indigenous people and the domination of indigenous people, so the criticism of Bartolomé de las Casas at that time was not aimed at denying what he wrote, but they were aimed at justifying all the damage they did to the indigenous people.

If what Bartolomé de las Casas wrote were lies, we have to ask ourselves:

Why did the religious, colonizers and encomenderos who existed at that time never deny what was written by Bartolomé de las Casas, but do the Hispanicists do so today?

Another thing that Hispanicists do is affirm that the hateful and cruel treatment of the indigenous people by encomenderos and colonizers represented in the Kingsborough Codex, painted in 1554, and in the Osuna Codex of 1565, and the Aperramiento Codex of 1560, according to them they are part of a conspiracy against the Catholic Church and against Spain.

Images recovered from the Internet

If what those codices contained were lies, the colonizers and encomenderos of those times would have expressed it, but they did not do so, only the Hispanicists of the present do that.

At present, indigenous people continue to suffer hatred, contempt, invasion of territories, torture and massacres with the complicity of a majority that remains indifferent and silent.

And although the indigenous people of the present do not make human sacrifices, the majority do not practice infanticide, they do not practice cannibalism, and the majority of indigenous ethnic groups are not at war against other indigenous ethnic groups, those who hate them justify their hatred of the indigenous people of the present with what other indigenous people did in the past.

On another page from another New Age sect it is claimed that George Washington was an incarnation of the Ascended Master Godfre, known in his last incarnation as Guy W Ballard. Guy W Ballard of the United States was a white supremacist who invented a sect that believes in Ascended Masters.

George Washington, the first [president of the United States](#), was born in Virginia, February 22, 1732. As commander in chief of the Continental forces during the American Revolution, he remained stalwart and stern during the five years of war; and the victory was fulfilled when Cornwallis surrendered to Washington at Yorktown, Virginia, in 1781.

That Revolutionary War was the testing of a handful of souls to see whether or not they could make the sacrifices necessary to enter into the fiery core, which was the origin and the beginning of the mandala of the United States of America. The thirteen colonies marked the [seven rays](#) of the Christic light, the [five secret rays](#), and the [eighth ray](#), which is known as the ray of integration. In order to have a balanced mandala of hierarchy and initiation, it is essential to have thirteen as the basic unit of hierarchy.

George Washington embodied again as [Guy W. Ballard](#), messenger of [Saint Germain](#). He is now the ascended master [Godfre](#).

Faced with the decisions made by five of the Iroquois nations, the president, who was also a Freemason and a general named George Washington, transmitted written instructions to Major General John Sullivan to take preventive measures against the Haudenosaunee Indians.

These instructions consisted of razing all the indigenous settlements in the area in such a way that they were not only defeated, but completely destroyed.

He was forbidden to entertain any peace proposal before the settlements were completely ruined. It was emphasized that future security depended on the Haudenosaunee's inability to harm them and their fear of the severity of the punishment they would receive.

In response, Sullivan stated: -The Indians will realize that there is enough evil in our hearts to destroy everything that contributes to their livelihood.

On this continent, anyone who is not indigenous by having children is collaborating with the governments and elites' plan to continue replacing indigenous people and substituting them.

The conception of wealth that the indigenous people had was to share everything among everyone in their villages, and wealth for the indigenous people was not about accumulating.

Most indigenous ethnic groups did not hunt for pleasure, it was European colonizers who brought pleasure hunting to the continent. Before the arrival of the Europeans: there was no bullfighting and there were no cockfights on the continent.

But, after the arrival of the European colonizers, bullfighting and cockfighting began to exist on the continent. The indigenous people did not throw garbage and excrement into the rivers and the sea, it was the European colonizers who brought the practice of throwing garbage and excrement into the rivers and the sea.

And that the European colonizers also brought livestock that raises bulls, cows, sheep and goats for meat, milk and leather to the continent, because the indigenous people hunted to survive (not for pleasure), but such livestock did not exist before the arrival of the Europeans.

And always those who hate indigenous people: if any indigenous person commits a cruel act, they use this to say that all indigenous people are savages, that they should all be exterminated, and all the stupid things they say.

But, when whites, Europeans and Christians commit those same cruel acts, they never generalize them, they never put them in the same bag, and they never say that they must all be exterminated.

It is like the issue of indigenous spirituality or indigenous shamanic practices, they are topics in which one cannot generalize, because there are thousands of ethnic groups and each ethnic group has different rituals.

But, even within the same ethnic group: not all shamans have the same practices and not all shamans think the same.

This is because Judeo-Christian beliefs are dogmatic and are based on a book, but indigenous forms of spirituality are not dogmatic and are not based on books, they are based on what is learned orally, but without following dogmas.

The Vikings and Romans had extremely cruel practices with both humans and animals, and also practiced infanticide when they sacrificed children who were born weaker.

But, since they are white and European, these same right-wing and neoliberals who hate the indigenous people, admire the Vikings and the entertainment industry such as series and movies often present these white cultures as something to admire, while with the indigenous people they always The intention to promote hatred is seen, even if in a subtle way.

CHAPTER V: ATHEISM IS THE SAME EVIL AS CHRISTIANITY.

Both Christianity and atheism arise in the West and both revolve around whiteness, this sounds like the Masonic duality of opposites serving the same master.

And also many on the Left are atheists and this atheism thing is something Western and European just like Christianity, atheism puts science and technology above life and nature, atheism confuses the values of respect for nature and to the innocent with religious beliefs, atheism is an imbalance because it gives importance only to the intellectual and denies the emotions, when the balance is to give importance to both the intellect and the emotional.

But, many morons on the left believe that atheism makes someone morally superior, just as those of Christian religions believe that belonging to those religions makes them morally superior.

For an atheist, worshiping the biblical god and his servants (angels, saints, virgins and Jesus Christ) who do not represent forces of nature is the same as worshiping spirits of nature and gods who, if they represent forces of nature, the atheist does not see difference between one thing and the other.

Many on the left are atheists, but also, many atheists and agnostics like Dalas Review and Dross justify and support right-wing (capitalist) and neoliberal political parties, thereby openly showing their support for the extermination of indigenous people, and it is not that they do not know that these parties make hate speeches against the indigenous people, they know it and they support them because although they deny it, they hate the indigenous people, they also defend Hispanicity and although it may seem contradictory, they deny the atrocities committed by Christianity saying that they are black legends.

An atheist considers that worshipping a goddess who represents the earth, worshipping a god who represents the sun, worshipping a goddess who represents the moon, worshipping a god who represents the universe, worshipping a god who represents rain, worshipping to a goddess of revenge, worshipping a goddess who represents nature as a whole and symbolic language is just as foolish as worshipping and believing in the biblical god, in angels, saints and virgins.

And for the atheist only logical language matters, that is why in the atheist there is no balance between symbolic language and logical language, it is just as unbalanced as in Christian religions.

The earth, the sun, the moon, the universe as a whole, rain and nature as a whole, create the conditions that make life possible on this planet, therefore, they are the creators of life.

Without the earth, without the sun, without the moon, without the universe, without rain and without the totality of nature, life would never have existed in this world.

Gratitude is very important because it eliminates selfishness, eliminates individualism and encourages collectivism. Personifying the earth, the forests, the sun, the moon, the universe as a whole, rain and nature as a whole into gods, goddesses and spirits, is a way of showing gratitude to those forces of nature that make life possible.

But, the atheist considers that the earth, the forests, the sun, the moon, the universe in its entirety, the rain and nature as a whole are meaningless and that they are simply one thing, because for the atheist only the intellect, science and technology.

Someone who only expects everything to be given to them is unbalanced and selfish who thinks that everything revolves around them, and someone who only gives is another unbalanced person who never understands the importance of receiving. Balance is giving and receiving, and receiving and giving, never just giving and never just receiving.

Retribution is a very important value because the person understands that life never revolves only around themselves. Personifying the earth, the forests, the sun, the moon, the universe as a whole, the rain and nature as a whole in gods, goddesses and spirits, and having ceremonies where offerings are given to them, is very important because it is giving back to those forces of nature a part of what they give us and this teaches the value of retribution.

The earth gives us food, the forests give us oxygen, the sun gives us light, the moon gives us balance in the rotation of the earth and the tides that make life possible, thanks to the rest of the universe exists this planet, thanks to the rain there is life by avoiding droughts and thanks to nature as a whole that provides the elements for life to exist, retribution with these forces of nature teaches the value of gratitude, humility in understanding that without those forces we could never exist, and the importance of the balance between giving and receiving.

Indigenous people protect the rivers and forests that make life possible, but most non-indigenous people never pay them back and never thank them.

The majority of those who are not indigenous have always been guilty of all the massacres, genocides and exterminations that the indigenous people have suffered because when all this has happened they have remained silent and indifferent, therefore, the majority directly or indirectly has the blood of the indigenous people in their hands.

The majority of those who are not indigenous consider that the life of the indigenous people is nothing, they never think for a minute a day about the life of the indigenous people, they are totally indifferent and apathetic towards the indigenous people.

The sun gives in the form that thanks to sunlight, plants, trees, bushes and microorganisms in the sea carry out photosynthesis that produces oxygen, without oxygen life would never exist.

The sun's rays provide vitamin D, and the beautiful skin of the indigenous people that is reddish, cinnamon, brown or tanned better absorbs the vitamin D provided by the sun.

Large sizes always consume more resources and spend more space, and this was stated when I was tall, on the other hand, the small or medium height of the indigenous people is more pleasing to the eye, it consumes less space and

consumes fewer resources, for me it is always the smallest I found it more pleasant, but the stupid majority considers that height is more attractive.

The gravitational force of the sun was trapping material in its different orbits that caused the formation of the planets with their moons, which is why the sun is a creator.

It is for this reason that the natives spoke of the father Sun who is in the heavens and the mother Earth, and how the balance between the father Sky and the mother Earth make life possible, and this is a wise and logical vision.

But, for atheists, agnostics and skeptics, all this is primitive, ignorant and illogical.

That is why atheism, agnosticism and skepticism are the same garbage as Christianity: Christian religions place these beliefs above other nature, and atheists, skeptics and agnostics place the intellectual, place science and technology above nature.

Both Christian religions and atheists, skeptics and agnostics assume that humans can live without the rest of nature. And if I write the rest of nature it is because humans are part of nature.

Therefore, although the majority of indigenous people have their minds colonized, the majority of indigenous people are aware that they are part of other nature.

But, the majority of those who are not indigenous feel separated from nature, that is why many times the damned say that, if the European colonizers had never arrived, the entire continent would be full of jungles and forests, they are so stupid that they think that they can live without forests and jungles.

Both Christian religions and atheism, agnosticism and skepticism are based on individualism, selfishness and placing humans at the center of everything (anthropocentrism).

For example, the atheist who calls himself Dalas Review who, although he claims not to be right-wing, does justify and support right-wing and neoliberal parties, and although Dalas Review affirms that climate change is real, it justifies and supports right-wing and neoliberal parties that, by being promoters of conspiracy theories, deny climate change.

The Spanish atheist from Dalas Review also says that, although climate change is real, our individual actions cannot stop it, and he clearly does this to keep the majority in compliance, without taking action, and because he is a promoter of right and neoliberals like many Youtubers and Influencers.

What the Dalas Review idiot never analyzes is that while it is true that individual actions cannot stop climate change, it is also true that if the majority collectively eliminate the consumption of red meat, they will eliminate the consumption of animal milk and their derivatives, demand the protection of indigenous territories, they will never vote for politicians who harm indigenous people and care about indigenous people, and if they supported the cultivation of

hemp to produce plastic, paper, fabrics and ropes, It would greatly reduce the problem of climate change.

Other times, because they have an absolutist and perfectionist way of thinking, and a polarized all-or-nothing way of thinking, they say that everything in nature produces methane and carbon dioxide emissions.

But, what idiots never understand is that, although everything in nature produces methane and carbon dioxide, non-indigenous humans produce excessive methane and carbon dioxide emissions and that excess is what is harmful, and that It tries to reduce these methane and carbon dioxide emissions by half, never to eliminate them completely because that is impossible.

Revenge is important because it makes those who harm the weakest, those who harm the most vulnerable, those who harm the innocent, those who are apathetic and indifferent towards the life of the weakest, those who are apathetic and indifferent towards the life of the most vulnerable, and those who They are apathetic and indifferent to the life of the innocent, they receive their punishment and never go unpunished.

Revenge is in nature in the heat of the sun in its destructive aspect that produces droughts when humans destroy other nature, and in the form of hurricanes, earthquakes, tornadoes, landslides and floods that nature produces when humans disrespect to other nature.

Ha ha ha, look at this church at the end of the times of the crazy pastor Andrés De La Barra, he released this song with the title que se mil and in parentheses it is written dollars.

And some parts of the song's lyrics say: close your ears to Satan and open your wallet, do it now. It's time for you to tithe everything you can, do it with bills, not coins. Make it a thousand, maybe ten thousand. Long live the church of the end of times and now everyone get out their wallets. Pure money little brother, don't offend God with your miseries. Hallelujah.

Ha ha ha, this represents the scam that Christian religions are and it always caught my attention: because atheists, skeptics and agnostics, although

they say they attack Christianity, only call scammers those who worship other gods, practice some form of magic or of shamanism even if they really believe in what they do, but they never call evangelical pastors, Catholic priests and Mormons scammers, even if they claim to attack those beliefs.

This suggests that atheism, skepticism and agnosticism are modern forms of the inquisition that, as they emerged from Europe and the West, just like the Christian religions, they also seek to eliminate all beliefs different from the Western, European, white and Christian way of thinking.

As we already know: among the Egyptians, Ra is the god of the sun and who created humans with his tears, the heat of the sun causes the clouds to form that produce the rain that is important for life. And what the three sides of the triangle that forms the pyramid represent are: sun at dawn, sun at noon and sun at sunset united.

It is sad that Freemasonry dirtyes the Egyptians, and offends them by mixing the Egyptian with the Jews who defame them in the Bible, and with the Jewish god who condemns all forms of magic and who condemns the worship of other gods.

Similarly: among the indigenous Hopi ethnic group, Taiowa or Tawa is the god of the sun and the creator of life.

CHAPTER VI: SATANISM IS EQUAL TO CHRISTIANITY.

The belief in the devil or satan and in demons emerged from the Abrahamic religions (Jewish, Christian and Islamic). If these religions had never existed (which are religions and not races), no one would believe in the devil or satan and no one would believe in demons.

The belief in the devil, whether as a real being or as a metaphorical being, has its origins in Judeo-Christianity.

There are people on the left like Sabrina Tortora from the YouTube channel called Inconvenient Questions who, even if they are atheists or agnostics, do not see anything wrong with Satanism and even support it:

Video from the Inconvenient Questions channel called: Satanism: the most misunderstood religion in the world. Screenshot retrieved from:
https://www.youtube.com/watch?v=hxpUu_9cXml

The first satanic religion was the Church of Satan founded by Anton LaVey in the United States. From the Church of Satan, other satanic religions or satanic sects later emerged, both those that believe in the devil as a real being (theistic Satanism) and those that believe in the devil as a metaphorical being (atheistic Satanism).

Anton LaVey was inspired by the writings of Ayn Rand and Ragnar Redbeard to write the book called: The Satanic Bible.

It must be remembered that Ayn Rand and Ragnar Redbeard were promoters of social Darwinism, Ragnar Redbeard wrote a disastrous book in favor of social Darwinism called: Might Is Reason.

Throughout his life: Anton LaVey openly declared himself in favor of social Darwinism. Social Darwinism was what the Judeo-Christian god promoted when he ordered the killing of children and pregnant women, and when he supported human slavery.

The teachings of Jesus Christ of not judging, of loving your enemies, turning the other cheek, forgiving everything and enduring everything are

teachings in favor of social Darwinism because they make those who harm the weakest, those who harm the most vulnerable and who want harm the innocent go unpunished and never pay for their crimes.

Social Darwinism is what Christian Europeans implemented to eliminate the indigenous people and replace them with Creoles and mestizos.

Social Darwinism is what Christian governments and Christian elites in power continue to implement to make all indigenous people disappear, and replace them with Creoles and mestizos.

Anton LaVey collaborated in the preface of one of the editions of the book written by Ragnar Redbeard called: Might is Right.

Images recovered from the Internet

On the websites of the Church of Satan founded by Anton LaVey, the relationship between Satanism and the objectivism developed by Ayn Rand is explained. Ayn Rand's objectivism consists of individualism, selfishness, social Darwinism, and placing the intellectual above all else, and Anton LaVey always agreed with this and openly promoted it.

Satanism and Objectivism

Nemo

Objectivism, the philosophy of Ayn Rand, is an acknowledged source for some of the Satanic philosophy as outlined in *The Satanic Bible* by Anton LaVey. Ayn Rand was a brilliant and insightful author and philosopher and her best-selling novels *Atlas Shrugged* and *The Fountainhead* continue to attract deserved attention for a new generation of readers. I am a strong admirer of Ayn Rand but I am an even stronger admirer of Anton LaVey for the vital differences between the philosophies of Objectivism and Satanism.

Publication of the Church of Satan page titled: Satanism and Objectivism.
Screenshot retrieved from: <https://www.churchofsatan.com/satanism-and-objectivism/>

In the book *The Satanic Bible* by Anton LaVey you can read the following phrase: - To the North and the South I show a sign that proclaims: Death to the weak, health to the strong!

This phrase is copied from the book called *Might Is Reason* by Ragnar Redbeard where you can read the same phrase: -To the North and to the South I make a sign. And I proclaim: Death to the weak, wealth to the strong!

After the Church of Satan, other satanic religions emerged such as the Temple of Set founded by Michael Aquino who had belonged to the Church of Satan. Michael Aquino claimed that the Egyptian god called Set is the devil or Satan himself.

Michael Aquino was a United States military officer. The satanic religion called The Temple of Set founded by Michael Aquino, promotes individualism, social Darwinism, selfishness and Michael Aquino always showed support for neo-Nazis. Michael Aquino himself considers himself a neo-Nazi.

Photographs recovered from the Internet

Being satanic religions founded in the United States, both the Church of Satan and the Temple of Set serve the interests of the genocidal and social Darwinist government of the United States that exterminated the majority of the natives (indigenous people).

Therefore, both Christian religions and satanic religions: give their support to the massacres and exterminations of indigenous people because both are based on social Darwinism.

From the Church of Satan, a Satanism that claims to be left-wing called The Satanic Temple has emerged, founded by Malcolm Jarry and Lucien Greaves. This new satanic religion claims to oppose social Darwinism, unlike the satanic religions founded by Anton LaVey and Michael Aquino.

The Satanic Temple supports the Islamic religion. Both Christianity and Islam emerged from Judaism. Islam was founded by Muhammad who said that the archangel Gabriel (one of the servants of the Judeo-Christian god) appeared to him and helped him write the Koran.

The god called Allah that Islamic or Muslims believe in is the same god that Jews and Christians believe in. Both Judaism and Islam are religions, they are not races and I will always have to repeat it.

Why the Satanic Temple Is Opening Its Doors to American Muslims

Just as in the Torah and the Tanakh of the Jews and just as in the Bible of the Christian religions, in the Koran this god is also sexist, supports human slavery and orders the killing of all those who do not believe in him, and, Therefore, in the Quran this god supports social Darwinism:

Quran, Sura 2, verse 223: -Your women are a plowed field for you. Come, then, to your field as you wish, making something precede for yourselves!

Quran, Sura 4, verse 129: - You cannot be fair to your wives, even if you want to.

Quran, surah 24, verse 32: - Marry those of you who are not married and your honest male and female slaves.

Quran, surah 24, verse 58: -O believers! Slaves and prepubescent children must ask your permission three times: before getting up, when you take off your clothes at noon, and after going to bed.

Quran, surah 16, verse 51: -Allah has said: Do not take two gods! He is only One God! Fear Me, then, and only Me!

Quran, sura 2, verse 191: -Kill them where you find them, and expel them from where they have expelled you. Tempt is more serious than killing.

Quran, sura 33, verse 61: - Cursed, they will be captured and killed without mercy wherever they are found.

Quran, sura 8, verse 12: -When your Lord inspired the angels: I am with you. Confirm then those who believe! I will strike terror into the hearts of those who do not believe. Cut their necks, hit them on all their fingers!

It is interesting that The Satanic Temple provides its support to the Islamic religions that are equally harmful to the Jewish religions and the Christian religions, but does not provide its support to the indigenous (native) people who suffered exterminations that reduced the majority of their population in United

States, and who continue to suffer hatred, discrimination, massacres and genocides in all countries on the continent.

Another satanic religion that supports Islam is The Order of Nine Angles (ONA). The Order of Nine Angles (ONA) is a dangerous sect that promotes Satanism, paganism, social Darwinism and Islamic terrorism.

Those of us who know about the subject: we know that in both human pregnancy and in the pregnancy of animals of other species there are three stages: zygote, embryo and fetus. Christianity has always made it believe that all abortions are fetal abortions and that at every stage abortion is like killing a baby.

An ovular abortion that involves removing a zygote is not seen as killing a baby and an embryonic abortion is not seen as killing a baby. Zygotes and embryos do not look like babies, it is the fetuses that look like babies.

Scientifically: a zygote and an embryo cannot feel physical pain and cannot suffer emotionally because they do not have the parts of the nervous system that are responsible for generating physical pain and generating the capacity to suffer emotionally. It is in the fetal stage where there is the capacity to feel both physically and emotionally.

But, many on the left who say they are in favor of abortion, confuse by making people believe that a fetus is the same as a zygote and an embryo, and with this they agree with those on the right, capitalists and conservatives who also affirm that a A zygote, an embryo and a fetus are the same.

The following screenshots are from a pro-abortion demonstration held by The Satanic Temple where they appear disguised as human babies or fetuses:

This manifestation of the satanic temple where, according to them, they seek to favor the right to abortion, in reality, harms the legalization of abortion because they agree with the Christian religions, the right, the conservatives and neoliberals in that all abortions are fetal, and that all abortions are the same as killing babies.

It is for all the above reasons that both the satanic religions or satanic sects that support the political right such as The Church of Satan by Anton LaVey, the Temple of Set by Michael Aquino and the ONA (Order of the Nine Angles), as well as the religion or satanic sect that claims to be left-wing called The Satanic Temple: they benefit Christianity, social Darwinism and the system.

CHAPTER VII: WHITE PAGANISMS AND NEOPAGANISMS, AND THE LIE THAT THERE WERE WHITE ANCESTRAL CULTURES THAT WERE ECOLOGISTS.

We breathe the oxygen that trees exhale, and trees breathe the carbon dioxide that humans and animals exhale: neither can live without the other. We are nature, and we also need to drink clean water, and the indigenous people understood this very well:

Images and photographs recovered from the Internet

But, pagans or neopagans of white ethnic groups, occultists, esotericists and members of the New Age believe that white ecological ethnic groups existed, when before Christianity: white ethnic groups such as Vikings, Celts, Romans, Basques, Saxons, Nordics, Greeks and Slavs, being cultures that were dedicated to raising cows, bulls, goats and sheep for meat, milk, wool and leather, destroyed many hectares of forests and jungles to make pastures for these animals, as happened in Ireland.

In Ireland, the majority of its territory is made up of plains and meadows, in Ireland there are very few forests and the forest area is located in the mountains, and it is known that these plains and meadows are a creation of the Celts, the Celts had to fell most of the forests and jungles to create those plains and meadows where cows, bulls, sheep and goats could graze.

Photographs recovered from the Internet

If the Greeks, Celts, Vikings and Basques had colonized this continent it would have been the same as what happened when Christian Europeans colonized it.

Greeks, Celts, Vikings, Norse, Saxons, Basques and Slavs, if they had colonized this continent, they would also have brought livestock that raises bulls, cows, pigs, sheep and goats, and also, they would have destroyed most of the forests and jungles to make pastures for those animals.

If these white ethnic groups had colonized this continent before converting to Christianity, as they also had the racist idea that light (white) represents good and darkness (black) represents evil, they would also have dominated, subjugated, enslaved and exterminated the majority of the indigenous people.

Let's remember what white Asians did to indigenous Asians. And remember that white ethnicities are of Indo-European origin.

How these white ethnic groups were twice or triple as warriors and sexists compared to others, if they had colonized this continent before converting to Christianity, they would also have considered the domination, subjugation and extermination of the majority of the indigenous people as a heroic act, virile and something to celebrate.

It must be remembered that the Russians of Slavic descent also colonized the indigenous people of Siberia in July 1580, through wars where they committed all kinds of atrocities against the indigenous people, raping indigenous women and enslaving indigenous children.

So the enmity of whites with indigenous people is something that can be found in the colonization of Abya Yala (which the colonizers named America), in the colonization of white Asians against indigenous Asians, and in the colonization of Siberia by Russians and Germans who descended from Slavs.

Once the damn VOX that supports governments that cause exterminations of indigenous people in the present, said that livestock farming guarantees ecosystems when livestock farming destroys large hectares of forests and wild

areas to make pastures for those animals, and generates excessive emissions of methane and carbon dioxide.

All these Right-wing and Neoliberal or libertarians who hate indigenous people, even if they are of Christian religions, always show admiration for white ethnic groups that were warriors like the Vikings.

In Brazil, a clown who studied this stupid theology and is an evangelical Christian named André Fernandes Dantas II who supports Jair Bolsonaro, also shows attraction to everything that has to do with the nefarious Vikings.

The beard is unhygienic and is something typical of Europeans and Middle Eastern people, just like excess body hair because the indigenous skin is soft, more hydrated and without body hair in many, and those who have body hair is very little in comparison to the whites

I have never denied that there are good indigenous people and bad indigenous people, it is obvious that there is everything in indigenous people, also when you meet indigenous people there are some that you like and others that you don't, but it is true that due to genetics they are humble, simpler people, with more harmony with nature and that the world would be better if the majority were indigenous.

The sad thing is also that many indigenous people have their minds colonized, but this is more the fault of the majority than of the indigenous people because the majority are the cause that many indigenous people have their minds colonized and that society (the majority) has contaminated the indigenous people from within.

Also, it is true that there are many differences between an indigenous ethnic group and another indigenous ethnic group, but in general, regardless of the ethnicity, they share harmony with nature, humility and simplicity, and the part of the colonized mind and how society contaminates them is a very sad fact that is mainly the fault of the majority who are not indigenous.

Also, unfortunately the colonized minds are often by Christian religions and other times by the New Age, The saddest thing is the indigenous people's lack of access to information that we have that helps them get out of all this, but many times they do not have access to basic needs and that is why both people of Christian religions and New Age people take advantage. who offer them crumbs.

Photograph recovered from the Internet

Both for the damage they do for pure pleasure to the animals of other species without it being a necessity to survive, and for the silence and indifference with which the indigenous ethnic groups suffer, the majority of humanity is totally bad, they have no forgiveness and Someone or something should put the majority of humanity starting with those in power in their place and give them what they deserve.

That certainly those teachings of turning the other cheek, forgiving everything and loving your enemies are an insult to dignity, they defend those who harm and defend those who harm innocent people.

But, the majority of humanity loves to play the victim with conspiracy theories invented by conservatives, Christians, right-wing people and Neoliberals. And bullfighting is of European and Middle Eastern origin, just like hunting for pleasure and cockfighting.

And if many indigenous people today are of Christian religions, the fault is not theirs, the fault is the colonization they have suffered by Europeans, Creoles and mestizos.

If these Europeans, Creoles and mestizos, had never gone to indigenous territories to evangelize with Christian religions and to offer them humanitarian aid in exchange for their conversion, no indigenous people would be of Christian religions.

If some indigenous people fall into things like livestock farming that is dedicated to raising bulls, cows, pigs, sheep and goats, the fault is not theirs

either, the fault is always the influence they had from Europeans, Creoles and of mestizos.

In addition to the fact that the majority of us who are not indigenous have never suffered hunger like the indigenous people and we have never suffered the needs that the indigenous people have suffered, and the criollos and mestizos take advantage of that to offer them the livestock of these animals as an outlet for that they have resources, to integrate them into the sick society and socialize them in a rotten society.

We must take into account that the majority of indigenous people are unaware of how Christian religions have harmed them and how these Christian religions continue to harm them in the present, Also, they ignore how the livestock that raises these animals hurt them in the past and hurts them in the present. When they are hungry and in need, many are focused on surviving, and not on having time to know what we do know.

Also, many indigenous people fall into the New Age without realizing that it is just as harmful as Christianity, just as white supremacist, individualistic and selfish.

Continuing with the theme of how those who hate indigenous people admire white ethnic groups such as Vikings: the neo-Nazi YouTube channel in favor of Spanish colonization called RATAS NEGRAS promotes Viking symbols such as Viking axes and the black sun, which are also symbols used by neo-nazis.

It is one thing for a culture to be a warrior in the sense of defending itself if it suffers an attack and taking revenge when its members are attacked by another culture, which is very good, and it is another very different thing for a

culture to be a warrior in the sense of social Darwinism of harming the weakest, harming the most vulnerable and harming the innocent.

All these white cultures that so admire right-wing garbage and neoliberal or libertarian garbage like the Romans, Vikings, Celts, Saxons and Slavs, were not warriors in the sense of defending themselves, they were not warriors in the sense of taking revenge, they were warriors for pleasure, for the social Darwinism of harming the most vulnerable, eliminating and subduing them.

All these garbage from the right and neoliberals or libertarians believe that harming the most vulnerable, harming the weakest and harming the innocent is masculinity, virility, strength or power, when in reality that is cowardly, it is trash and those who do that deserve the death penalty.

These damned people call the indigenous people savages, terrorists and criminals when they defend themselves or take revenge. And the fact that indigenous people defend themselves and take revenge does not make them savages, it does not make them terrorists and it does not make them criminals.

But, the white ethnic groups that these garbage admire so much like the Celts, the Vikings, Romans, Saxons and Slavs by promoting social Darwinism and hunting for pure pleasure (without being a necessity to survive) animals of other species that feel like having a system nervous, they were the real savages.

And all these right-wingers and neoliberals or libertarians are the true savages for harming the most vulnerable, and they are the ones who should be considered terrorists and criminals, and be sentenced to the death penalty.

I want to comment on an experience with a person who was related to both the white paganism of the Vikings and Satanism. This person had the same physical appearance as a right-wing conservative and ate a lot of red meat:

Once, he invited me to a ritual where blood had to be shed, and that's why I write with authority because I know these people very closely.

I met another of these beings with a European appearance and who even wore a long beard, totally related to white paganisms such as the Celtic (Druidism) and the Roman: this man hunted for pleasure without it being a necessity to survive, and on repeated occasions he invited me to those rituals, he was also homophobic and very sexist, he even told me that at some point he saw that I was going to commit suicide, and when I met him he inspired bad energy in me.

The environmentalism promoted by white people is a farce at the service of social Darwinism, these environmentalists propose exterminating cats to save wild animals:

These environmentalists want to kill all cats because they say that cats exterminate wild species and have also proposed killing animals of other species that they consider invasive species to save wild animals.

So we have these two extremes: vegans who only care about domesticated animals because they are humans who do not realize that they are also speciesists for not caring about the lives of wild animals, and

environmentalists who want to kill some species of animals domesticated by humans like cats to save wild animals.

The stupidity of these environmentalists is this:

They propose killing cats and species that they consider invasive, but humans who are not indigenous are also invasive species and since they are humans, they do not propose killing them.

It is true that many indigenous people today use technology such as cell phones and others, but their lifestyle is not consumerist. While the majority of those who are not indigenous do have a consumerist lifestyle that is destroying the planet, but these environmentalists do not propose killing them unlike what they do with cats.

And the majority of humans who are not indigenous with their consumerist lifestyle are those who destroy forests the most, those who destroy ecosystems the most, those who most extinct wild species, and those who most contaminate rivers, lagoons and the sea with garbage and excrement, but what these environmentalists propose for cats, these environmentalists do not propose for the majority of humans who are not indigenous.

The other issue is that these environmentalists want to kill cats to save species of wild animals, but these same environmentalists say nothing about the ranchers who raise bulls, cows, sheep and goats.

When the livestock that raises bulls, cows, sheep, goats and pigs is to blame for the destruction of millions of hectares of forests and ecosystems to make pastures, enclosures and slaughterhouses for these animals, and for soybean cultivation where the large percentage is used to produce fattening concentrates for these animals, and by destroying millions of hectares and forests for pastures, slaughterhouses and enclosures for these animals, this causes the death of millions of wild animals, but these environmentalists remain silent, something they do not do with the cat theme.

With that environmentalist called Pentti Linkola, the only thing I can agree with him is to abolish democracy because it means the will of the majority, But they realize that this idiot claims to be a radical environmentalist or eco-fascist and does not criticize the livestock farming that raises bulls, cows, sheep, goats and pigs, which most destroys the environment.

And that's what those environmentalists are like, most of them don't see anything wrong with the livestock that raises these animals, even though it has already been proven that raising cows and bulls generates excessive emissions of methane and carbon dioxide, and there are no television campaigns of the WWF or GreenPeace that radically attack the livestock farming that raises these animals only provide false environmental solutions.

Furthermore, when they talk about environmentalism, their ideal is white cultures like the Celts and the Vikings who hunted for pleasure (without it being a necessity to survive) and since they were livestock cultures they dedicated themselves to destroying many hectares of forests to make pastures for cows,

bulls, goats and sheep, and the idiots call those cultures environmentalists just because of oak monocultures.

Where a real forest is not the monoculture of a single species, a real forest is the cultivation of many tree species together (biodiversity).

And it is kind of dangerous when these ecofascists talk about eugenics, because in a eugenics the first ones who would be sterilized and exterminated would be the indigenous people.

In a Eugenics as proposed by those ecofascists, only whites would be left who see nature as a simple resource, which since before Christianity, as with the Celts, Romans, Greeks and Vikings, these ethnic groups already hunted for pure pleasure without it being necessary to survive and they are already They dedicated themselves to livestock raising bulls, cows, sheep and goats for meat, milk, dairy products and leather.

These ecofascists are the same as the false ecological solution of carbon credits where companies and businessmen who are Christians, see nature as a simple resource, and support livestock farming that raises bulls, cows, sheep and goats, buy thousands of hectares of forests and wild areas, and expel the indigenous people, with the excuse of protecting nature.

Since before Christianity: white ethnic groups such as the Celts, Vikings, Slavs, Basques, Greeks and Romans were already individualistic, selfish and consumerist by nature, because they bring it in their genetics, and that is why the majority of mestizos are white mestizos or brown mestizos, having part of that genetics, mostly tend to be like that.

Furthermore, there are companies and businessmen who buy carbon credits with the excuse of protecting nature, they are the same companies and businessmen who sell licenses for hunting for pleasure, licenses for mining, licenses for timber, licenses for oil extraction and licenses for livestock that raises bulls, cows, sheep and goats.

Pentti Linkola's eco-fascist imbecile must be the same as many brainless Europeans who think that brown mestizo and indigenous mean the same thing, who do not understand that indigenous is not just physical traits and that indigenous encompasses way of being, way of thinking, vision of the world and belonging to an ethnic group.

This idiot, too, must be one of the brainless Europeans who think that everyone born on this continent is indigenous, and who do not understand that in addition to the Europeans and the Creoles, there are also many white mestizos, dark mestizos, many mulattoes, Many blacks who are not indigenous and many Asians who are not indigenous behave as predators of the indigenous people just as many Europeans and Creoles do.

There are many things for which the majority of humanity is unforgivable and deserve the worst:

1. Their selfishness, individualism and that they only care about money.

2. Their silence and indifference to what indigenous people suffer, and that they vote for politicians who harm indigenous people such as Jair Bolsonaro, Javier Milei, Guillermo Lasso, Donald Trump, among others.

3. Their complicity with religious leaders who abuse or rape minors and with the institutions that cover them up.

4. The destruction of the environment and harming non-human animals for pleasure without being a necessity to survive.

These are just 4 reasons why the majority of humanity has no justification or forgiveness, but there are more.

The worst of all is that the majority of humanity loves to pose as innocent and harmless victims, and believe in conspiracy theories that make it seem like the majority are victims of the elites and that are invented by Christians, conservatives, Right and Neoliberals, which, although it is true that the Freemasons do exist and influence the police, the world and are despicable, it is not like those who invent conspiracy theories say, and their victims are the indigenous people and not the majority.

Instead of police, I wanted to say that they influence politics, although the police and military are also instruments of colonialism that continues in the present, they harm indigenous people, they are old sexists in the sense of being social Darwinists and they have no justification, even if they say Those who command them are simply genocidal criminals like the majority of humanity who are complicit in genocide through their silence and indifference.

Other reasons why the majority of humanity is despicable are: social Darwinism, homophobia, their lack of empathy, their stupidity, that the majority considers bad as good and good as bad, that they act like a virus or cancer for the planet.

The worst of all is that it has taken too long for something or someone to appear to punish the majority of humanity, starting with those in power, which, by the way, the monsters in power are there because the majority keeps them in power. power, they vote for them and support them, the majority were always complicit with those in power, the majority were never victims of those in power.

And also the sad thing is that in the near future even those of us who are different from the majority are going to die because of the majority.

The damn majority prefers white and also damn television, advertising and the entertainment industry promote that preference for whites.

And since the majority is stupid, they can say that there are many people who also like black people and it is true, but that is the disgust of the majority when assuming that only black people suffer racism.

When mestizos with indigenous features and indigenous people suffer more racism and more prejudice than black people, and indigenous people suffer much more than everyone else because many times the mestizos themselves with indigenous features despise them, say hateful phrases such as that

miscegenation is improving the race, and commit crimes against the indigenous just like whites and blacks.

Nobody denies that there is still a racist minority with blacks and Neo-Nazi groups supported by the right and neoliberals who also hate blacks, but blacks do not suffer generalized hatred.

Unlike the indigenous people, who do suffer from widespread hatred on the part of the majority, whether consciously or unconsciously, and a hatred that has been promoted with impunity by politicians, soldiers, movies, series, soap operas, and also that the Hateful comments against indigenous people on social networks and video platforms like YouTube often go unpunished, which does not happen with black people.

And also that within the right and the neoliberals there are many blacks, although it is the same right and neoliberals that provide support to neo-Nazi groups as we will see later.

And for all the people who died because of the Christian religions, the majority have no forgiveness:

Images recovered from the Internet.

Also, that the majority of humanity is selfish, individualistic, and only cares about money and technology.

He is like most people who care more about knowing if life exists on other planets than taking care of life on this planet.

Something disgusting about the Hispanists and all those who defend colonization also in Brazil, the United States and Canada, is that all these damn people consider the colonizers as heroes for fighting against the indigenous people and defeating them, and for bringing what they call civilization and progress, and the vast majority of these damned ones are right-wing, conservative, Christian and neoliberal.

Therefore, those damned people do hate the indigenous people, but many times the cowards deny it like Bolsonaro and his children.

In all the videos and writings they make about colonizers who defeated indigenous people in wars, these bastards consider them heroes to admire. Also, they always consider the indigenous people as totally bad, backward and who, according to them, did not provide contributions.

For this reason, cowards often deny, if someone asks them, that they hate the indigenous people, but with what they say and write they demonstrate it. Also, something disgusting is that they call the colonizers brave for fighting against the indigenous people with weapons that the indigenous people did not have.

This is why there is no real left on the entire continent, what there is are false lefts at the service of the Right that are part of colonialism. It is the Masonic game of the blue apron and the red apron:

Photographs recovered from the Internet.

And both right-wing and conservative ideologies such as political correctness, pacifism and the ideology of equality are part of the same colonialism. Therefore, the only way out would be for only indigenous people to govern on the continent.

And that those of us who are not indigenous do not have children, that we adopt orphaned indigenous children so that when we die all material goods pass to indigenous people as heirs.

Many indigenous people have difficulties in getting jobs, because the damn majority prefers to employ whites and mestizos, and in jobs they ask for many requirements that indigenous people do not have.

Also, indigenous people generally have many siblings and often suffer from hunger and many needs. Therefore, employing only indigenous people is a way to provide them with a salary so that they have economic resources for food and other needs.

Also, the damn governments and elites present livestock farming that is dedicated to raising bulls, cows, sheep and goats as food security, when none of that is needed for food security.

On the other hand: crops such as potatoes and cassava are food security because these crops are resistant to drought. In the case of aloe vera it is a medicinal plant. And in the case of hemp it can be used to produce paper, plastic and ropes in an ecological way.

On the other hand: raising bees and butterflies does help ecosystems, by helping to plant plants from which they obtain nectar, plants from which they feed on decaying fruits, and host plants.

One of the reasons why there is no true left: a true left would be radically opposed to Christianity, royalty, and governments formed by non-indigenous people.

But, for a real left to exist on this continent, they should focus solely on favoring the indigenous people who are the most oppressed.

But, there is no real left on the continent, until now all have promoted pacifism or have participated in the oppression suffered by indigenous people, and none has radically attacked Christianity. There are leftists in quotes that focus on liberation theology that is still Christianity.

And there are leftists that focus on atheism, that in the end atheism as well as Christianity are both parts of what is Western. Also, the left, as well as the right, focus on white cultures such as the Greeks and Romans mainly.

It's like classism and white supremacy, and political correctness, pacifism and the ideology of equality: they all emerge from Europe and the United States, that is, from the West.

Both the right and the left have been based on the idea that Western, white and European is best, and both have developed in the context of Freemasonry, as if they are poles of the same objective.

Therefore, for me there is no true left on the continent, since they all leave out indigenous people.

Also, another reason why there are no true leftists on the continent: both the right and the left prioritize whites, mestizos, blacks and mulattoes, and they view indigenous people as less important or disposable.

Polarization, going to one extreme or the other, and not having a middle point, is also something very typical of the Western, Christian, white and European that assumes that perfection exists, that everything must be perfect and that it does not take into account the exceptions that exist in everything, in the end this polarization is an imbalance.

Intellectualism is part of the narcissism or conceit of the European, Christian and Western that assumes that the complicated represents the wisest or most intelligent, when in reality the wisest or most intelligent is the simple.

In the end, what Jesus Christ taught: submission, he taught to submit to those who do harm, to forgive everything to those who do harm, to love those who do harm while loving your enemies and to turn the other cheek to those who do harm.

The teachings of Jesus Christ are very functional for the genocidal murderers in power, because they teach victims to submit to those who harm or oppress them. And logically when I mention the teachings of Jesus Christ, I do not mean that I believe that he really existed, what I am referring to is his teachings as a fictional character.

Many indigenous people do know that right-wing and neoliberal ideologies harm them, but many ignore how the left, politically correct, pacifism and the ideology of equality harm them, and they embrace those things without understanding that they are also their enemies.

Something I want to make very clear is that when I say that I am left-wing I mean that I am totally against Christian religions, and that I am against everything related to Judeo-Christian beliefs and the Western European worldview such as the Freemasonry, the Rosicrucians, European royalty, the

New Age, Satanism, neo-Nazism, Zionism and white paganisms or neo-paganisms.

By being left I never mean that I support leftist governments such as Hugo Chaves, Nicolas Maduro, Daniel Ortega, Fidel Castro, Luiz Inácio Lula da Silva, Andrés Manuel López Obrador, Evo Morales, Miguel Díaz-Canel, Alberto Fernández or Gustavo Petro, and I never mean that I support the atheist government of the Soviet Union that murdered the indigenous people of Siberia or the atheist government of China that also oppresses the indigenous people.

Logically, like the red Masonic apron and the blue Masonic apron: all those leftist governments serve the right, and although these leftist governments pretend to care about indigenous people, they only give them crumbs, keep crimes committed against indigenous people in impunity and always place non-indigenous people as a priority above indigenous people.

If in the elections between Luiz Inácio Lula da Silva and Jair Bolsonaro, I support Lula being elected president, it is because I know that right-wing neoliberal governments like Jair Bolsonaro feed and encourage hatred of indigenous people, and cause more crimes against natives.

But, that does not mean that I thought that Lula is good for the indigenous people, in Lula's government, the crimes and atrocities committed against indigenous people during Jair Bolsonaro's government went unpunished and without receiving harsh punishment.

When the former right-wing president named Jeanine Áñez caused murders of indigenous people in the Senkata and Sacaba massacres:

Photographs recovered from the Internet

This was also the fault of former left-wing president Evo Morales, some lie saying that Evo Morales fled Bolivia because his life was in danger, but this is false.

Evo Morales was elected president and voluntarily resigned, leaving room for Jeanine Áñez to assume the presidency. This is an example of the left serving the right (the Masonic plan).

In Argentina: all presidents, whether from the right or the left, have promoted hatred of indigenous people. Evo Morales was a good friend of the former Argentine president named Alberto Fernández.

Photograph recovered from the Internet.

Although in all the countries of the continent, the majority that is not indigenous (creoles, mestizos, blacks, European immigrants, mulattoes and Asians) remain silent, they are apathetic and indifferent to what the indigenous people suffer, and therefore, they are complicit and equally guilty.

It is in Argentina and Brazil where hatred of indigenous people is most present in an intense and conscious way.

Evo Morales also mixes the indigenous belief in the goddess Pachamama with the Christian beliefs of the Catholic Church, that is, Evo Morales promotes the New Age by mixing contrary and incompatible beliefs.

The Judeo-Christian god is very clear that he condemns with death the worship of other gods and condemns with death the practice of magic, therefore, it is offensive for indigenous gods to be mixed with Judeo-Christian beliefs.

Photograph recovered from the Internet

When Evo Morales repeats Christian garbage that revenge is bad, that resentment is bad and that indigenous people do not take revenge, what Evo Morales is telling the indigenous people is to submit to those who harm them, to allow the dominate, allow others to hurt them, turn the other cheek and do not defend themselves.

But, there is something else: Evo Morales caused murders of indigenous people in the Chaparina massacre:

Photographs recovered from the Internet

Evo Morales is the case of an indigenous traitor. Both the right-wing criminal named Jeanine Áñez and the left-wing criminal named Evo Morales deserve the death penalty.

In the leftist and pacifist government of Lula in Brazil: the invaders who are those who are not indigenous because the indigenous people were before everyone on the continent, the politicians, the military police (PM) and the federal police of Brazil continue to cause damage to the indigenous ethnic groups, as can be seen among those police officers there are whites, dark-skinned mestizos with indigenous features and blacks:

In Brazil, during Lula's left-wing pacifist government: men with tractors together with the military police (PM) and the federal police broke down a gate of the indigenous village called Ahain Aam to facilitate the invasion of this indigenous territory and the massacre of indigenous people who live in this territory. And, for example, in Bolivia, among those police and military personnel who harm innocent indigenous people, there are also traitorous indigenous people.

This is the same thing that happens in all countries on the continent, and all those politicians or governors who harm indigenous people and promote the genocide of indigenous people are elected by a majority that is not indigenous (creoles, mestizos, blacks, mulattoes, Asians immigrants and European immigrants).

Pacifism with those who harm the weakest, with those who harm the most vulnerable and with those who harm the innocent, causes these criminals to go unpunished and never pay for their crimes.

In Lula's government in Brazil: Jair Bolsonaro and his sons, the police and military who harm the indigenous people, and the criminal majority of Brazil who are not indigenous and who vote for politicians who harm the indigenous people, have gone unpunished, without severe punishment.

Throughout the continent: for both right-wing and neoliberal governments and left-wing governments, the priority is never indigenous people, they all place non-indigenous people as a priority above indigenous people, none of them really protect indigenous people.

Those on the left only give crumbs to the indigenous people sometimes, and none of them have any interest in returning the continent to the indigenous people. On the contrary, they promote multiculturalism knowing that the majority of those who are not indigenous act as predators of the indigenous people and will never live in peace with the indigenous people.

Costa Rica sells itself to the world as a country of peace, and in Costa Rica the majority is white supremacist, they remain silent and are indifferent to what the indigenous people suffer.

This year 2024, in Costa Rica, the indigenous people of the Cabécar ethnic group who recover territories in China Kichá have suffered from landowners causing fires in their territories, this has caused the Cabécar indigenous people to lose 170 hectares of crops that they used for their food:

The majority in Costa Rica, like the majority in all countries on the continent: remain silent, apathetic and indifferent to all the atrocities and injustices suffered by indigenous people, therefore, they are complicit and equally guilty.

Peace with those who harm indigenous people directly or indirectly is a crime.

In Costa Rica and in all the countries of the continent: when the indigenous people defend themselves or take revenge, they are treated as criminals or as terrorists by the damn media like television, by the damn politicians and by the damn majority who are not indigenous who They want the indigenous people to love their enemies, forgive everything and turn the other cheek so that they allow them to continue harming them and not defend themselves.

I have never considered revenge, resentment or resentment to be bad. And those Christian teachings about loving your enemies, about forgiving everything, about turning the other cheek, about peace with those who hurt you, that revenge is bad and that resentment is bad, always caused me a lot of disgust, a lot of anger and repulsion.

These Christian teachings are made for criminals to dominate and subjugate the most vulnerable.

When I mentioned that there are good indigenous people and bad indigenous people. By bad indigenous people I mean traitorous and corrupt indigenous people, and indigenous people who commit crimes such as rape. I am never referring to indigenous people who take revenge and I am never referring to indigenous people who defend themselves.

I consider the indigenous people who defend themselves and take revenge to be good, and the indigenous people should have advanced weapons so that they can defend themselves, take revenge and recover the continent.

When an indigenous person commits a crime, the monsters who hate indigenous people use that to say that all indigenous people are like that.

But, there are many cases of white people who are serial killers, who commit rape and murder, such as the following:

A white man from Spain, and a Catholic and Jesuit priest, named Alfonso Pedrajas Moreno, sexually abused minors in Bolivia and the Catholic Church covered it up:

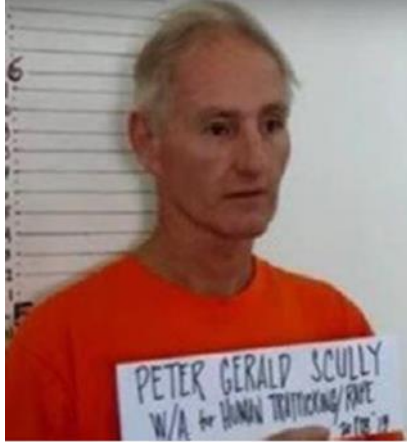

Alfonso Pedrajas Moreno. Photograph recovered from the Internet.

Warren Jeffs, a white Mormon man from the United States, was arrested for having committed sexual violations:

Peter Scully, a white man from Australia, traveled to the Philippines where he kidnapped girls to make videos for the Deep Web like Daisy's Destruction, in these videos the girls were abused, tortured and raped, and these videos were bought by millionaire criminals:

Peter Scully. Photograph recovered from the Internet.

Antonio Anglés is a white Brazilian who kidnapped, tortured, raped and murdered the Alcàsser girls in Spain 25 years ago.

Klara Mauzerová, a white woman from the Czech Republic, kept her two children locked up without food, torturing them and devouring pieces of meat from the children's legs, Klara did this together with her sister Katherina, following the orders of Barbora Skřelová who was an adult woman who posed as a child they had adopted.

Klara Mauzerová, Katherina and Barbora Skřlová. Photographs recovered from the Internet.

Stephen Griffiths of England murdered female prostitutes and ate parts of their bodies:

Stephen Griffiths. Photograph recovered from the Internet.

Jeffrey Dahmer, a white man and serial killer from the United States, murdered many black and gay men, and often committed cannibalism by eating parts of his victims' bodies:

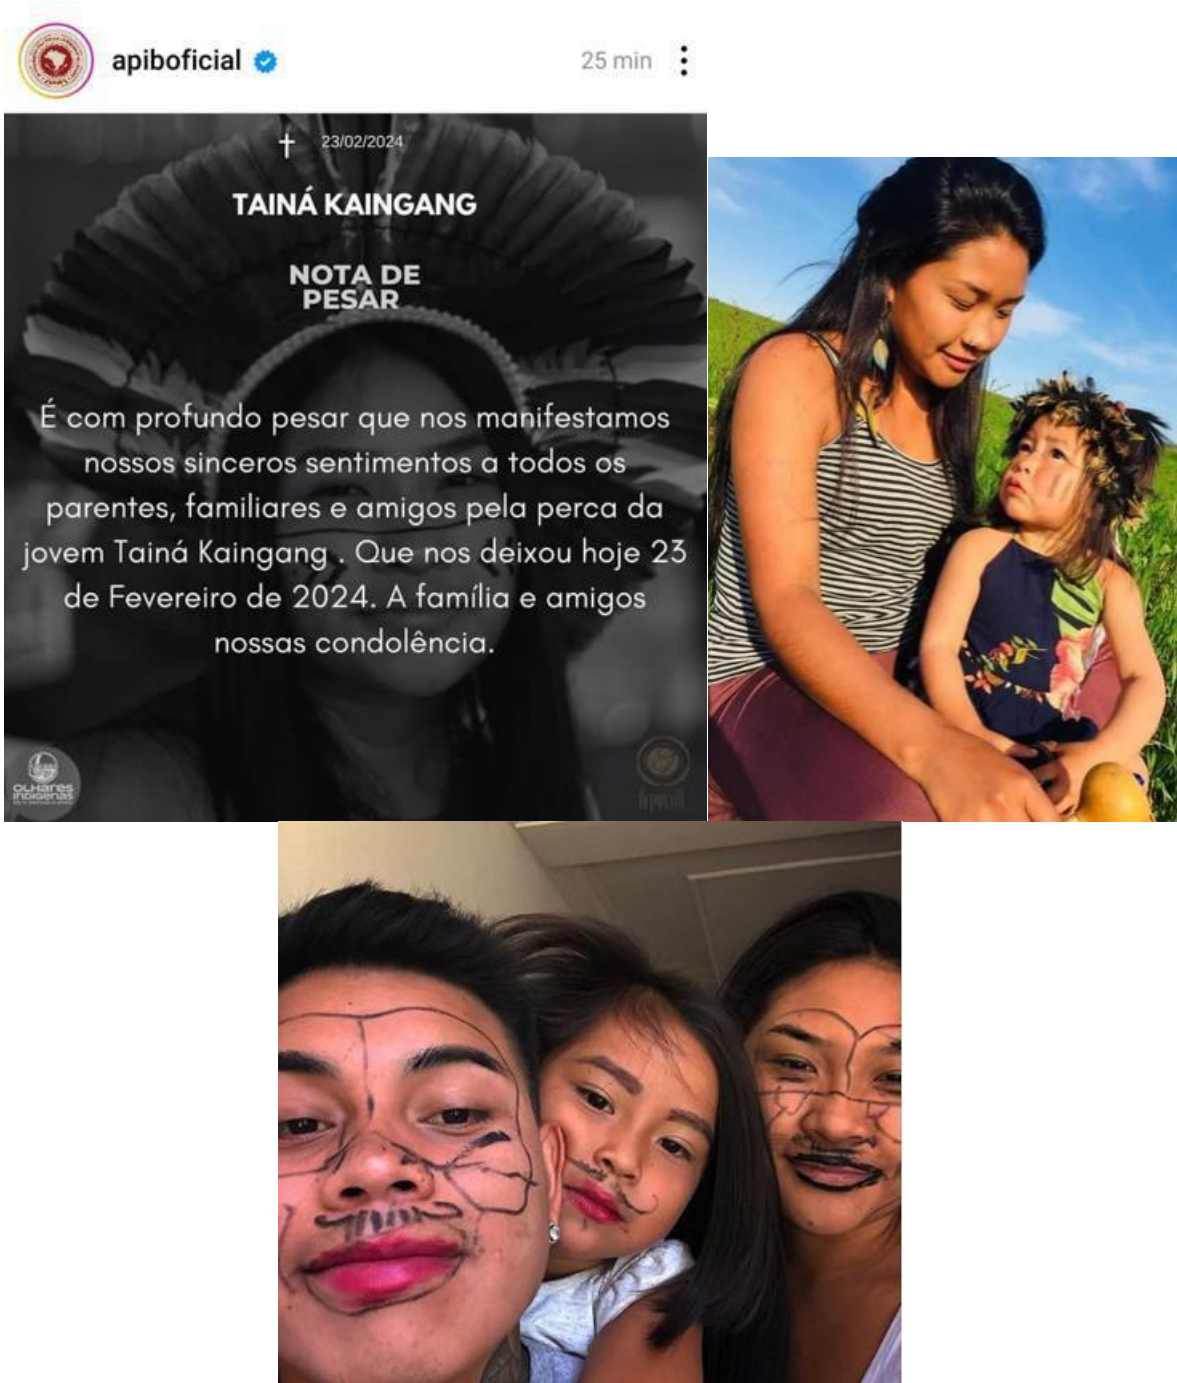

Jeffrey Dahmer. Photograph recovered from the Internet.

For these and more cases of white people who murder innocent people, who commit rape and who commit cannibalism: no one claims that all white people murder innocent people, no one claims that all white people are rapists and no one claims that all white people are cannibals.

But, there are cursed men and cursed women who affirm that all indigenous people murder innocent people, as when they say or write that all indigenous people commit infanticide, that all indigenous people commit rape, that all indigenous people are pedophiles or that all indigenous people are cannibals.

These damned men and damned women who generalize indigenous people and put them in the same bag should have the death penalty for promoting prejudice against indigenous people and for promoting hatred of indigenous people.

In Brazil: the young indigenous woman named Tainá Kaingang who was the mother of a girl committed suicide.

Screenshot and photographs recovered from Instagram.

When indigenous people commit suicide, it is always the fault of the majority of non-indigenous people for their silence, apathy and indifference to what indigenous people suffer, for never taking action to improve the situation of indigenous people, for voting for politicians who harm to the indigenous people, and for being part of the plan of the governments and the elites to replace the indigenous people by reproducing on this continent.

In one way or another, directly or indirectly: the majority of non-indigenous people harm indigenous people, and democracy means the will of the majority. Therefore, when left-wing governments defend democracy, they are defending the right and the majority of non-indigenous people who act as enemies and predators of indigenous people.

Hatuey was from the Taino ethnic group that was completely exterminated by the Spanish colonizers. And other ethnic groups on the continent were also completely exterminated by both the Spanish and Portuguese as well as the English and French.

But the Hispanists, the right, capitalists and neoliberals or libertarians never talk about this, because the cowards hide the crimes committed, although many of them are neo-Nazis and Zionists at the same time as we will see later.

All these criminals focus only on the Aztecs and the Incas, when the ethnic groups exterminated by the European colonizers were not only the Incas and the Aztecs, many indigenous ethnic groups were also exterminated, and the rest of the indigenous ethnic groups that were not exterminated since the arrival of the European colonizers to the present they continue to suffer extermination, genocide with the complicit silence of the majority, extreme poverty where they suffer famine, hatred, contempt, humiliation and discrimination.

Look at this comment and I'll tell you what's wrong:

@amaterasufrl1138 • hace 1 a

Soy español y me avergüenza ver todas esas barbaridades que se hicieron, ojala un punto de hermandad entre nuestros países porque muchos de nosotros desde aquí de corazón los sentimos como hermanos, con raíces compartidas en nuestras culturas y para bien o para mal se cruzaron en la oscura y turbia historia del ser humano y sus guerras.

55

In this comment recovered from YouTube by user @amaterasufrl1138 he writes the following: -I am Spanish and I am ashamed to see all those atrocities that were done, I hope there is a point of brotherhood between our countries because many of us from here at heart feel they are brothers, with shared roots in our cultures and for better or worse they crossed paths in the dark and murky history of human beings and their wars.

Even in this many Europeans are ignorant; believe that Creoles and mestizos born on this continent are indigenous.

Now the question is:

Why the brotherhood with the Creoles and mestizos of this continent who remain silent, apathetic and indifferent to what indigenous peoples continue to suffer?

Why brotherhood with governments on this continent that do not have indigenous people as a priority, that allow many indigenous people to go hungry, that allow invasions of indigenous territories, that allow and provoke massacres and extermination of indigenous people in the present?

The ignorance of many Europeans is so enormous that even when they try to be good, they are bad, they believe that fraternity with governments, Creoles and mestizos who hate, oppress, despise and discriminate against indigenous peoples, and who cause massacres and extermination of indigenous people, according to them it is to help the indigenous people because of course they think that criollos and mestizos are indigenous.

And I'm not generalizing, obviously there are exceptions like the Europeans who work in Survival International, but they are 1% or less. 99% of Europeans, Brazilians, Argentines, Creoles and mixed race people are ignorant and harm indigenous people in a direct or indirect way.

Throughout the continent there are criminals who justify and defend the colonizers: in Spanish-speaking countries there are criminals who defend the Spanish colonizers (hispanistas), in Brazil there are criminals who defend the Portuguese colonizers, and in the United States and Canada there are criminals who defend the English colonizers and the French colonizers.

One thing I have heard the Hispanistas (defenders of Spanish colonization) say is that on this continent there was never an inquisition that persecuted the indigenous people, but, there was because if the indigenous people worshiped their gods, even if they did not make sacrifices, the Europeans declared war on them in what they called just wars and murdered indigenous people who worshiped their gods.

Hatuey was an indigenous chief of the Taino ethnic group, and Hatuey was burned alive at the stake for not converting to Christianity. Therefore, there was an inquisition on the continent that murdered indigenous people who did not convert to Christian religions.

Images recovered from the Internet.

And the inquisition that attacks indigenous people continues to exist in the present when indigenous people of the Guaraní ethnic group are burned alive and their houses of worship to their gods are burned by Christian criminals.

Photographs recovered from the Internet

Christian religions love to pretend they are innocent victims and persecute them, just like the non-indigenous majority who victimize themselves with conspiracy theories, and just like the right and neoliberals or libertarians who love to victimize white people with the stupid great replacement conspiracy theory.

When it is these disastrous Christian religions that persecute, attack and murder indigenous people who maintain their belief in their gods. When the majority who are not indigenous are the ones who harm the indigenous people with their apathy, silence and indifference to what the indigenous people suffer.

And the majority who are not indigenous are part of the governments and elites' plan to replace the indigenous people.

Before colonization, no indigenous people believed in hell because hell, the devil or satan and demons are Judeo-Christian inventions, they are Judeo-Christian legends and they are Judeo-Christian myths.

Before burning Hatuey alive: the Spanish colonizers told him that if he repented of worshiping other gods after being burned alive he would go to heaven, but if he did not repent of worshiping other gods he would go to hell. And Hatuey answered them that he preferred to go to hell and not go to a heaven where such cruel beings are.

All those who made hate speeches against the indigenous people, all those who caused the indigenous people to be expelled from their lands, and all those who caused massacres and exterminations of indigenous people, in addition to belonging to damned Freemasonry, were also from damned Jewish religions and Christians:

George Washington was of the Episcopal church.

Andrew Jackson of the Presbyterian Church.

Domingo Faustino Sarmiento was Catholic.

John Milton Chivington was of the Christian Methodist church.

Philip Henry Sheridan was Catholic.

And Jules Popper was Jewish.

Conservative clowns who invent conspiracy theories are lying when they say that Freemasonry is the enemy of Christian religions. Freemasonry is the same as the Christian religions.

Criminals who invent conspiracy theories only repeat a lie created by the Christian churches and the Freemasons to mislead, just as when neo-Nazis and Jewish Zionists invent that they are enemies to mislead.

What happens is that Freemasonry is the same as New Age garbage because it mixes Judeo-Christian with Greek and Egyptian.

The Jews defame the Egyptians when in the Torah (first five gospels of the Old Testament) they invent that they were victims of the Egyptians who enslaved them and that the Egyptians were tyrants over them. But, stupid Freemasonry mixes the Jewish with the Egyptian.

The biblical god condemns with death the worship of other gods and orders that statues to other gods be destroyed, the biblical god states that only humans are created in his image and likeness, and the Egyptians worshiped many gods and many of their Gods had faces of animals of other species or shapes of animals of other species, but genocidal Freemasonry mixes the Jewish with the Egyptian.

The biblical god condemns with death those who practice magic and that was what the nefarious Jews wrote both in the Torah (first five gospels of the old testament) or pentateuch for Christians and in the Tanakh (other gospels of the old testament), and The Egyptians practiced spells and spells, but Freemasonry mixes the Jewish plague with Egyptian beliefs.

Akhenaten was a disastrous pharaoh who tried to impose monotheism (belief in one god) in Ancient Egypt, but he was never accepted by the majority of Egyptians and when Akhenaten died, the Egyptians tried to erase any trace of

Akhenaten's existence. Apparently a disciple of Akhenaten in revenge had a relationship with the lie of the Jews that they were slaves of the Egyptians.

There is an argument between black Egyptologists and European Egyptologists, and there is always this attempt by the Europeans to want to be the center of everything: before the Greek and Roman invasion of Egypt, no Egyptian was white, and white Egyptians only began to exist when Egypt was invaded, colonized and ruled by the Greeks and Romans in the Greco-Roman periods known as the Ptolemaic period, Early Roman period, Middle Roman period and Late Roman period.

In Egyptian art, before the invasion and colonization by the Greeks and Romans: it is very clear that the Egyptians had dark skin, almond eyes and black hair. Before the Greeks and Romans invaded and colonized Egypt, no Egyptians were white.

Therefore, when European Egyptologists claim that the Egyptians were white, the art of the ancient Egyptians proves this to be false:

Images of the art of the ancient Egyptians, recovered from the internet.

Something that catches my attention about the art of the ancient Egyptians, before being invaded and colonized by Greeks and Romans, are the almond-shaped eyes they had, and this makes me wonder: if, in addition to the relationship with indigenous ethnic groups in Africa such as the Bushmen, that have slanted eyes, there is also a relationship with indigenous ethnic groups from Asia and this continent that have the same type of eyes.

It is interesting that: in Egyptian art, the Egyptians represented themselves and their gods with reddish skin, just as the majority of indigenous people have the same reddish skin tone.

Images of Egyptian art, recovered from the internet

It must be taken into account that Egypt suffered many invasions and colonizations from: Persians, Greeks and Romans, from Arabs who colonized Egypt under the rule of Amr ibn al-Āṣ, and from Turks and Ottomans during the Middle Ages. This meant that due to so many mixtures (miscegenation), the original physiognomy of the Egyptians was being lost.

The original Egyptians also suffered substitution or replacement:

When the Persians invaded, colonized and ruled Egypt, these Persians called themselves Egyptians.

When the Greeks and Romans invaded, colonized and ruled Egypt, these Greeks and Romans called themselves Egyptians.

When the Arabs invaded, colonized and ruled Egypt, these Arabs called themselves Egyptians and today they are the inhabitants of Egypt of the Islamic religion.

As I have already commented on other times, Freemasonry is the same as the New Age because it mixes the Judeo-Christian with the Egyptian and the

Greek, and many presidents and soldiers who caused hatred, massacres and extermination of indigenous people belonged to the Freemasonry, but when they talk about the Egyptians what they are referring to is the Greco-Roman period of Egypt.

In indigenous ethnic groups from the Xingu territory in Brazil such as the Kuikuro, the Kalapalo, the Aweti and the Yawalapiti, during ceremonies and dances they seek to make women's skin lighter than men's skin:

Photographs recovered from the Internet

The ancient Egyptians also carried out a process to make women's skin lighter than men's skin:

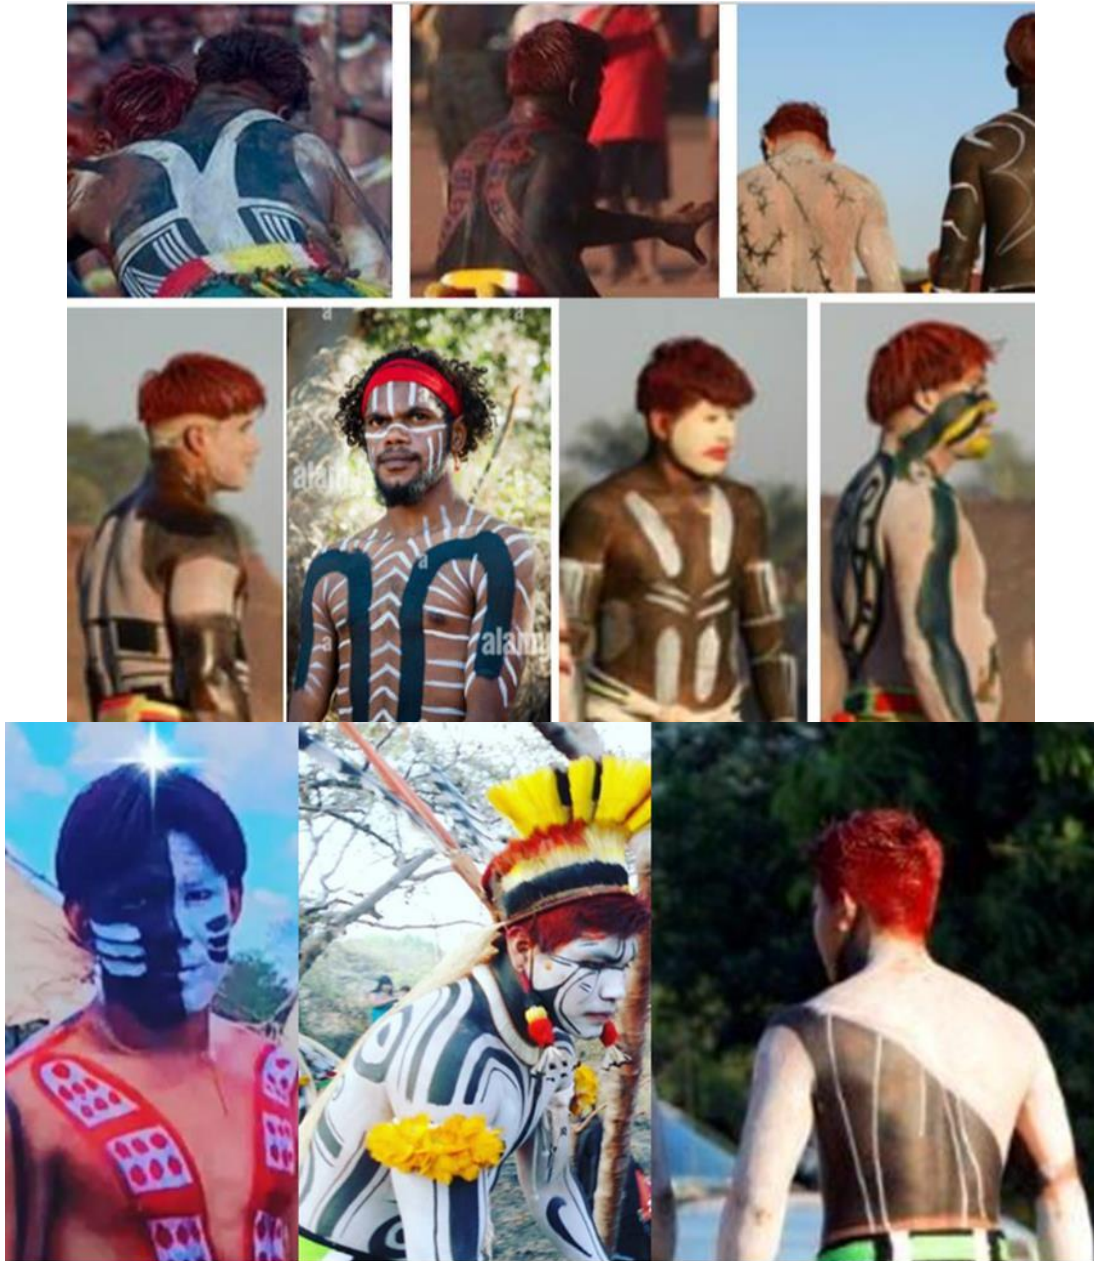

Images recovered from the Internet

For the ancient Egyptians: both the color white (day and light) and the color black (night and darkness) represented good and made a balance, they were not at war.

Images recovered from the Internet

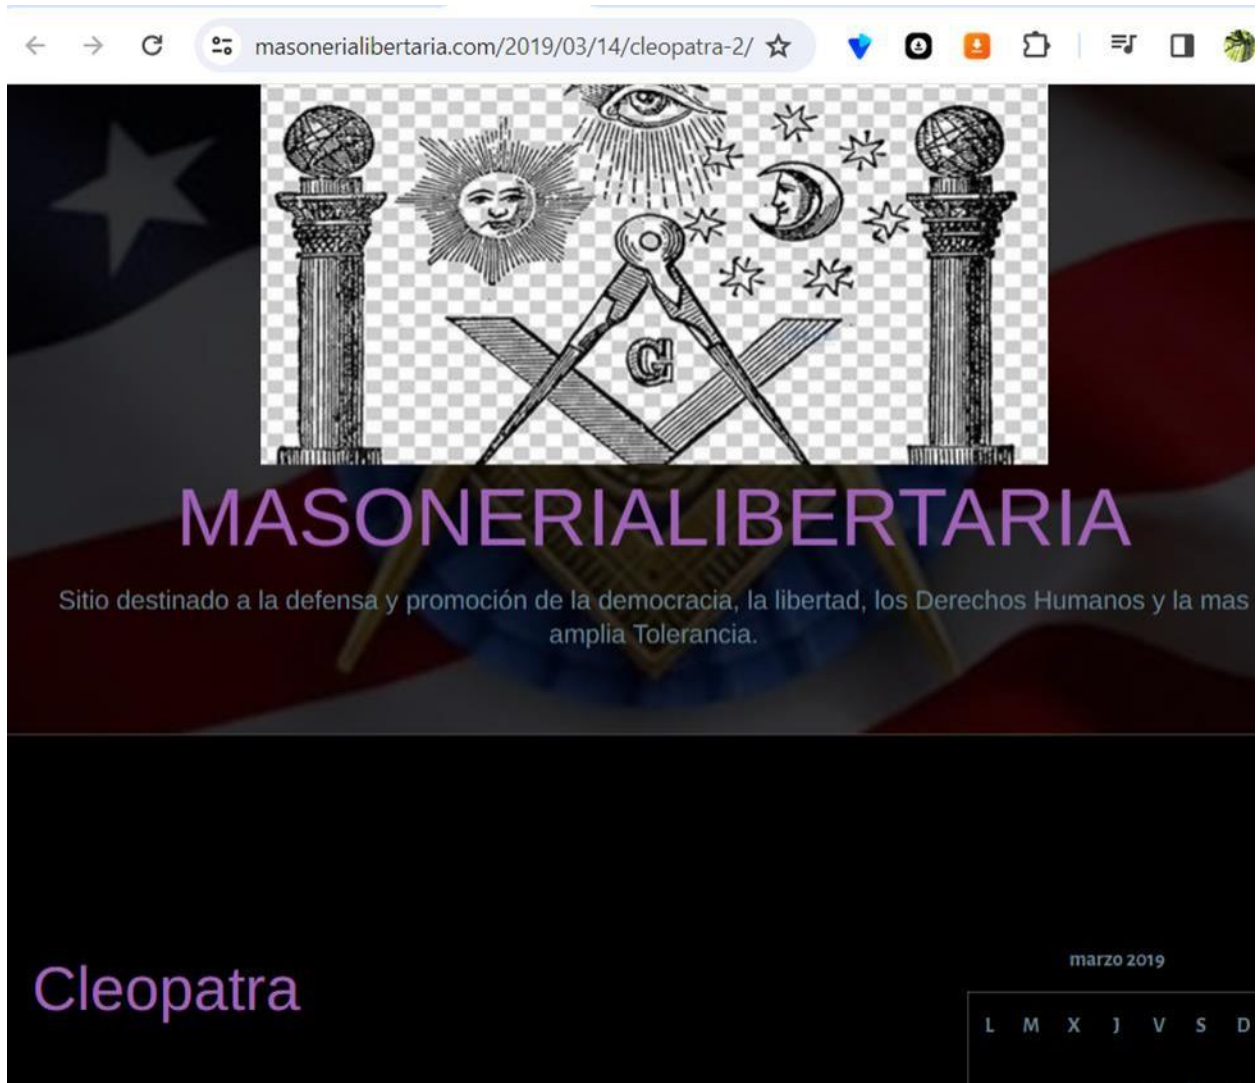

For many indigenous ethnic groups: both the color white (day and light) and the color black (night and darkness) represent good and create a balance, they are not at war. Therefore, they use both colors (black and white) in body paint:

On this Libertarian Masonry website, tribute is paid to the horrible old woman Cleopatra who belongs to the Ptolemaic period where the Greeks ruled in Egypt because Alexander the Great invaded and colonized Egypt:

Just like in the music video called Dark Horse by the white singer from the United States called Katy Perry (the same one who promotes the New Age belief that aliens visit us) and the black rapper called Juicy J where they pay tribute to Cleopatra, and in a part of the song's lyrics, Juicy J mentions the serial killer, cannibal, murderer of black people and murderer of homosexuals named Jeffrey Dahmer:

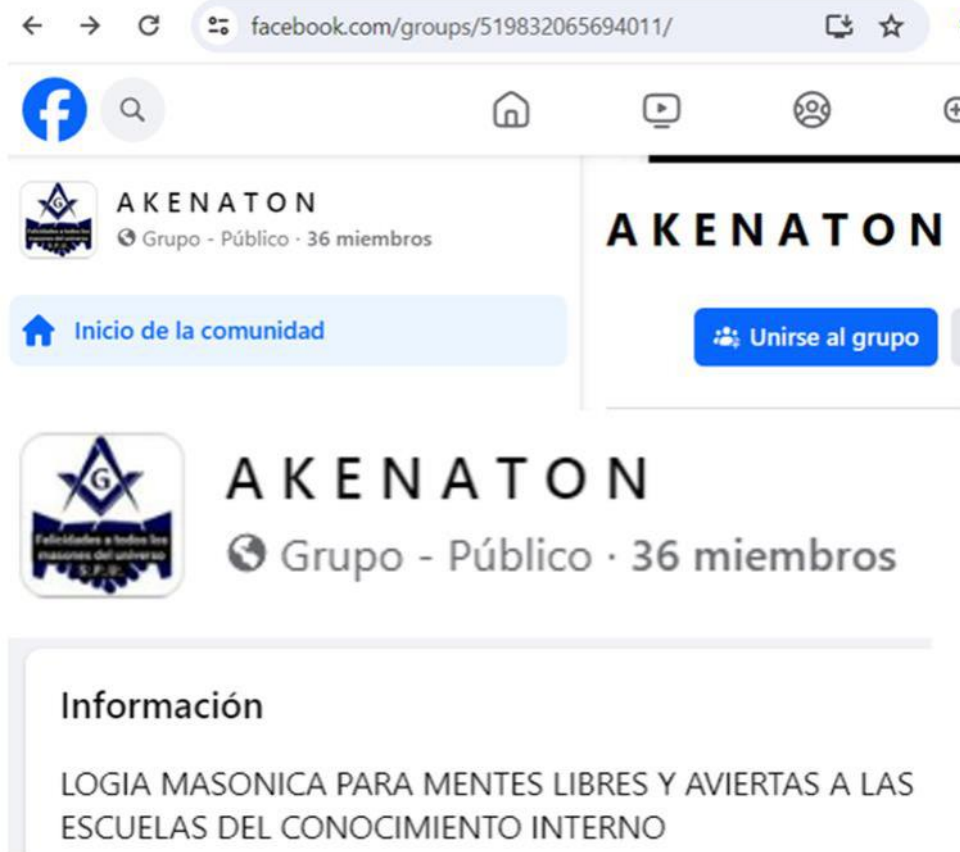

Photographs recovered from the Internet and YouTube, and screenshots recovered from: <https://www.youtube.com/watch?v=0KSOMA3QBU0>

When I have seen Katy Perry concerts to analyze them, they always give the impression of being a kind of ritual where she mixes Egyptians with the New Age belief in extraterrestrials who visit us, in addition, this singer often pays tribute to cowboys, and her parents, Maurice Keith Hudson and Mary Christine Perry, are Pentecostal pastors (remember the relationship between Pentecostal churches and the CIA):

Freemasonry also pays tribute to Akhenaten, they even created a lodge with the name of AKENATON that has a Facebook group:

The Rosicrucians who emerged from Freemasonry also pay tribute to Akhenaten. In the online store called Rosicrucian Editions, a junk product is sold with the name Akhenaten Essential Oil:

Remember that Akhenaten was the disastrous pharaoh who invented to impose monotheism (belief in a single god) in Egypt.

And now that I remember, there was a YouTuber from Spain who used the name Akhenaten. The New Agers who believe that aliens visit us and promote conspiracy theories invented by conservatives always mention Akhenaten along with fictional characters invented by the Jews such as Moses and Abraham:

El pentecostalismo sionista "made in USA" y el apoyo a las ilegalidades de Israel

Publication titled: Zionist Pentecostalism "made in the USA" and support for Israel's illegalities. Screenshot retrieved from: <https://www.monitordeoriente.com/20201202-el-pentecostalismo-sionista-made-in-usa-y-el-apoyo-a-las-ilegalidades-de-israel/>

I do not understand why the stupid majority, the neo-Nazis, the right, the Neoliberals or Libertarians, the capitalists and all those who defend colonization

believe that European features are beauty and perfection; if white skin has a higher risk of skin cancer, is coarser, gets more irritated, is less hydrated and has more hair; if round, light eyes are more affected by ultraviolet light from the sun and are more affected by the wind; if greater height has a greater risk of spine and back problems; and if light hair suffers more damage from the sun and more dryness.

Photographs recovered from the Internet based on Fair Use

As part of the hatred that exists against indigenous people, indigenous beauty is also made invisible.

They make indigenous features invisible, that is why in European art sometimes they represent indigenous people as white and other times as black, the entertainment industry such as cinema and series often hides indigenous features and hides indigenous beauty, and Creoles and mestizos also do not represent indigenous people correctly.

The modeling industry does the same, which, if they talk about white beauty, mulatto beauty, black beauty and mestizo beauty, but most of the time they make indigenous beauty invisible. It's like everything is done to represent the desire of governments and elites to eliminate indigenous people completely.

On the other hand, we have the defenders of Spanish colonization (Hispanists) who say that the fault of what the indigenous people suffer in the present lies only with the criollos and the mestizos, and I suppose that those who defend Portuguese colonization, English colonization and French colonization do the same.

When that mentality of visceral hatred that is seen to be instinctive, of seeing the indigenous people as subordinate or inferior, of seeing the indigenous people as savages, uncivilized and ignorant, of seeing the lives of the indigenous people as disposable and as simple objects or things, those European colonizers brought it to the continent.

And we have the other part, of mestizos and creoles who attack European colonization, but not to defend the indigenous people in the present, they do it to supplant the indigenous people. When colonization continues to occur in the present, also by Creoles and mestizos.

And this supplanting was the same thing that happened with the Egyptians: when the Persians invaded, colonized and ruled Egypt, they called themselves Egyptians, the same as the Greeks and Romans did when they colonized Egypt, and the same as What the Arabs who invaded and colonized Egypt do call themselves Egyptians until the present.

These mestizos and creoles, when a European questions them that they also oppress the indigenous people, they also hate them, they also vote for politicians who harm the indigenous people and also despise the indigenous people, they say that, just as the Europeans should not have gotten involved in the conflicts that existed in the past between different indigenous ethnic groups, they should not get involved in the damage that Creoles and mestizos do to the indigenous people in the present.

When Creoles and mestizos, the vast majority are equal to Europeans in way of being, way of thinking, tastes and vision of the world.

But, we see that this is what the left does, giving crumbs to the indigenous, giving them false solutions such as pacifism and equality, and always placing whites, mestizos, blacks and mulattoes as a priority and above the natives.

So, both show hatred towards the indigenous people, those who defend colonization because they would like the system of domination and oppression against the indigenous people brought by the Europeans to have always been

maintained, they say that the indigenous people did not provide contributions, that everything indigenous is bad and backward, that as Dalas Review and many Hispanists say, if we are not indigenous we should be indifferent and apathetic with what indigenous people suffer, and who support right-wing and neoliberal politicians who cause oppression of indigenous people and extermination of indigenous people in the present.

And the others who attack European colonization, but not to defend the indigenous people of the present, and do so with the sole objective of supplanting the indigenous people, they demonstrate hatred by stating that no one should care that creoles and mestizos harm the indigenous people on this continent, by pretending to be indigenous when their way of thinking, being and vision of the world is European, by giving crumbs to the indigenous people, by representing them incorrectly in the same way as Europeans do where they eliminate the traits that predominate in the majority of indigenous ethnic groups, and the Left politicians by brainwashing the indigenous people with Christian, pacifist and equality ideologies that only keep them oppressed.

In Colombia, in this year 2024, three Arhuaco indigenous people were injured in attacks caused by non-indigenous farmers. In Costa Rica: this year 2024 fires caused by non-indigenous criminals have destroyed 800 hectares of the China Kichá territory of the Cabécar indigenous people.

In Brazil: in this year 2024, landowners, the federal police and the military police (PM) continue to attack indigenous people of the Guaraní Nhandeva ethnic group and indigenous people of other ethnic groups.

Attacks by landowners, federal police and military police (PM) against indigenous people of the Guarani Nhandeva ethnic group, but which also occur daily in Brazil against indigenous people of other ethnicities. Screenshot recovered from Instagram.

The genocide of indigenous ethnic groups continues today in all countries of the continent with the silence, apathy and indifference of the majority who are not indigenous and who, therefore, are equally complicit and guilty.

Other forms of genocide of indigenous people are: when they are allowed to live in extreme poverty suffering from hunger and many needs, which causes their life span to be shorter than the majority. Governments and elites are hell-bent on eliminating all indigenous people, and those governments and elites are elected by the non-indigenous majority.

That they allow the majority of indigenous people to suffer oppression, hunger, aggression, hatred, discrimination, massacres, invasion of territories, and expulsion from territories caused by police and military: favoring miscegenation by indigenous people, seeking that their children have a better life and Miscegenation is a form of extermination of indigenous people, because the

majority of mestizos despise indigenous people, have the way of being, tastes, way of thinking and vision of the world of Europeans.

Therefore, it is not a fight of rich against poor, it is not a fight of men against women, it is not a fight of whites against blacks. It is a fight of a non-indigenous majority against the indigenous.

Equality is a farce: although there are good indigenous people and bad indigenous people, because it is a reality, indigenous people due to their genetics tend to be more humble, simpler, value silence more, are less consumerist and have more harmony with nature, in addition that their physical features are better.

The indigenous people are part of a balance in the ecosystems, while the majority of those who are not indigenous only destroy the ecosystems.

Unfortunately, the majority of indigenous people today are of Christian religions due to colonialism by those who are not indigenous.

Many times, indigenous people are not aware of the damage to the environment and are not aware of the damage caused to themselves by livestock farming that is dedicated to raising bulls, cows, sheep and goats for meat, leather, milk and dairy products that the European colonizers brought, and that, too, is the fault of colonialism and integration into the sick society that they have suffered.

Pacifism and the Christian teachings of loving your enemies, turning the other cheek and forgiving everything are used to oppress the indigenous people and keep them dominated.

In all the countries of the continent, when indigenous people defend themselves or take revenge, they are treated as terrorists, criminals or savages by the damn media like damn television, by the damn police, by the damn military, by the damn governments and by the Damn majority who are not indigenous.

The inquisition against the indigenous ethnic groups that preserve their beliefs never ended; many times the houses of prayer to their gods were burned down:

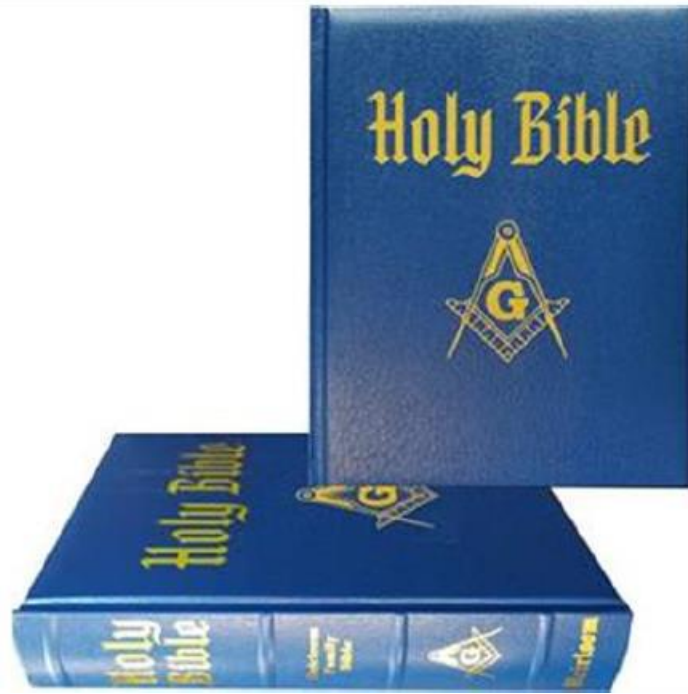

Photograph recovered from the Survival International Instagram account.

To the majority, because they believe in the god of the Bible, in Jesus Christ, in saints, in virgins, in angels and in demons (who do not represent forces of nature and that many times these fictitious beings are represented with European appearance), they do not consider them ignorant, they do not consider them primitive, they do not consider them a source of ridicule and they do not consider them backward because of this.

But, to the few indigenous people who still preserve their beliefs, which are already very few, for believing in gods, goddesses and spirits that do represent forces of nature that make life possible: both Christian religions and atheists, agnostics and skeptics consider them ignorant, primitive, a source of ridicule and backward for having beliefs that are in harmony with the natural environment.

In Freemasonry: the books of the Abrahamic religions (Judaism, Christianity and Islam) such as the Torah and Tanakh of the Jews, the Bible of the Christian religions and the Koran of Islam are considered sacred books.

Freemasonry has always celebrated and been proud to have Freemasons such as: Domingo Faustino Sarmiento, John Milton Chivington and Andrew Jackson. And all Freemasonry lodges, whether they are York Rite, Ancient and Accepted Scottish Rite, or Memphis and Mizraim Rite, celebrate that these criminals were Masons and do not hide their admiration for them.

Remember that:

Domingo Faustino Sarmiento said this phrase: - We would like to remove from all American social issues the savages, for whom we feel, without being able to remedy it, an invincible disgust, they are nothing more than disgusting Indians, whom we would have had hanged and would have hanged now, if reappear in a war.

Domingo Faustino Sarmiento also said: - For the savages of America I feel an invincible disgust without being able to remedy it. Those scoundrels are nothing more than some disgusting Indians. Lautaro and Caupolicán are lousy

Indians, because that's how they all are. Incapable of progress, their extermination is providential and useful, sublime and great.

John Milton Chivington, who was part of the Christian Methodist church, led the Sand Creek Massacre in the United States. John Milton Chivington scalped Indians, cut the bellies of pregnant indigenous women and removed fetuses, and cut off the male and female genitals of indigenous as trophies.

John Milton Chivington said: -Cursed be the man who sympathizes with the Indians, I have come to kill Indians, and I believe that it is just and honorable to use any means under God's heaven to kill Indians.

Andrew Jackson led an extermination against indigenous communities, highlighting his brutal war against the Muskogee Nation.

The Battle of Horseshoe Bend became a tragic symbol of the violence perpetrated by Jackson and his troops. The atrocities committed, such as making horse reins from skins torn from the bodies of Muskogee indigenous and sending souvenirs to the ladies of Tennessee, were etched in the history of the United States.

Andrew Jackson sparked the Trail of Tears which was the forced journey of Cherokees from Georgia and Alabama to northeastern Oklahoma where thousands of them died due to the extreme conditions imposed by the United States Army.

The Muskogee, Seminole, Chickasaw, and Choctaw also suffered significant losses during their own forced marches.

Andrew Jackson is a prominent figure in American history, associated with the era of democracy and the Democratic Party. Andrew Jackson became a hero to the land-scarce rural white population, who believed he would solve their problems by driving out the indigenous and opening up opportunities for them.

Upon assuming the presidency, Jackson received the support of poor whites and was reelected in 1832, even though the landless settlers gained little.

Andrew Jackson is proof that democracy is the enemy of the indigenous, since democracy consists of the will of a majority that is not indigenous, who is selfish and indifferent to the lives of the indigenous people whom they consider disposable, with less value and below.

That all types of Masonic lodges celebrate having had Domingo Faustino Sarmiento, John Milton Chivington and Andrew Jackson as members of Freemasonry is proof of how Freemasonry endorses hatred of indigenous people and the extermination of indigenous people.

Furthermore, that whites, immigrants and poor people who emigrated to the United States, supported Andrew Jackson and considered him a hero for facilitating the extermination of natives, is proof that the poor and working class who are not indigenous are just as enemies of the indigenous people such as the bourgeois class and the elites.

And it is not a war of the working class against the bourgeois class, it is not a war of the bourgeois against workers, it is not a war of whites against blacks, it

is not a war of blacks against whites. It is a war of those who are not indigenous against the indigenous.

The same entertainment industry in the United States (movies and series) has always presented Jews (who are a religion and not a race) as innocent victims.

And this same entertainment industry repeats the same lie of Hitler, the Nazis and the neo-Nazis that Jews are a race.

But, Julio Popper, who was Jewish and a Freemason, was one of the causes of the extermination of the indigenous people of the Selknam ethnic group in Chile and Argentina.

Remember that when Jair Bolsonaro said that there would not be a centimeter of land demarcated for indigenous people, he said it at a conference of Zionist Jews and they applauded him. That is why both: neo-Nazism and Jewish Zionism are enemies of the indigenous people.

In a publication, Argentine Freemasonry celebrates that Domingo Faustino Sarmiento promoted the inclusion of immigrants, when immigrants who are not indigenous have always been used to exterminate indigenous people and replace them.

And equality of opportunity is also based on displacing indigenous people and oppressing them so that non-indigenous people have privileges and benefits that indigenous people do not have.

Para la Masonería Argentina, el 11 de setiembre de cada año es una fecha singular. Recuerda el fallecimiento de Domingo Faustino Sarmiento, Presidente de la Nación entre 1868 y 1874, insigne masón que fue electo Gran Maestro de nuestra Institución en 1882. Por encima de esas y otras circunstancias de su rica biografía, Domingo Faustino Sarmiento fue el "padre del aula", el visionario de la educación argentina que la organizó y le dio sentido, que elaboró un proyecto destinado a varias generaciones, a la inclusión de los inmigrantes y a la igualdad de oportunidades.

At the same time, these Freemasons celebrate hatred, genocide and massacres of indigenous people, and consider criminals who committed atrocities against indigenous people and promoted hatred of indigenous people as heroes.

Freemasons know that many politicians and soldiers who belonged to Freemasonry were the same ones who promoted hatred of indigenous people, the same ones who promoted genocide and the extermination of indigenous people.

In fact, in the following publication of the Julio Argentino Roca Lodge, referring to Julio Argentino Roca they write as something to admire and celebrate: - He had an outstanding performance in the War of the Triple Alliance and was the architect of the strategy that would lead to the definitive victory in the fight against the Indian.

EFEMÉRIDES ARGENTINAS

 1843: Nace Julio Argentino Roca: Militar, político y estadista. Nacido en Tucumán. Hijo de un Guerrero de la Independencia, José Segundo Roca, quien fue oficial del general San Martín y ayudante de Campo del Mariscal Santa Cruz, además de combatir en la guerra contra el Brasil, en nuestras luchas civiles y en la guerra contra el Paraguay, durante la cual falleció y en cuyo entierro su hijo Julio, por entonces alférez, fue el abanderado del Regimiento Salta, del cual su padre era comandante.

Como militar, Julio Argentino Roca combatió durante la guerra civil entre el por entonces Estado de Buenos Aires y la Confederación Argentina. Tuvo una destacada actuación en la Guerra de la Triple Alianza y fue el artífice de la estrategia que llevaría a la victoria definitiva en la lucha contra el indio. Fue dos veces Presidente de la Nación y manejó como nadie la complicada red de alianzas políticas por más de veinte años, ganándose el apodo de "el Zorro".

About: Why do indigenous haters sometimes feign interest in indigenous people and give them crumbs?

I consider that this is part of the hatred of the indigenous people, for the enemies of the indigenous people it is pleasant to make the indigenous people feel that their lives are in their hands and that they decide whether they die or live. Therefore, paternalism towards indigenous people is a form of hatred in a subtle way.

But, remember that the black and white floor in the Masonic lodges, and the red apron and blue apron, represent the Masonic duality, so, although they hate the indigenous people, their objective is to keep them decimated and reduced, sometimes it may be that pretending to be true interest in the indigenous people and giving them crumbs see it as a way to strike a balance.

It must be remembered that when the Spanish and Portuguese colonizers recruited indigenous ethnic groups to defeat other indigenous ethnic groups in battles through deception, when they recruited these ethnic groups they always showed some interest and offered them crumbs.

Andrew Jackson himself and other presidents of the United States made agreements with the indigenous people where, through deception, the indigenous people agreed to give them a large part of their land in exchange for the crumb of letting them live in small spaces of land and not exterminating them.

So it may be that those who hate the indigenous people take pleasure in offering crumbs to the indigenous people to keep them in their hands and maintain domination over them.

It must also be remembered that the same United States government that exterminated the majority of the indigenous people was the same one that offered casinos to a small percentage of the survivors.

So the relationship of domination and submission that these monsters maintain with the indigenous people includes showing some interest and giving them certain crumbs from time to time.

In many parts of the Bible, the Judeo-Christian god is very clear that he condemns with death and orders to kill those who worship other gods and those who practice magic.

And Jesus Christ and the angels are servants of that god.

Freemasonry is proud to have had as Freemasons presidents and soldiers who promoted hatred of indigenous people, and who caused massacres and exterminations of indigenous people.

And Freemasonry and New Age are the same.

When the Freemasons speak of GADU (Great Architect of the Universe) they refer to the Judeo-Christian god, they believe that Hiram who built the temple of Solomon in the Old Testament really existed and was the first Freemason, which gives credibility to the Bible, and in Masonic altars place a copy of the Torah, the Bible or the Koran.

But, the reason why Freemasonry is the same as the New Age: they mix Judeo-Christian beliefs with Egyptian paganism, Greek paganism and Persian paganism, that's why they use Egyptian symbols like the eye of Ra and the eye of Horus, Greek symbols like the pentagram that has its origin in the school of Pythagoras, Freemasons like Albert Pike who was part of the Ku Klux Klan showed their admiration for the Persians and wrote many books about the god Mithras, and Freemasonry has initiation rituals.

Remember that Mithra is a Persian god of the sun who is presented killing a bull and, therefore, is totally related to bullfighting where a bull is tortured and killed:

Photographs recovered from the Internet

In many Masonic lodges there is also a reference to the Greek god Helios, and they also promote white supremacy and when they mention Egyptians they

refer to when Egypt was invaded, conquered and ruled by white ethnic groups such as the Greeks and the Romans.

Both Freemasonry and its daughter the New Age are total stupidity since they mix the biblical god and Judeo-Christian beliefs with initiation rituals, Egyptian paganism, Greek paganism and Persian paganism, when the nefarious biblical god is very clear in his word (the Bible) that condemns all forms of magic and worship of other gods.

And in current white paganisms or white Neopaganisms, for example, Celts like Wicca and Druidism, or Vikings like Odinism and Asatru, their founders were Freemasons or related to Freemasons.

One thing that this character is inventing because of how Jewish the biblical god is right is that you cannot worship two lords at the same time, is an abomination for the biblical god to be worshiped at the same time as other gods are worshiped and magic is practiced because he condemns all forms of magic and all worship of other gods.

And it is an abomination for other gods that they are worshiped at the same time as the biblical god and his servants (Jesus Christ, saints and angels) are worshiped because the biblical god and his servants are their enemies by condemning the worship of other gods. That's why Freemasons and New Age people are the stupidest people there are.

Matthew chapter 6, verse 24: No one can serve two masters.

Exodus chapter 20, verse 3: You shall have no other gods before me.

Exodus chapter 22, verse 18: You will not let the sorceress live.

That's why: the conservatives, right-wing and neoliberals who invent conspiracy theories are wrong to make believe that the elites and people in power are intelligent and all-powerful, these stupid elites and people in power believe they are intelligent because of Western technology, the triumph of the European and the colonization that defeated the indigenous people.

But, they are the stupidest people who are causing the destruction of the same planet where they live, they are contradictory people, who believe in perfection that does not exist, and who define perfection with Judeo-Christian and Western parameters, and they are stupid who mix a god who condemns magic and condemns worshiping other gods along with his servants (angels, saints and Jesus Christ) with other gods and with magical practices.

And contrary to what those who invent conspiracy theories make us believe: these elites and criminals in power are not all-powerful, it is simply the majority of humanity that is exactly like them who keep them in power, that is why the majority of humanity are not its innocent victims (contrary to what those who invent conspiracy theories say), in reality the majority of humanity are its accomplices.

For Masons to celebrate and feel proud of Domingo Faustino Sarmiento, John Milton Chivington, Andrew Jackson, and other soldiers and presidents, who promoted hate speeches against indigenous people, and caused massacres and

extermination of indigenous people: all Masonic lodges in the world should to be burned and all Freemasons should be sentenced to death.

Furthermore, the Freemasons support the state of Israel, they are the same as Zionism, and they want to make it believe that the Jews (which are a religion and not a race) are innocent victims of the Holocaust, while they celebrate having had as Freemasons presidents and soldiers who hated the indigenous people and caused the extermination of indigenous people.

When in reality the Jews are the same as Hitler, the same as the Nazis and the same as the neo-Nazis, they are simply sides of the same coin, they are the game of the same Masonic duality represented by the black and white chess floor, and for the red apron and the blue apron.

And although these white paganisms of the present or Neopaganisms pretend to be enemies of Christianity just like Satanism, many of their rituals have their origin in Freemasonry or in sects founded by Freemasons such as the Rosicrucians, the OTO (Order of the Eastern Temple) and the Golden Dawn, and even its origin in Jewish mysticism such as Kabbalah.

The reasons why governments and elites in power hate indigenous people:

For governments and elites in power when based on social Darwinism: arrogance, cruelty, harming the weakest, harming the most vulnerable and harming the innocent according to their sexist way of thinking is power, strength and courage, and they also consider that polluting and destroying the environment in exchange for money is development, progress and civilization.

There is verbal language and non-verbal language made up of gestures, looks and facial expressions. Many indigenous people in their non-verbal language reflect simplicity, humility, hospitality and kindness, and in their physical features they reflect more connection with the natural environment and with vital instincts:

Photographs recovered from the Internet

For governments and elites in power, and for the majority of those who are not indigenous: simplicity, humility, hospitality, gentility, more connection with the natural environment and more connection with vital instincts represent inferiority, weakness, vulnerability and submission.

For this reason, the damn movies, series and cartoons have always promoted the idea that the destiny of the indigenous people was extermination and that they were born predestined to that, without anything or anyone being able to prevent it.

The indigenous people take more care of the rivers, the land, the forests and the jungles, while the majority of those who are not indigenous consider the rivers, the land, the forests and the jungles as simple economic resources and objects, and that is why , governments and elites in power consider indigenous

people as an obstacle to development and progress because they prevent nature from being polluted and destroyed in exchange for money and technology.

And furthermore: the majority of humanity has always been taught to direct its death drive and hate instinct towards the most vulnerable, while they are taught to forgive, turn the other cheek, admire and consider as heroic or brave those who harm the weakest, who harms the most vulnerable and who harms the innocent.

Christian teachings such as loving your enemies, forgiving everything, enduring everything and turning the other cheek have always been used to promote hatred of indigenous people in the way that if indigenous people defend themselves or take revenge they are always treated like savages, as criminals and as terrorists by the media such as television, by governments, by the elites and by the majority who are not indigenous.

Also Christian teachings such as that darkness represents evil, that the kingdom of Jesus Christ is not this world and that the color black represents the devil: have been used to promote hatred of indigenous people for their reddish skin that is more similar to the earth, their greater connection with this world (nature or natural environment) and their black hair.

For example, the Mormons or Church of Jesus Christ of Latter-Time Saints, who are totally linked to Freemasonry, affirm that the skin color of the indigenous people and their black hair are due to the fact that they are descendants of Cain, that they have these traits because of a curse on the descendants of Cain, and that, for this reason, they were condemned by the Judeo-Christian god to suffer hatred and extermination for all eternity.

Also, as in the Torah, Tanakh and Bible it is written that the serpent and the dragon represent that devil or satan invented by the Jews, and many indigenous ethnic groups had gods in the shape of a dragon or serpent such as Quetzalcóatl in the Aztecs, Kukulcan in the Mayans, and Amaru in the Quechuas and Aymaras, this has been used to promote hatred of the indigenous people, stating that they are children of the devil and that, for this reason, the Judeo-Christian god guided colonization and gave victory to the colonizers.

To shit with living in horrible cities full of pollution and garbage, polluting the air, without trees and full of noise is what the damn governments, the damn elites, and the damn majority who are totally complicit and guilty of what the indigenous people suffer for their silence, for their indifference and for voting for politicians who harm the indigenous people, calling for civilization, intelligence, progress and development:

Photographs recovered from the Internet

To shit with voting garbage and excrement into the rivers and the sea, that's what the damn governments, the damn elites, and the damn majority who are totally complicit and guilty of what the indigenous people suffer because of their silence, for their indifference and for voting for politicians who harm the indigenous people, they call for civilization, intelligence, progress and development:

Photographs recovered from the Internet

To shit with livestock farming that is dedicated to raising cows, bulls, sheep, goats and pigs for meat, animal milk and its derivatives, causing the destruction of hundreds or thousands of meters of forest and jungle to make pastures, slaughterhouses and enclosures for these animals, causing excessive emissions of methane and excessive emissions of carbon dioxide, causing enormous waste of drinking water, and causing contamination of water with the excrement, blood and waste of these animals: is the one to which the damned governments, the damned elites, and the damned majority that is totally complicit and guilty of what the indigenous people suffer because of their silence, their indifference and for voting for politicians who harm the indigenous people, call for civilization, intelligence, progress and development.

Photographs recovered from the Internet

The temporary framework is a law that harms the indigenous ethnic groups of Brazil, and that was approved by the majority of Brazilian deputies and senators. These deputies and senators were elected by the majority of Brazilians who are not indigenous.

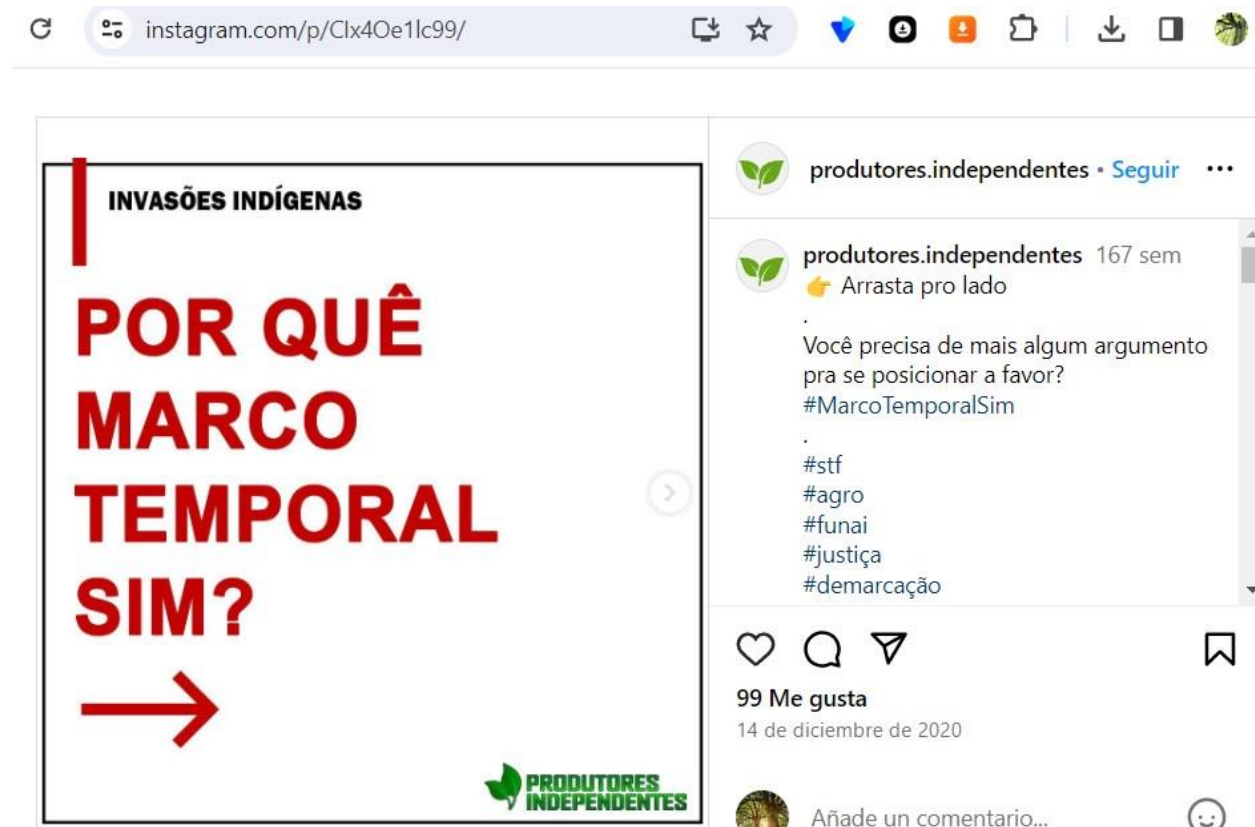

In all countries on the continent: the majority of those who are not indigenous remain silent, apathetic and indifferent to what indigenous people suffer, and, therefore, the majority of those who are not indigenous are totally complicit and guilty of the famine, hatred, discrimination, contempt, humiliation, genocide and extermination that indigenous ethnic groups continue to suffer today.

But, it is in Brazil and Argentina where a generalized and conscious hatred of the majority of the population towards indigenous people is most manifested, therefore, the majority of Brazilians who are not indigenous and the majority of Argentines who are not indigenous deserve more I hate that the majority of those who are not indigenous to other countries on the continent.

The time frame in Brazil is mainly supported by the criminal agribusiness industry.

An Instagram account that supports the time frame is Produtores Independentes, on this account there is a post titled: Why yes to the temporary framework?

This publication states that the indigenous people are the invaders, that the lands were bought by criminals who are dedicated to agribusiness, that they did not steal land from anyone and that they paid money for those lands.

Screenshot retrieved from: <https://www.instagram.com/p/Clx4Oe1lc99/>

One strategy used by agribusiness criminals in Brazil is to make people believe through advertising campaigns that the invaders are the indigenous people and not them.

The indigenous people were in Brazil and in all the countries of the continent before the European colonizers arrived, before the Creoles, before the mestizos, before the blacks, before the mulattoes, before the zambos and before the Asians who are not indigenous.

It is true that the indigenous people did not consider the land as property, but the indigenous people inhabited the lands of this continent before all of us, and the indigenous people will consider the land as part of themselves and therefore they are the true owners of the land, not owners in the sense of seeing the land as property, but owners in the sense that they feel part of the earth.

When the European colonizers (Spanish, Portuguese, English, French, Italian, Irish and Scots) arrived on this continent and when their descendants (Creoles and mestizos) achieved independence: the majority of the indigenous

people were expelled from their territories, they were tortured and They were killed.

Therefore, although these agribusiness criminals say that they bought with their effort, they paid for those lands and that they are not stealing from anyone: in reality, these agribusiness criminals are stealing because they are using land that their ancestors stole from the indigenous people, and where they tortured and murdered many indigenous people to keep those lands.

A Brazilian criminal like the majority of the non-indigenous population of Brazil, named Vanilda Valintin in her Instagram profile writes that she is Christian, right-wing conservative and refers to the indigenous people who recover their territories as invaders:

Screenshot retrieved from: <https://www.instagram.com/vanildavalintin1/>

These types of perverse beings like Vanilda Valintin who should have the death penalty, but who do not have it due to the stupid pacifism of Lula and his entire government team with which they benefit the right and Jair Bolsonaro, abound like plagues in Brazil just like in Argentina.

In a publication by this criminal, he advertises a 30-round machine gun for agribusiness criminals to murder indigenous people, and as always, Instagram, like all social networks, and that video platforms like YouTube allow this type of publications that promote hatred of indigenous people and who promote the murder of indigenous people:

Screenshot retrieved from: [https://www.instagram.com/p/CEQMdamBDZ/-/](https://www.instagram.com/p/CEQMdamBDZ/)

When feminism presents the majority of women as victims and affirms that the fault of machismo lies only with the majority of men: feminism is defending monsters like Vanilda Valintin.

Most women are bad, just as most men are bad. Good women are a minority and good men are a minority.

Furthermore, most women like macho men, and have children with these men, and when I refer to sexist men, I mean men who harm the weakest, the most vulnerable or the most innocent believing that this makes them masculine, virile, strong or powerful.

For this reason, most women are complicit and guilty of the machismo of most men, they are not innocent victims.

It is true that there are some Brazilians who are not indigenous and Argentinians who are not indigenous who, if they defend the indigenous people and care about the lives of the indigenous people, but these Brazilians and Argentinians who defend the indigenous people and who care about their lives are exceptions of 1% or less.

And obviously this 1% or less, they know that in what I write I am not referring to them, because they are exceptions.

Jair Bolsonaro has met with Freemasons many times and openly supports Freemasonry:

Bolsonaro has attended Masonic ceremonies and has participated in these ceremonies:

Although Bolsonaro, like all right-wing and neoliberal or libertarian cowards, denies feeling hatred for indigenous people publicly, like other right-wing and neoliberal or libertarian criminals, his speeches prove that he does feel a visceral hatred for indigenous people.

Jair Bolsonaro said: -the Brazilian cavalry was incompetent. Competent was the United States cavalry that decimated the Indians in the past and now they do not have that problem in their country.

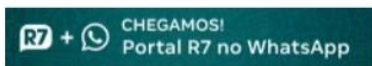

Screenshot retrieved from:
<https://www.youtube.com/watch?v=ThPhblg7o5A&t=11s>

Many justify this audio by stating that later Bolsonaro says that he is not promoting the same thing to be done to the Indians of Brazil. But, in that audio he clearly shows his admiration for the United States cavalry for having exterminated the majority of the indigenous people and considers the indigenous people as a problem.

And although later in the same audio, Bolsonaro says that he does not promote the same thing being done to the Indians of Brazil, clearly by admiring the United States cavalry for exterminating the majority of indigenous people and by referring to the indigenous people as a problem, Jair Bolsonaro demonstrates a visceral hatred of indigenous people.

In session 0352/04, date 04/14/2004, in the Chamber of Deputies of Brazil, Jair Bolsonaro said: - The Indian, without speaking our language, stinks - is the least I can say.

Jair Bolsonaro's son named Carlos Bolsonaro: he published a video on Twitter where some indigenous people from Xingu give their support to Jair Bolsonaro, and he referred to those indigenous people with the word Indiociaa.

The word Indian has always been used in a derogatory, hateful, contemptuous tone that reflects stereotypes. The correct word to use is indigenous or native, not Indian.

And although it is true, unfortunately there are some traitorous indigenous people from Xingu who supported Jair Bolsonaro. The majority of the indigenous people who inhabit the territory of Xingu are against Jair Bolsonaro and express it with phrases painted on their bodies such as was fear, out Bolsonaro and he doesn't.

Regarding the previous photograph, some criminals in Brazil made hateful and ignorant comments such as the following:

For these criminals like Rafael Casaes: the extermination of indigenous people caused by Spanish colonizers, Portuguese colonizers, English colonizers, French colonizers and colonizers of other European nationalities, according to them, was a cleansing.

And when we check the Facebook accounts of these criminals like Rafael Casaes, they look just as unhygienic as the Vikings and Celts were:

As these monsters that hate indigenous people are based on stupid moralisms of Christian, Western and European origin: the theme of nudity practiced by many indigenous ethnic groups in the past and of nudity practiced by some indigenous ethnic groups in the present, they also use to promote hatred of indigenous people.

The nudity practiced by some indigenous ethnic groups in the present is a form of resistance against the stupid moralisms of European, Western and Christian origin. A way to express freedom against domination by those who are not indigenous, and a way to maintain connection with other nature and with vital instincts.

In a forum in Brazil, one of these criminals who hates indigenous people, published the following image with the phrase: - Someone call John Wayne to go and put an end to this little problem in the indigenous village.

Screenshot recovered from the Internet

The Hollywood industry always promoted hatred of indigenous people with cowboy movies like those of John Wayne.

Even movies, series and cartoons that claim to represent indigenous people in a good way are made to promote hatred of indigenous people in subtle ways.

All movies, series and cartoons where indigenous people appear are created to promote hatred of indigenous people and justify the extermination that indigenous people suffered. If someone watches these movies, series and cartoons, they are supporting the extermination of indigenous people that continues today.

CHAPTER X: NEONAZISM AND ZIONISM, TWO SIDES OF THE SAME COIN.

Anti-Semitism does not exist because Jews are not a race, I hear someone say anti-Semitic and I hear it the same as someone who says Islamophobe.

It seems absurd to me that famous people, people in power, from the right and also from the left of the politically correct, as moralistic as Christians, talk about Jews and Islam as if they were races, I don't know whether to laugh or cry at this, because the majority swallows This is stupidity.

During the government of former right-wing president Jair Bolsonaro in Brazil, this president promoted prejudice, hatred and genocide of indigenous ethnic groups.

During a conference before Zionist Jews, President Jair Bolsonaro said that there will not be a centimeter of land demarcated for indigenous people:

Capture recovered from video on YouTube

Both Jewish Zionism and Nazism and neo-Nazism are two different sides of the same coin.

Jair Bolsonaro met with the Right-wing deputy in Germany named Beatrix von Storch who is the granddaughter of a former Nazi finance minister during Hitler's Nazi regime.

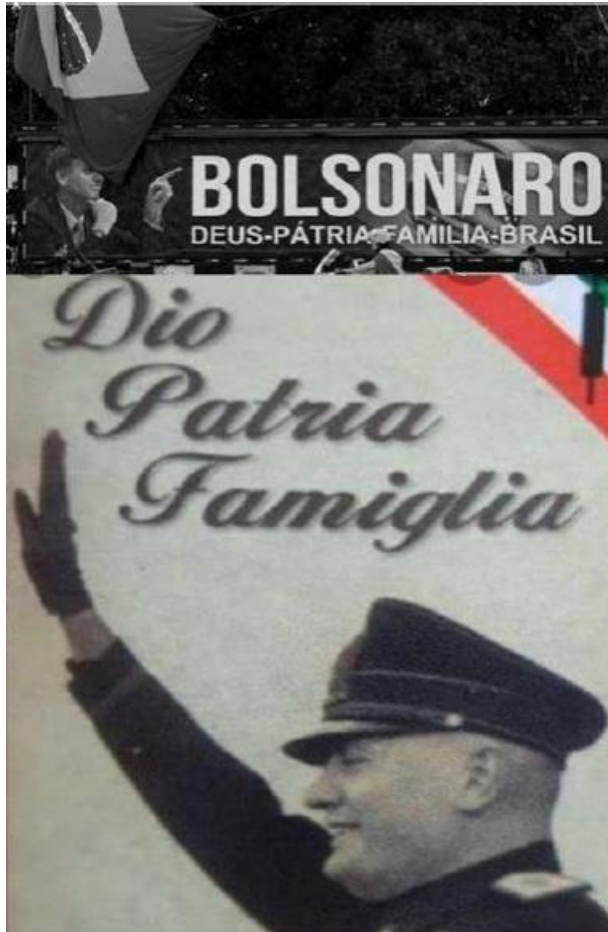

Bolsonaro also appeared in photographs together with a council candidate from his former party who dressed like Hitler.

The Nazis, like Bolsonaro, the political Right, liberals, neoliberals and neo-Nazis also believed in stupid conspiracy theories that made people believe that white people were victims of a conspiracy to reduce their population.

Photographs recovered from the Internet

The phrase of God, Country and Family used by Jair Bolsonaro in his campaign is a phrase created by the fascist dictator named Benito Mussolini and that other fascist dictators have also used in their campaigns.

Bolsonaro also met with the Zionist named Netanyahu and attended the Wailing Wall in Israel with this Zionist.

Photographs recovered from the Internet

Jair Bolsonaro's sons named Carlos Bolsonaro and Eduardo Bolsonaro, who reflect evil in their faces and in their genetics, have also been photographed wearing t-shirts in favor of the Israeli army and Mossad, which is Israel's intelligence services agency.

Photographs recovered from the Internet

All of this is evidence of how Jewish Zionism, neo-Nazism and fascism are different sides of the same coin, although these stupid ideologies in front of the people pretend to be enemies.

It is the same as how Freemasonry, Satanism, paganisms and neo-paganisms based on white ethnicities, the New Age (New Age) and Christian religions in front of people pretend to be enemies, but all the harmful beliefs are all different sides of the same currency

In Brazil, the Bolsonaro deputy named João Henrique Catan recommended and promoted Hitler's book titled *My Struggle* in the Legislative Assembly in Mato Grosso do Sul.

Neo-Nazism is totally related to Viking paganism, in fact, the Nazis used Viking runes as part of their symbology.

VOX is also related to Jewish Zionism because it supports the State of Israel just like Jair Bolsonaro and his children.

Photographs recovered from the Internet

This is further proof of how neo-Nazism and Zionism are sides of the same coin, and they are not enemies, that they are enemies is just a lie of the system.

Another proof of the relationship of the right-wing political party called VOX in Spain with neo-Nazism is that in the years from 1933 to 1945, the NAZI propaganda service in Germany published a magazine in several languages under the name VOX.

It is from Europe and the United States that New Age, Christian religions, neo-Nazis, Satanism, Social Darwinism, atheism and white paganism have spread to the rest of the world. And this is no coincidence, this is part of a global geopolitical agenda.

Same with Zionism: the state of Israel was founded on May 14, 1948 with the help of the United States and the European Union. The president of the United States and a freemason named Harry S Truman participated, giving his recognition to the creation of the state of Israel, and the British minister Arthur Balfour with the Balfour Declaration.

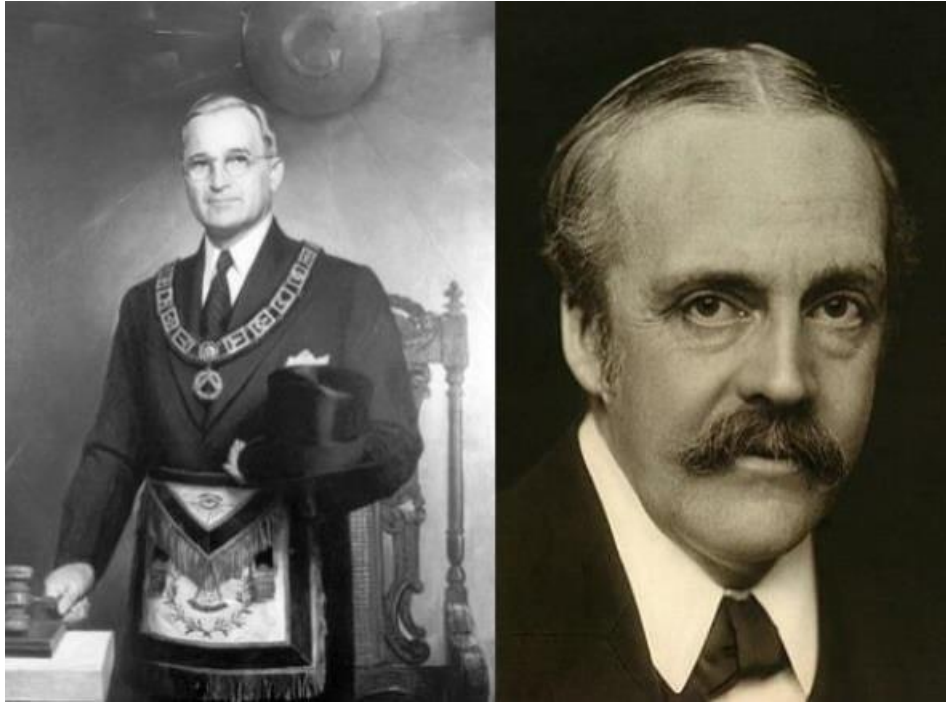

Image and photograph recovered from the Internet

The American Zionist and Jewish rabbi named Abba Hillel Silver also influenced the United States government to support the creation of the state of Israel.

Others who influenced the creation of the state of Israel were Clark Clifford who was Truman's special advisor on matters related to Israel and Clement Attlee who was Prime Minister of the United Kingdom after Winston Churchill.

Neo-Nazism and Jewish Zionism are part of the same social Darwinism, they are part of the same plan, they are two sides of the same coin, and for someone to say or write that Jews are a race is just as stupid as someone saying or writing that Neo-Nazis are a race.

Crimes committed against the Palestinian civilian population in Gaza by the criminal and Zionist state of Israel that has the support of the criminal government of the United States and the criminals that make up the European Union:

Unforgivable crimes that the Israeli army is committing against the civilian population of Palestinians who have no relationship with Hamas:

Both neo-Nazis and Jewish Zionists, along with all the governments and elites that support them, should have the death penalty, but a slow death penalty so that these damned people suffer enough.

Who feels compassion for a Jew is the same as someone who feels compassion for a neo-Nazi and who feels compassion for a neo-Nazi is the same as someone who feels compassion for a Jew.

They make the Jews look like victims and as if they were a race when they are not, in fact, they are to blame for the world being the way it is.

The Jews invented the Old Testament (Torah and Tanakh) which served as the basis for the creation of the New Testament that gave rise to Christianity and as the basis for the creation of the Koran that gave rise to Islam.

I am very honest, I don't care about Jews in the slightest, and how curious that both the right and libertarians and the left in the service of Freemasonry are in agreement in defending the Jews.

When I attacked Hitler, the Nazis and the neo-Nazis it was because of their white supremacy, because of their promotion of social Darwinism, because of their promotion of what is European and what is Western, not because I care about Jews in the least.

In one part of the Bible, the Judeo-Christian god invented by the Jews says that if a woman is raped she must be forced to marry her rape, and there are parts of the Bible where that god contradicts himself.

Deuteronomy chapter 22, verses 28 and 29: if a man finds a virgin girl without a commitment to marriage, and forces her to sleep with him, and they are discovered, then the man will have to give the girl's father fifty silver coins ; and, since he has dishonored her, he will have to take her as his wife, and he will not be able to divorce her as long as he lives.

I ask those who believe in that perverse god, if you have a daughter and you rape that daughter:

Would you comply with those teachings of your perverse god from the Bible to sell your daughter to the rapist for 50 silver coins, and force your daughter to marry the rapist?

The Judeo-Christian god invented by the Jews, in many parts of his word (the Bible) contradicts himself:

In Deuteronomy chapter 24, verse 16: Parents cannot be put to death for what their children have done, nor children for what their parents have done, but each one will die for his own sin.

But, in Isaiah chapter 14, verse 21: prepare to kill the children for the crimes their parents committed.

In Leviticus chapter 1, verse 3: If the animal you offer as a burnt offering is your livestock, it must be a perfect bull.

But, in Isaiah chapter 1, verse 11: I have had enough of your burnt offerings of rams and the fat of calves; The blood of bulls, rams and goats disgusts me.

How can a god who contradicts himself in his word (the Bible) be real and perfect?

During the dictatorship of Efraín Ríos Montt in Guatemala (1982-1983), 250 000 people were murdered and 45 000 disappeared, the majority of the victims were indigenous people of the Mayan-Ixil ethnic group, the military was trained by the United States Army.

More than 600 Mayan towns suffered attacks by the military, they surrounded the towns, separated families, mutilated indigenous people and tortured them in an extreme manner, committed sexual violence and massacres of indigenous people.

The military burned houses and crops, and chased the escaping indigenous people with helicopters, killed animals, poisoned wells, and destroyed temples and places sacred to the Mayans.

25 000 of the murdered people were children of the Mayan ethnic group. But, there is something else, this genocide had the support of the United States, but also of Israel.

The damned man of Israel was the one who provided weapons to the Guatemalan army so that they could murder indigenous people.

Victims of the damned genocide named Efraín Ríos Montt.

Efraín Ríos Montt died without having paid for his crimes, and this is the same thing that happens throughout the continent, the majority of damned presidents, damned policemen and damned soldiers who cause massacres of indigenous people, die and their crimes go unpunished.

Therefore, pacifism with those who harm the indigenous people, with the damned system that keeps crimes committed against indigenous people in impunity, and with the damned majority of humanity who are complicit in these crimes through their silence, apathy and indifference, it does not work.

And so these Jews play the victim. And some say that Judaism and Zionism are not the same, when clearly the Judeo-Christian god supports genocide in his word when he orders the killing of children and pregnant women.

CHAPTER XI: BLACKS WHO ARE LIKE THE MAJORITY AND MESTIZOS WHO ARE LIKE THE MAJORITY IN THE SERVICE OF WHITES WHO ARE LIKE THE MAJORITY.

We must not forget that black and mulatto colonizers such as Juan Garrido, Sebastián Toral, Juan Beltrán de Magaña and others were part of the hatred, subjugation, domination, replacement and extermination of indigenous people.

And that their fights against the indigenous people (Indians as they called them) were also considered heroic and defeating the indigenous people was considered a victory to be celebrated.

We must not forget that, in the Putumayo genocide in Peru, two black landowners named Stanley and Lewis committed the same atrocities against the indigenous people.

Do not forget that in Brazil during the government of Jair Bolsonaro: black Christians like the following made hateful and mocking comments towards the indigenous people, and where they treated the indigenous people as criminals for defending themselves and taking revenge.

Never forget: that there are many brown-skinned mestizos with all the indigenous features who consider themselves Hispanic, that in Costa Rica the dark-skinned mestizo with all the indigenous features named Luis Eduardo Varela Rojas murdered an indigenous man named Jerhy Rivera, who confessed to the murder in a meeting in Puntarenas and the attendees applauded him.

That, in 1963 in Brazil, two brown-skinned mestizos with indigenous features appear in a photo where they murder and cut in half an indigenous woman from the Cintas Largas ethnic group, after shooting her baby, and that, in Honduras, a brown-skinned mestizo with indigenous features named Juan Ramón Hernández was arrested for murdering an indigenous man.

That in Colombia: the police and military rape, murder and expel indigenous people from their territories as happens with the Emberá indigenous people, but, that television and the damn majority who are not indigenous when it is the indigenous people who defend themselves and take revenge of the police and the military treat the indigenous people as savages, criminals and terrorists.

Do not forget: that the Emberá in Colombia, when expelled from their territories by police and military who follow the orders of politicians, many Emberá live in destitution, suffering from hunger and need, and the video where blacks and a dark-skinned mestizo tie up Emberá indigenous people to a post, they are tortured and whipped for stealing to eat.

Never forget: that in the United States there were black cowboys like Nat Love and Britton Johnson who hated the indigenous people and participated in the fight against the natives.

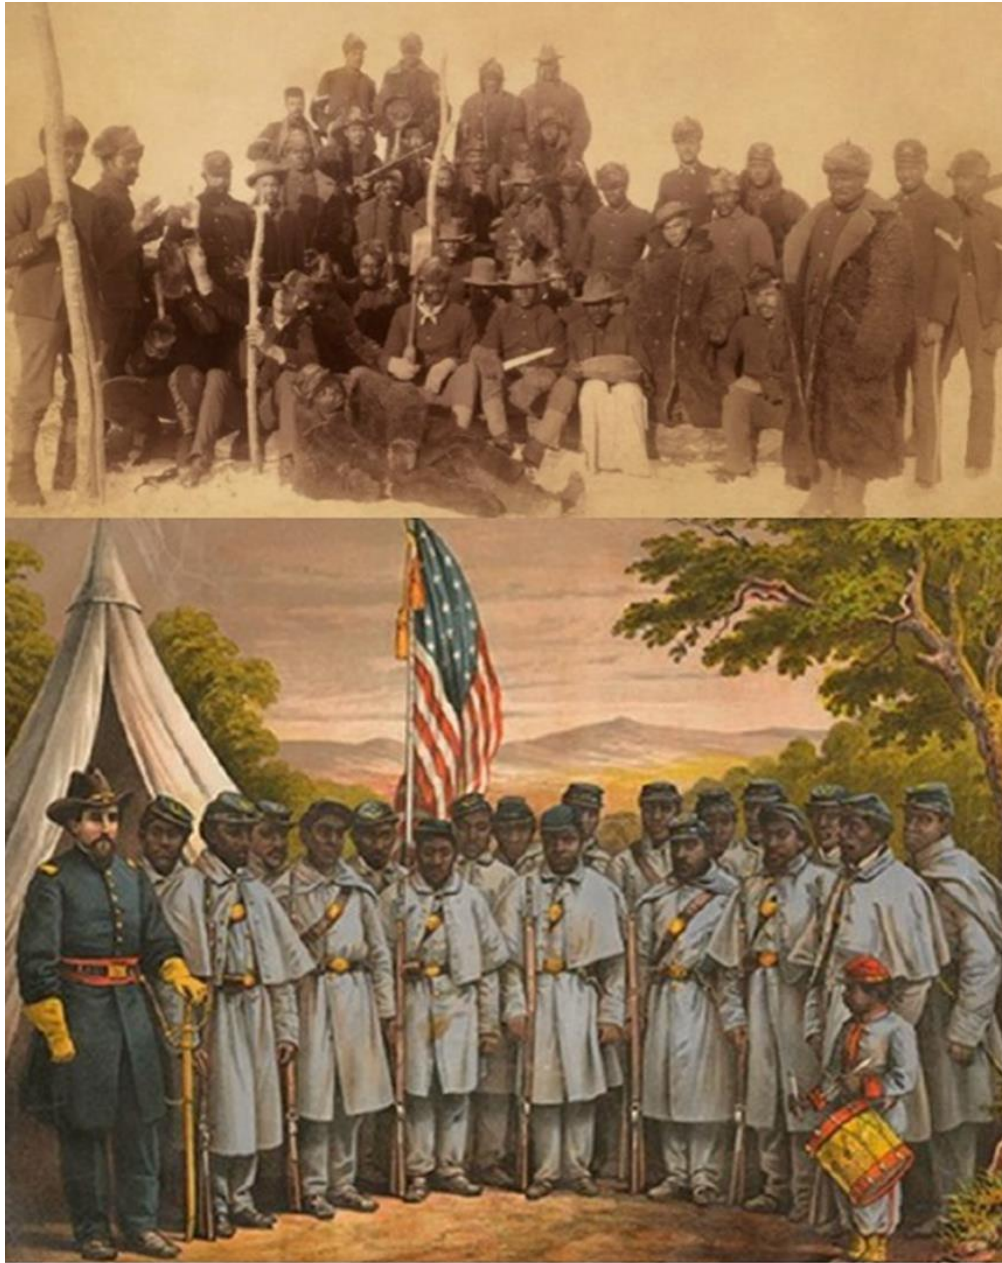

Photographs recovered from the Internet

And that the entertainment industry in the United States (movies and series) insists on presenting black people as innocent victims of white people, while celebrating the cowboys who murdered indigenous people and destroyed the environment with cows and bulls.

Never forget: that, in the United States, there were buffalo soldiers made up of blacks who helped in wars against the natives, who helped the United States government to overcome indigenous resistance, and who were awarded

metals of honor for helping subdue and dominate the indigenous people. In fact, the natives (indigenous people) were very afraid of the buffalo soldiers because of their ferocity.

Never forget: that many mulattos and many blacks support the Right and the Neoliberals, they support Donald Trump and Jair Bolsonaro, and that, although it may seem incredible, there are black neo-Nazis. And I have never said that all blacks and mulattos are like this, but I have said that the majority are

like that, just like the majority of Creoles, the majority of mestizos and the majority of Europeans.

Photographs recovered from the Internet

And there are many blacks who are Masons:

Photographs recovered from the Internet

For this reason, many indigenous people are deceived and are mistaken when they think that the majority of blacks, the majority of mulattoes and the majority of mestizos are their allies.

And we must not forget that there were mestizo colonizers such as: Francisco Fajardo, Miguel Caldera and Alonso Ruiz Vallejo.

Images recovered from the Internet

Francisco Fajardo was an ally of the Spanish colonizer Juan Rodríguez Suárez. Juan Rodríguez Suárez dedicated himself to hounding, murdering and dismembering indigenous people who refused to convert to Catholic Christianity, who refused to pay tribute to the royalty of Spain and who refused to submit to Spanish domination.

José María González Ochoa, in the biography of the Royal Academy of History (RAH): - While he continued with his explorations, the greed of the settlers irritated the natives, who led by the chief Paisana attacked the town and poisoned its waters. Among the victims was his mother. When Fajardo learned of her death, he returned and took revenge; He razed the indigenous villages, hanged Paisana and decided to leave the area.

The mestizo colonizer Francisco Fajardo was a great friend of the Spanish colonizer Juan Rodríguez Suárez. Juan Rodríguez Suárez upon leaving Pamplona with his army said: - With blood and fire we will win!

Upon reaching Capacho or Loma de Los Vientos, he murdered 250 indigenous people and in El Valle de Santiago, he murdered 300 indigenous people.

Miguel Caldera was another mestizo colonizer who helped the Spanish colonizers in the pacification of the Guachichile indigenous people in Tunal Grande. Understand pacification as defeating the indigenous people, subduing them, dominating them and leaving them vulnerable to their enemies by not defending themselves.

In his youth, Miguel Caldera participated in the war against the Chichimeca indigenous people. Alonso Ruiz Vallejo was part of the pacification (domination) of the indigenous people, in a battle against the indigenous people, he cut off the

arm of an indigenous person, and he also participated in the battle of Macarapana against the Carib indigenous people.

It is the same with blacks who are not indigenous and with Asians who are not indigenous, in the same way they harm indigenous people from this continent, from Africa and Asia because these black people who are not indigenous and Asians who are not indigenous have the same line evolutionary path that leads them to be consumerist, selfish and individualistic like white people.

Black people who are indigenous, such as the Bushmen, Pygmies and others, are nothing like black people who are not indigenous.

And the Asians who, if they are indigenous, such as the Jumma, the Tsaatan, the Khasi, the Moken, the Penan, the Dongria Kondh and others, are nothing like the Asians who are not indigenous.

European immigrants, Creoles and mestizos who harm indigenous people directly by invading indigenous territories, by making hate speeches against indigenous people, and by raping, torturing, attacking or murdering indigenous people, should be sentenced to the death penalty.

European immigrants, Creoles and mestizos who harm the indigenous people indirectly with their silence, apathy and indifference to what the indigenous people suffer, should be expelled forever from the continent and sent to Europe.

Only the 1% or less of European immigrants, Creoles and mestizos who do care about the lives of indigenous people and who defend indigenous people should stay on the continent.

Many Europeans, in their stupidity, believe that Creoles and mestizos are the same as indigenous people.

When in reality, Creoles and mestizos are white mestizos or brown mestizos with indigenous features, they are exactly the same as Europeans because their way of being, their way of thinking, their tastes and their vision of the world are the same as those of Europeans.

The blacks, the mulattoes and the zambos who harm the indigenous people directly by invading indigenous territories, by making hate speeches against the indigenous people, and when they rape, torture, attack or murder indigenous people, they should be sentenced to the death penalty.

The blacks, the mulattoes and the zambos who harm the indigenous people indirectly with their silence, apathy and indifference to what the indigenous people suffer, should be expelled forever from the continent and sent to Africa.

Only the 1% or less of blacks, mulattoes and zambos who do care about the lives of indigenous people and who defend indigenous people should stay on the continent.

Asian immigrants like the Fujimori who harm indigenous people directly by invading indigenous territories, by making hate speeches against indigenous

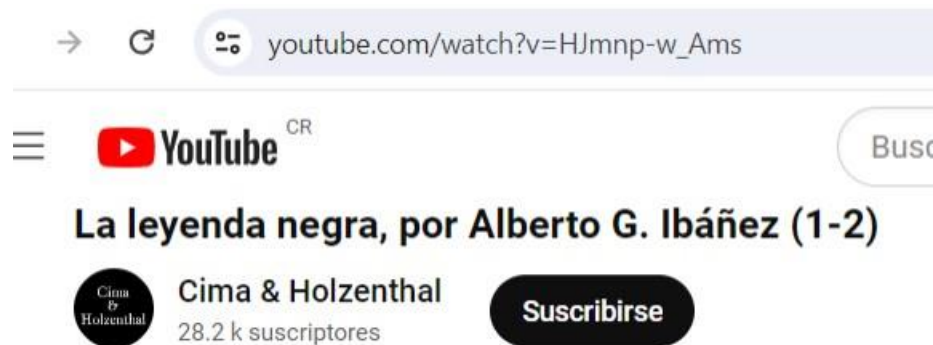

people, and by raping, torturing, attacking or murdering indigenous people, should be sentenced to the death penalty.

Asian immigrants who harm indigenous people indirectly with their silence, apathy and indifference to what indigenous people suffer should be expelled from the continent forever and sent to Asia.

Only the 1% of Asian immigrants who care about the lives of indigenous people and who defend indigenous people should stay on the continent.

It is true that the ancestors of the indigenous people of this continent came from Asia such as Siberia and other places, but what I am referring to is the Asians who have arrived on the continent after colonization.

This about the ancestors of the indigenous people coming from Asia, also, those who hate them have used it to promote hatred of the indigenous people, but, all white ethnicities such as the Celts, Greeks, Romans, Vikings and Slavs are of Indo-European origin or Eurasian and are related to the Aryans of Persia who invaded and colonized India.

Video from the Cima & Holzenthall channel titled: The Black Legend, by Alberto G. Ibáñez (1-2). Screenshot retrieved from:
https://www.youtube.com/watch?v=HJmnp-w_Ams

Alberto G. Ibáñez says: -there was no genocide, there was miscegenation. For this reason, Hispanicists are shit, since miscegenation is one of the many forms of extermination of indigenous people, but these trashes feel proud talking about miscegenation.

The channel that published Alberto Ibáñez's videos also published an interview with Gloria Alvarez:

And a video of Marcelo Gullo, who is the criminal who defends Spanish colonization and the same idiot who compares criticism of miscegenation with Nazism:

These garbage always give thousands of thoughts to the same thing to justify the unjustifiable. The worst thing is that an idiotic majority agrees with these criminals.

These defenders of Spanish colonization (hispanists) say that the atrocities committed by the Spanish colonizers against the indigenous people are an invention of England, but it has never been denied that the English and Portuguese committed genocide of indigenous people, but these hispanists do want to deny that the Spaniards committed genocide of indigenous people.

These Hispanists are fools, so the Spanish colonizers were not the worst. The thing is that none of them were worse or better: they were all the same murderers regardless of whether they were Spanish, English, French or Portuguese, they all sought the extermination of indigenous people.

The Spanish empire invested wealth in this continent just like the English, Portuguese and French empires, but obviously everything was for the benefit of the Creoles and the mestizos, not the indigenous people.

When these Hispanicists say that the indigenous people who converted to Catholicism were treated as children of God, this is a defense of the biblical god and when they say that they were treated as citizens of the kingdom of Spain, it is a defense of royalty.

If the indigenous people did not submit to Catholicism and the royalty of Europe, they were enslaved, led to war and massacred. The Celts suffered invasion from the Romans: but both were white cultures, both hunted for pleasure, they were selfish and individualistic cultures.

Alberto Ibáñez mentions black people who have nothing to do with indigenous people and who also participated in the colonization of this continent, and are currently 20% of the world's population, while indigenous people are only 5%.

The issue of slavery that black people suffered only coincides with the part of the indigenous people in which the perpetrators were the European colonizers, but outside of that, there is nothing in common and more so that at present the slavery of black people is not legal.

Which black legend did I ask myself?

If the Spanish colonizers accepted everything they did in their letters and books. And Bartolomé de las Casas was never refuted to deny what happened in those times.

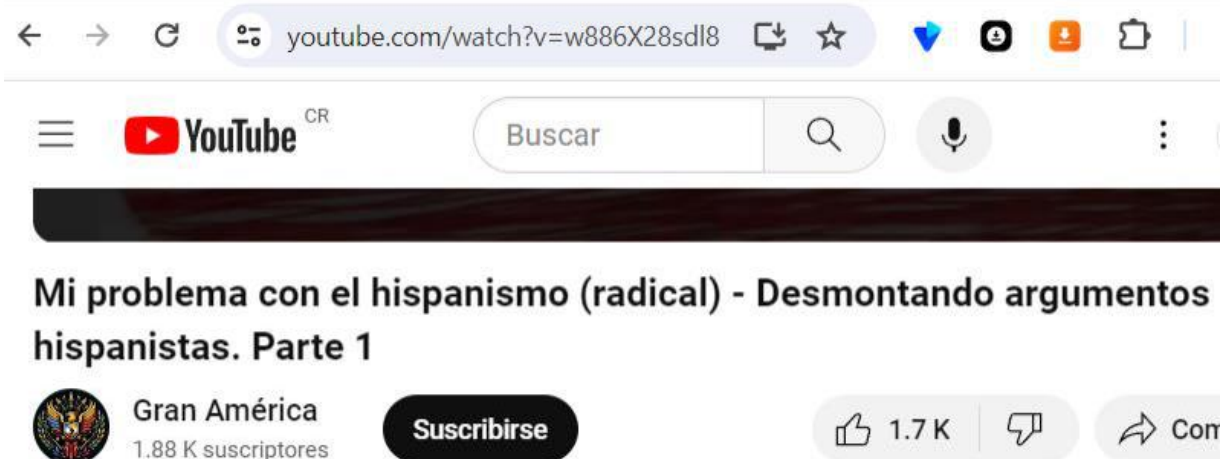

It was the opposite, what they did was refute Bartolomé de las Casas, but not to deny what happened, they refuted it to justify what they did to the indigenous people like the other priest who wrote: Treatise on just wars against the Indians

It is very foolish when these Hispanists believe that attacking Spanish colonization is defending English colonization or Portuguese colonization, when those of us who attack colonization attack the colonizers without distinction of nationality.

But, the majority of indigenous people on this continent did not accept hunting for pleasure, but rather to survive, on the other hand the Celtic tribes did

accept hunting for pleasure and in fact the custom that those who hunt for pleasure have of collecting heads of Trophy animals come from a Celtic tribe.

It is foolish to focus only on the issue of black slavery in the past that no longer affects them in the present.

Video from the YouTube channel called Gran América called: My problem with (radical) Hispanism - Dismantling Hispanist arguments. Part 1. Screenshot retrieved from: <https://www.youtube.com/watch?v=w886X28sdl8>

In the video on the YouTube channel called Great America, he mentions Abraham Lincoln. Information about Abraham Lincoln from different sources:

As part of the policy of extermination of indigenous ethnic groups by the United States government, in January 1864, President Lincoln ordered the execution of a massive transfer of the Navajo ethnic group to Bosque Redondo in New Mexico.

This displacement, known as the Long Walk, meant that the Navajos were forced to travel more than five hundred kilometers in extreme conditions, without adequate access to food or water. As a result of these harsh conditions, thousands of Navajos lost their lives before reaching their final destination.

Tilsen claimed that Abraham Lincoln was a murderer of indigenous people (natives), specifically recalling the episode known as the largest mass execution in United States history in 1862, where 38 natives (indigenous people) were hanged in Minnesota by order of the president.

Proof that Hispanics do hate indigenous people is that, like the majority, they only care about black people, not indigenous people. Lincoln, on the one hand, benefited the blacks, but he hated the indigenous people and promoted their extermination just like previous presidents of the United States.

For this reason, it seems disastrous to me that someone mentions a genocidal murderer like Lincoln only because of a law that favored blacks, but on the other hand sought the extermination of indigenous people.

And the YouTube channel called Gran América in the end does the same: - saying that there was a black legend because they exaggerated things, and placing Latinos or Hispanics above indigenous people.

Of course he recognizes that atrocities were committed against the indigenous people, but in a subtle way he ends up agreeing with the Hispanicists.

It is true that the majority of natives (indigenous people) died from viruses brought by Europeans, whether they were Spanish, English or Portuguese, and the colonizers interpreted that as their god giving them victory.

But, that does not mean that many also died because they were enslaved, tortured and murdered. The reason for the video is not about defending the indigenous people, it is more about defending independence.

When it says that after independence, Argentina and Venezuela increased their economic wealth, it is true, but only for the benefit of criollos and mestizos, because the genocide of indigenous people did increase, the Spanish colonizers did massacre indigenous people, but it is true that the massacres increased with independence.

But, it was not only with the independence of Spain: when the United States and Canada became independent from England and France, the extermination of indigenous people increased, and when Brazil became independent from Portugal, the massacres of indigenous people also increased.

However: it must be made very clear that when Spanish-speaking countries became independent from Spain, Brazil from Portugal, and the United States and Canada from England and France, this mentality of visceral hatred, contempt and rejection for indigenous people that existed in the independence of these countries is something that they inherited from the European colonizers before independence.

If it is true that the indigenous people positioned themselves against independence, but not because they believed that Spain, Brazil, England and France were good for them, it was not about that, they did it because they knew that having an enemy far away was better than having the enemy nearby ruling them.

The indigenous people knew that whether independence occurred or not, they were already subjugated, dominated and oppressed, but that if independence did not occur, the enemy that governed them would be in Spain, Portugal, England and France, and would be far away.

On the other hand, if independence occurred they would be governed by their enemies on this continent. In any case, they already knew that they were governed by those who hate and prey on them, but that one case was much worse than the other.

In other words: neither the arrival of the European colonizers, nor the independence of the countries of this continent, were a good thing for the indigenous people, both were based on oppression and hatred of the indigenous people to benefit criollos, mestizos and to other races that are not indigenous.

Both (European colonization and independence) were based on crushing the indigenous people to favor those who are not indigenous.

The video mentions Uruguay, which achieved great progress in economic terms, but it does not mention why: they exterminated all the indigenous people to benefit those who are not indigenous, that this idea is a danger in Brazil where there are currently damned Brazilians with the idea of exterminating or decimating the majority of the indigenous people as the United States did.

I saw a video of an indigenous person from the United States where he talked about all the massacres and exterminations they suffered in the United States, and some famous white people laughed.

And in all the countries of the continent: the majority that is not indigenous is guilty and complicit in all the massacres and exterminations that indigenous ethnic groups have suffered for remaining silent, for being indifferent and for voting for presidents, deputies and senators who do harm to indigenous people, and promote genocide.

Screenshots retrieved from:

<https://www.instagram.com/reel/C2xQumoLm4B/?igsh=YzljYTk1ODg3Zg%3D%3D>

Now imagine that the same thing that those white people did, laughing when a native (indigenous) was talking about the massacres of indigenous people in the United States: they will start to laugh when someone talks about massacres, torture and rapes that people who are not indigenous have suffered, this would not be accepted and would have legal consequences.

For this reason, the majority of humanity no longer has a remedy, the only remedy is for someone or something to do the same thing that they did to the indigenous people to the majority that is not indigenous, starting with those in power.

The question is:

What or who will do it?

There is very little time, it can be said that time is running out and it is already too late. I am white, but I recognize that most white people are already evil from birth, they already carry evil in their genes.

Sometimes one by mistake or mistake says or writes America or Native American, but one does not do it with bad intentions, it is because they are words that are very messed up because they have always been repeated.

The essence of capitalism is Christianity because capitalism promotes white supremacy, the extermination of indigenous people and the Colonialist concept that gives the words civilization and progress.

And when the European colonizers arrived, whether Spanish, Portuguese, English, French and other European nationalities, they brought individualism, selfishness and consumerism to the continent, that is, capitalism, and all the hatred they had for the indigenous people and massacres of indigenous people

were carried out in the name of the Christian religions, the Spanish and Portuguese in the name of the Catholic religion, and the English in the name of the Protestant or evangelical religion.

It is true that the indigenous ethnic groups had their hierarchies because hierarchies are part of nature as in ants and bees, and it is true that they had currencies such as seeds, shells or feathers that they used as currency, but they were not selfish because they shared everything in Their villages were not individualistic because they looked after the well-being of the entire ethnic group and they were not consumerist because they took from nature only what was necessary and no more than necessary.

Bartolomé de Casas criticized the European colonizers with the mentality of the present. It is obvious that the colonizers did have evil in their actions. The thing is that these Hispanist imbeciles believe they are colonizers, which is why they are offended that Spanish colonization is condemned.

And many of them are stupid, because they do not know the difference between mestizo and indigenous, and many of them also think that everyone who is born on this continent is indigenous.

They believe they are superior and because of these Europeans, Christianity, hunting for pleasure, individualism, social Darwinism, classism, destruction and pollution of the environment, bullfighting, hatred of indigenous people and cockfights spread throughout the world, we must never forget that they were the ones who spread all this throughout the world, the world would have been quite different if Europeans had never colonized other continents.

Let us remember that before Christianity: these white ethnic groups were already selfish, individualistic by genetics, they were always the most warlike, they already hunted for pleasure, they already had sacrifices of bulls that can be related to bullfighting, it is true that Christianity made everything worse, but since before Christianity they were like that.

It is unfortunate that someone does not question Hispanicists:

Where did criollos and mestizos inherit this thought of hatred and contempt for indigenous people since independence?

And they will surely answer that it was not from the Europeans, but they are idiots because the European colonizers did accept in letters and even in books that they committed massacres of indigenous people.

There is not a single letter or book written by colonizers, where they deny that they waged war on the indigenous people when they did not convert to Christianity and did not submit to the damn shitty Christian royalty of Europe.

There is not a single letter or book written by colonizers where they deny that they committed extermination and massacres of indigenous people.

It's like when conservatives who invent conspiracy theories mention the Bible, the antichrist, the mark of the beast, reptilians, the devil and demons, I don't understand how the majority is so stupid not to see the connection of these conspiracy theories invented by conservatives, neoliberals and right-wingers with

the defense of Christianity, is that it is too obvious because they attack everything that is different from the Bible and relate it to a new world order, antichrist, illuminatis or reptilians.

They are the same as the inquisitors of the past, the inquisitors in the past to justify torturing and murdering by burning someone alive accused them of the worst things, of cannibalism, orgies, sacrifices, bestiality and pacts with the devil, and these inquisitors do the same moderns to accuse of the worst things those who do not believe their stupidity or those who do not follow the guidelines of the Bible.

By the way, when in the inquisition they tortured and burned someone alive, it was entertainment for the Europeans just like hunting for pleasure and bullfighting entertains them. The children of the Europeans were going to throw stones at the victims.

And although these cowards say that it is another black legend, the truth is that in the minutes of the inquisition all this is accepted, and the inquisitors wrote books like *El Martillo De Las Brujas* where they never denied the atrocities committed.

And there are also the papal bulls where the inquisition is ordered, but the most repugnant of all is that these murderers have streets, universities and even places with their names where they are given honor for the crimes committed.

That's why most of these Europeans (with very few exceptions) are already cruel and sadistic races that carry that in their genetics. On the other hand, it is true that it is the governments of these same countries that continue to promote the extermination, genocide and oppression of indigenous people.

But, this does not take away the blame from the European colonizers, in the same way that it does not take away the blame from the Creoles, mestizos, blacks and mulattoes on this continent, in the end they are both to blame.

One thing that is said is that many indigenous people allied themselves with the colonizers and speak only of the Spanish, they do not mention the Portuguese and the English.

The reality is that both Spanish colonizers, Portuguese colonizers and English colonizers had indigenous allies who helped them colonize the continent, but this has an explanation:

To begin with, as indigenous people are human races, in all human races there are traitors, therefore, indigenous traitors have always existed from the beginning of colonization to the present.

But, contrary to what those who defend colonization say that these indigenous traitors were many, in reality, they were few, they were a small percentage, although they did a lot of damage to the majority of the indigenous people in the past and they do a lot of damage to the majority of indigenous people at present.

And, secondly: one way that European colonizers used to obtain indigenous allies was deception, the colonizers promised some indigenous ethnic

groups that they would give them better treatment and would not exterminate them in exchange for helping them defeat other indigenous ethnic groups. Logically, the European colonizers never kept their promises to those ethnic groups.

But, it is a lie that this only happened with the Spanish colonizers, in reality it also happened with the Portuguese colonizers, with the English colonizers and with colonizers of other European nationalities.

Something I have noticed when I share with indigenous people:

They are very quiet. While most non-indigenous people are very loud, they do not value a moment of silence.

Also, because many feminists have such polarized thinking, it is because feminism emerged in Europe as a movement. European thought is very polarized, it tends to go from one extreme to the other. European thought does not know how to take stock, it is very extremist in its vision of the world and life.

Something that I have always seen in those who hate indigenous people is that they always generalize and put them in the same bag:

They say something bad that indigenous people do or refer to some cruel practice, but they never specify which ethnic group they are referring to, they speak and write as if all indigenous ethnic groups had the same practices.

And, also, they talk about indigenous people as if they were not human races, when they imply that in an ethnic group: all the indigenous people of that ethnic group act like a hive mind where everyone does the same thing and thinks the same thing, something absurd.

It is logical that indigenous people are not perfect, that there are questionable practices in some ethnic groups, but not all ethnic groups have these practices and not all indigenous people of the same ethnic group are the same.

Mainly, the criminal majority who are not indigenous, do not understand that the consumption of red meat, the consumption of animal milk and dairy derivatives is what most contaminates and destroys the planet. The problem is that if the planet is destroyed we will all die equally, even those of us who are different from the majority and that is not fair.

In religions with African roots such as Santeria, Umbanda, Voodoo and others, much importance is given to the sacrifice of animals and they have the sacrifice of animals as a dogma.

And on the continent, many who say they are left-wing, such as Fidel Castro, Nicolas Maduro and Hugo Chávez, gave a lot of importance to these religions and practice Santeria.

The indigenous people were the first on the continent, but there are countries on the continent where only black people rule, such as the Dominican Republic and Haiti, when all those black people were brought from Africa. But, there are no countries on the continent that are governed exclusively by indigenous people.

And Evo Morales did not practice a pure indigenous spirituality, because he mixed Pachamama with Catholic beliefs, Evo Morales did the same as the New Age, in addition to promoting pacifism, saying that revenge and resentment are bad. What he was telling the indigenous people was to submit to those who harm them, that is why Evo Morales was a traitor at the service of colonialism.

That is why, unfortunately, many indigenous people are of Christian religions and others, like in Mexico, are New Age, and it is because indigenous spirituality is not given any importance on the continent, while the spiritualities of black people such as Umbanda, Santeria and others if they are given much importance.

And the fact is that black people who are not indigenous, the majority by their nature are in their way of being, thinking and vision of the world equal to white people, that is why the majority of black people are also a danger for indigenous people. In Colombia, many indigenous people have realized this, but in the rest of the countries on the continent there are many indigenous people who mistakenly believe that black people are their allies, as happens in Brazil.

Multiethnic democratic colonial state: this harms indigenous people, it says that non-indigenous people who are like the majority and indigenous people can live together, which is not true due to the differences in way of being, thinking and vision of the world, in addition Democracy is based on the will of the majority and not on the will of the minority.

Unfortunately, many times the worst enemy of an indigenous person is a mestizo who has their traits.

I have met many mestizos with those indigenous traits included from my country and they always go out of their way for white people and for the livestock that is dedicated to raising bulls and cows, and they are also the ones who watch shitty movies that promote hatred of people. indigenous like Apocalypso or cowboys, and those who most say hateful phrases towards indigenous people such as that miscegenation is improving the race.

That's why this shit from Hispanics talks about mestizaje as if it were the best, and as a victory since mestizos in general are white or brown, the vast majority are like Europeans, they see nature as a simple resource without a sacred value, they are not simple, they are not humble, they only care about money and technology, their concept of beauty consists of white and European, they are very noisy, they love polluted cities, they are consumerists and they love the livestock that is dedicated to raising bulls, cows, sheep and goats.

And even before Christianity, Europeans as Celts and Romans were the same shit, although the Romans conquered the Celts: both were dedicated to raising these animals and hunted for pleasure without it being a necessity to survive.

Therefore, those pagans and New Age are liars, presenting white cultures like the Celts and Vikings as if they were environmentalists when they hunted for

pleasure, were consumerists, and destroyed many forests and wild areas to make pastures for cows, bulls, sheep and goats.

There is a subtle way in which the media promotes making indigenous people invisible and hating indigenous people: and that is when they imply that only black people suffer from racism.

Currently, the entertainment industry, such as series and movies, and newspapers, only present black people as victims of racism and discrimination, and make it seem like there is a battle between black people and white people with films like *Get Out* and many others:

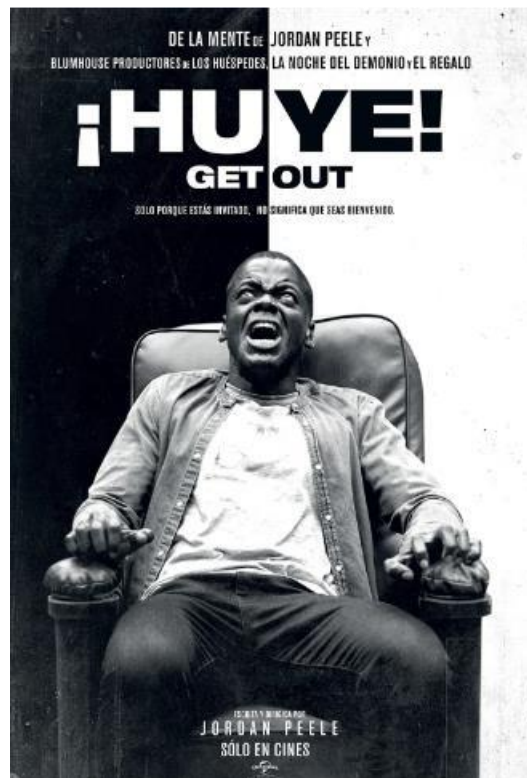

Image recovered from the Internet

But, when it comes to indigenous people, they always promote hatred, justify massacres and extermination.

Hollywood, which is managed by Jewish Zionism, Freemasonry and Christian Gnosticism, for a long time promoted this hatred of indigenous people with films where cowboys who murdered indigenous people were presented as heroes, and they did the same in cartoons. They never did this with black people.

Images recovered from the Internet

And what happens is that people who are racist towards blacks are already a minority, and blacks currently do not suffer slavery on this continent.

But, racism against indigenous people does exist in a large percentage and indigenous people continue to suffer oppression, all kinds of injustices and being treated as criminals or terrorists when they defend themselves or take revenge.

It is true, for example, that neo-Nazis are supported by the right and neoliberals just as the right and neoliberals support Zionism, and it is true that neo-Nazis promote hatred of blacks, but these neo-Nazis are a minimal percentage, and it turns out that there are blacks who support neo-Nazis, many right-wing blacks and many neoliberal blacks.

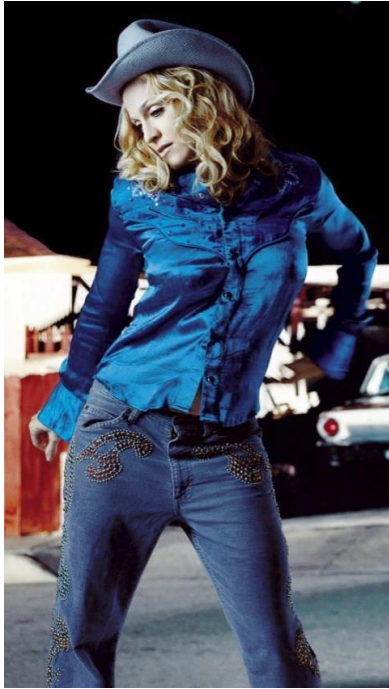

Can someone tell me that there are indigenous traitors who also support the right and the neoliberals, and who participate in films and series, but these indigenous traitors are a small percentage, on the other hand, the blacks and mulattoes who support the right and the neoliberals are a great percentage.

It seems strange to me that the entertainment industry (movies and series) and the media always place black people as victims. But, with the indigenous people who, if they continue suffering in the present, do the opposite.

Historically, the damned genocidal government of the United States exterminated the majority of indigenous people, and celebrities who claim to be feminists, politically correct and defend black people with Black Lives Matter like Katy Perry, Shawn Mendes and Madonna see no problem with paying tribute to the cowboys who murdered indigenous people.

Photographs recovered from the Internet

When someone pays tribute to the cowboys, they are paying tribute to the extermination of indigenous people (natives):

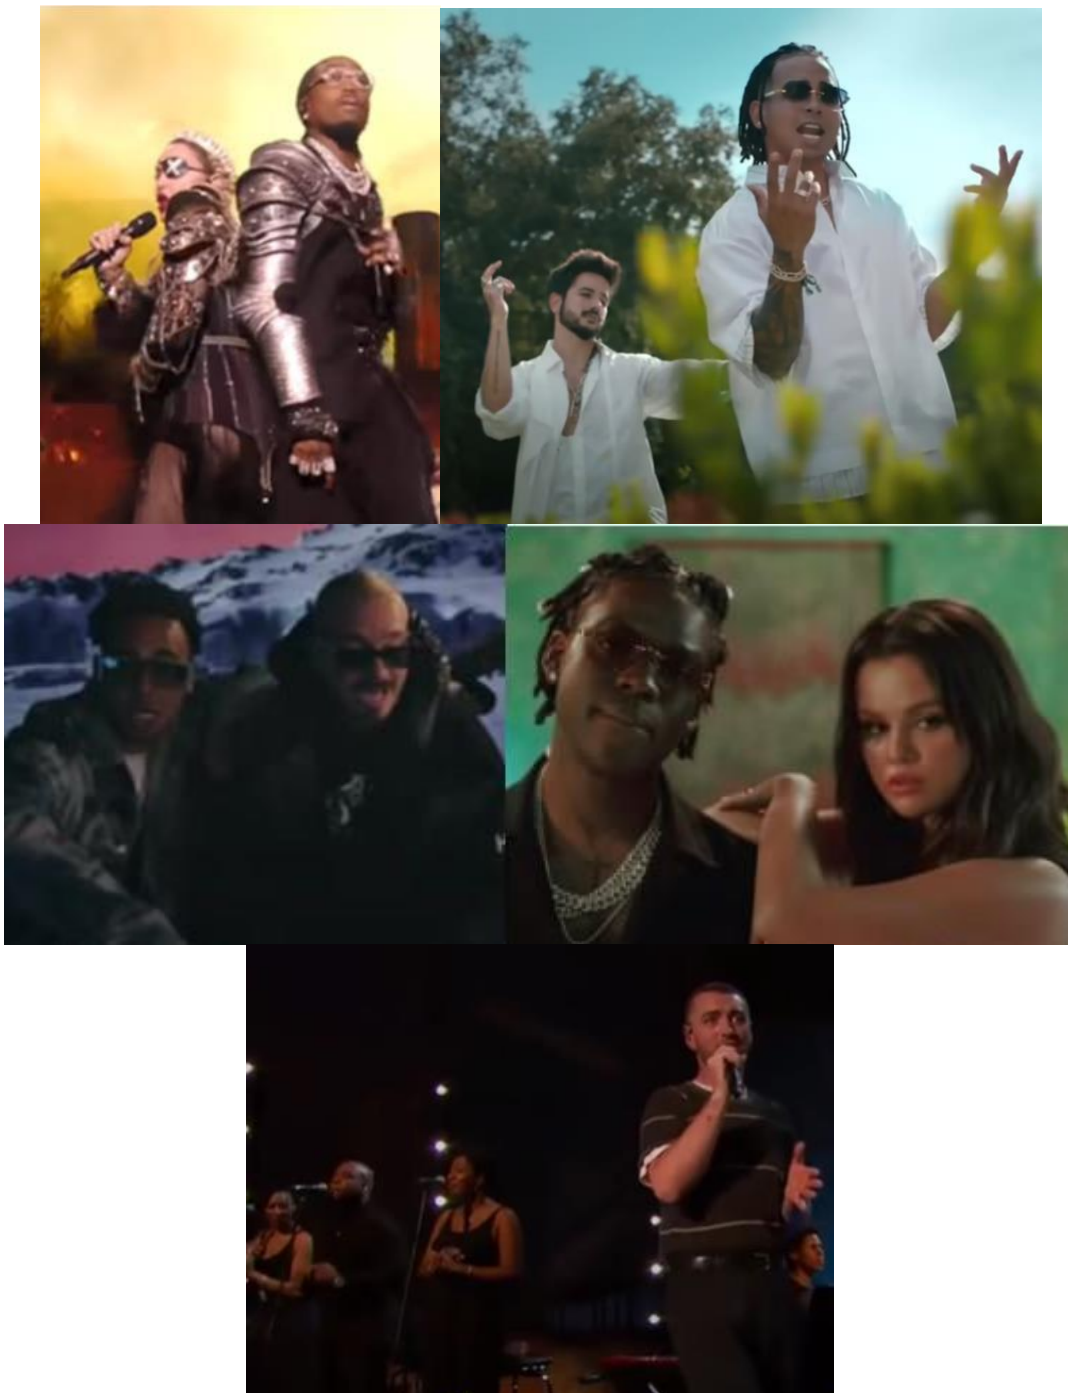

Images recovered from the Internet

But, in addition to the fact that when someone pays tribute to the cowboys they are showing hatred towards the indigenous people: when someone pays tribute to the cowboys, they are supporting the livestock industry which, by dedicating itself to raising bulls, cows, goats and sheep for meat, milk, dairy products, wool and leather destroys the planet by destroying many hectares of forest and jungle to make pastures for these animals, and by generating excessive emissions of methane and carbon dioxide.

For example, at concerts by singers from the United States and other countries on the continent of different musical genres, I always see these singers accompanied by blacks and mulattoes, whether they are doing a musical duo

with black rappers and black reggaeton artists, or blacks who play musical instruments.

Screenshots recovered from YouTube

But, the natives (indigenous) are completely invisible and they do not care about the extermination of indigenous people, and blacks and mulattoes are 20%

of the world population, there is no risk of their population disappearing, while indigenous people are only 5% and if there is a risk of them disappearing.

The working class and the business or elitist class are sides of the same coin: both equally selfish, individualistic, it is not that they say that money is important, it is that they say that money is the most important thing, they see nature as a simple economic resource, both are social Darwinists, both seek the replacement of the indigenous people whom they see as disposable or backward, both hunt for pleasure without it being a necessity to survive, both defend Christianity and both oppress the indigenous people, what happens It is that one of them plays the innocent and plays the victim.

And they both need each other to exist.

In fact, both the majority of the poor and the majority of the rich are the same, if the majority of the poor have money, they use the money for the same superficial things: trips to Europe, latest model cars, many luxury houses and for the same consumerism.

Both have the same concept of beauty that revolves around white and European, and the same colonial thought. Both have the same Judeo-Christian moralisms and try to get into the private sphere, referring to private as what each one does with their body.

I will always be different from the majority and that is why the majority of humanity that is not indigenous will never be good for me. If something or someone does not do to the majority of humanity that is not indigenous the same thing that they did to the indigenous people, the planet is only heading towards complete destruction.

It is clear that in the times in which the working class rebelled, there were times in which there were no labor rights, so they worked all day without rest, there were no days of rest, nor rights in health matters, they were other times, but in essence they were always the same as the business class and the elites: equally colonialist because it was convenient for both the boss and the non-indigenous working class to eliminate the indigenous people.

The problem is that when the working class is defended, that working class includes the ranchers who raise bulls and cows, the miners and the loggers. Also, another problem with the Western and European: it is that they are guilty of an intellectualism that is complicated.

While the indigenous way of thinking is simple. That's why those who are not indigenous mostly make everything difficult or complicated. In general, what the Western and European inherited to the world is noise.

In general, indigenous people value silence more. There is also another problem: such dogmatic Christian moralism is a European heritage that prevails in the present.

The majority of those who are not indigenous look for complicated words to explain what can be defined simply, and they do this out of a superiority complex, believing that intellectualism gives them more intelligence.

In general, people who are not indigenous tend to be more hypocritical, to talk behind their backs and not say things up front, and I know this from many experiences I have had. On the other hand, something that is annoying for most is that, if an indigenous person does not like something, they tend to say it upfront and be more sincere.

Another thing that most non-indigenous people have and I know this from my own experience is that they do not thank, and sometimes they say thank you in words, but their actions show that they do not thank.

And the other thing is that, although many of those who are not indigenous never go hungry and are not in need, something that I also know from my own experience is that, as the saying goes: if you give them the hand, they take the elbow.

From experience, I also know that most non-indigenous love to show off.

Also, in the majority of those who are not indigenous, due to that perfectionist way of thinking that is a Western inheritance, they tend to have a totalitarian way of thinking of all or nothing, of going to one extreme or the other extreme, of not having an intermediate point, of lacking balance and the same Western moralism of a perfection that does not exist.

In addition, the concept of perfection they have is based on Judeo-Christian, but, even if that were not the case, it is absurd since perfection does not exist and the word is even silly.

Many environmentalists and people who say they care about the environment also believe that progress, civilization and development means polluting and destroying the environment, they believe that it means placing money and technology above life, and that those cities are without trees, full of garbage, cars and noise.

Furthermore, many environmentalists and hypocrites who say they care about the environment consume red meat, animal milk and its dairy derivatives, when that is what causes more pollution and destruction of the environment.

Now in the present, we see many people who hypocritically say that they care about the environment, and many of those eat red meat, drink animal milk and its dairy derivatives, consider cities full of garbage as civilization, they do not care the indigenous and are indifferent to what the indigenous suffer, they maintain the same consumerist lifestyle, they are Eurocentric and their concept of beauty revolves around white European, they place money and technology above life and as the most important.

But, they believe that just by recycling, not using plastic, not using oil and planting a tree, according to them, they protect the environment. Therefore, environmentalism is often a farce.

A reality on the continent is this: it is more difficult for indigenous people to find work, and many need it because they suffer from hunger and lack of money for medical care. Therefore, what I say is the truth, the majority is part of the

indigenous genocide, they prefer to give jobs to Creoles, mestizos, mulattos or blacks.

Also, something I hate about the majority of mestizos is that they are indifferent to what indigenous people suffer, they never denounce on social networks the injustices and genocide that indigenous people continue to suffer, they vote for politicians who harm indigenous people, they always place themselves above the indigenous people and place themselves as a priority above the indigenous people, they are of Christian religions, they do not see anything wrong with the livestock that raises bulls, cows, sheep and goats, their concept of beauty revolves around white and European, they consider indigenous people as ugly, their concept of civilization, progress and development is the same as that of Europeans, their way of being, thinking and vision of the world are the same as that of Europeans.

But, the damn majority of mestizos, when it suits them, say they are proud of their indigenous roots or indigenous ancestors (when they talk about roots they imply that indigenous people are underground and when they say ancestors they imply that indigenous people only exist in the past).

The very stupid people say that they had a grandfather, grandmother, great-grandfather or great-grandmother who were indigenous as if that helps the indigenous people in any way. They are very stupid because the fact that they say that they had an indigenous ancestor does not help the indigenous people in any way.

One thing: no blacks who are of indigenous ethnicities in Africa have come to this continent, and no Asians who are indigenous ethnicities have come to this continent, all the blacks who have come to this continent are not indigenous and the Asians who have come to this continent are not indigenous.

That is why the blacks who are not indigenous and the Asians who are not indigenous who have come to this continent, for the most part, are just as selfish, individualistic and indifferent to the lives of the indigenous people as the majority of Europeans, of Creoles and mestizos.

For this reason, many blacks, many mulattoes and many Asians who are not indigenous, also consider indigenous people who defend themselves or take revenge as evil, terrorists and savages, and have the same Christian moralisms of wanting the victims to turn the other cheek, forgive everything and love your enemies, and the same Judeo-Christian moralisms of considering revenge as something bad.

In the case of Santeria, that is not indigenous, that is a New Age current, the blacks simply disguised voodoo gods and Yoruba gods with Catholic saints and made a syncretism or mixture, that originated in Cuba, remember that in Cuba indigenous ethnic groups such as the Tainos and others were exterminated, and replaced by Creoles, mestizos, mulattoes and blacks.

Both the blacks who came as colonizers and the blacks who came as slaves from European colonization are part of the replacement of indigenous

people and cannot be considered indigenous, since they are not originally from this continent, and their way of being is based on individualism, selfishness and indifference towards the indigenous people.

The same thing is in Haiti and the Dominican Republic, there were indigenous ethnic groups that were completely exterminated by the Spanish colonizers and the Hispanists never talk about this, and then the blacks who arrived later, although it is true that the majority were brought as slaves, but they were the who were left with control of Haiti and the Dominican Republic, while there is not a single country on the continent where only indigenous people govern.

Both Voodoo and Yoruba originate in West Africa, and to me, it is no coincidence that Europeans brought black slaves from West Africa. The black Bantu who have caused displacement and extermination of Bushmen for 1500 years also came from West Africa.

Really, if anyone looks at blacks who, if they belong to indigenous ethnic groups such as Bushmen, Pygmies and Hottentots, do not look like blacks who are not indigenous.

No Bushmen, Pygmies or Hottentots were brought as slaves by the European colonizers, all the blacks they brought as slaves were from regions of Africa where Voodoo and Yoruba are practiced.

Always, left-wing clowns like Fidel Castro, Nicolas Maduro and Hugo Castro who lie when they say that they care about the indigenous people, all these clowns promote beliefs of blacks and mulattoes such as Santeria, voodoo, Yoruba and others where the sacrifice of animals is considered a dogma that cannot be replaced by vegetable offerings, but they never promote indigenous beliefs.

Photographs recovered from the Internet

What must also be said: clowns and people from Christian religions such as Catholicism, Evangelicalism or others who attack these animal sacrifices are hypocrites because they also support animal sacrifices such as hunting for pleasure, cockfighting, bullfighting, and livestock farming that is responsible for raising cows, bulls, sheep, goats and pigs.

And if someone mentions Evo Morales to me, Evo Morales did not promote pure indigenous spirituality, Evo Morales promoted the New Age by syncretizing Pachamama with Catholic beliefs.

Syncretism with European beliefs is something disastrous, basically it is the New Age, where syncretism occurs with Judeo-Christian beliefs, that is contamination.

And if the syncretism had been with Celts, Vikings and Greeks: well, they hunted for pleasure and had sacrifices related to bullfighting, in addition to the Romans holding cockfights.

A syncretism only between indigenous ethnic groups is good for unification.

On the other hand, we have that social Darwinist garbage like Neo-Nazis, white paganisms, Satanisms and others that always go hand in hand with the right and neoliberals who teach that harming the weakest, the most vulnerable and the innocent is power, and who believe that with this they oppose Christianity.

This social Darwinist garbage doesn't realize that those teachings of Jesus Christ to turn the other cheek, love your enemies and forgive everything defend those who harm the weak, defend those who harm the vulnerable and defend those who harm the innocent because those teachings mean that these criminals go unpunished because everything is forgiven.

When the fictional character of Jesus Christ teaches to give to Caesar what is Caesar's, in other words, give to the emperor what is the emperor's, in that teaching he is teaching to submit to those in power, that is why the teachings of Jesus Christ do not have anything revolutionary, since they are pure submission.

Matthew chapter 22, verse 21: They said to him: From Caesar. And he said to them, Give therefore to Caesar what is Caesar's, and to God what is God's.

Milei busca eliminar el Instituto de Asuntos Indígenas: qué dijo Magdalena Odarda

The fault that these governments that hate indigenous people and want their extermination remain lies with the majority of those who are not indigenous.

In all countries on the continent, the majority of those who are not indigenous hate indigenous people because they remain silent, are indifferent and apathetic to what indigenous people suffer, vote for governments that harm indigenous people, consider indigenous people as ugly, and They watch movies and series that promote hatred of indigenous people, and they are also part of the elites' plan to replace indigenous people when they reproduce on the continent.

But, in Brazil and Argentina this hatred occurs at a more conscious and widespread level.

Furthermore, in Argentina they say that the Mapuches are invaders who came from Chile and exterminated other indigenous ethnic groups, but those who claim this are descended from Spaniards and Italians who exterminated the Selknam, the Qom and other indigenous ethnic groups.

As for Mexico, its mestizo population also hates the indigenous people, stating that mestizaje is improving the race as if the indigenous people were a defect or something inferior, by using prieto as an insult, their ranch culture is based on livestock that is dedicated to the raising of bulls and cows for meat, milk, leather and dairy products that was brought to the continent by Europeans, and the garbage content they produce such as soap operas that promote white supremacy, machismo, the European way of being, Catholic Christianity and

hatred of indigenous people such as Mía Colucci's character in RBD who in one scene used the word Indian as an insult or characters who promote stereotypes to denigrate indigenous people such as the Indian María.

Left-wing singers and clowns like René or Residente have made it believe that Latinos or Latin Americans and mestizos are allies of the indigenous people.

When in reality the so-called Creole or Latin American Latinos and mestizos, the vast majority are enemies of the indigenous people by voting for right-wing and neoliberal politicians who hate the indigenous people and want their extermination such as Javier Milei, Jair Bolsonaro and Guillermo Lasso, and in the current Lula government in Brazil, having voted for deputies and senators in favor of Jair Bolsonaro and who approved the temporary framework.

Anyone who votes for right-wing or neoliberal presidents like Javier Milei or Jair Bolsonaro is complicit and guilty of the massacres of indigenous people.

Although it is true that the left like Daniel Ortega, Evo Morales and others cause massacres of indigenous people, and keep them subdued with pacifism or give them only crumbs as in the case of Luiz Inácio Lula da Silva and Gustavo Petro.

It is the Right and the Neoliberals that most promote hate speech against indigenous people and genocide of indigenous people, the majority of damned humanity deserves the death penalty for being complicit in all the massacres that indigenous people have suffered with their silence, indifference, apathy and for voting for politicians who harm indigenous people, the majority of humanity is a curse that only deserves the death penalty.

CHAPTER XII. THE CORRECT ROAD

The correct path is to worship the gods, goddesses and spirits of nature present in my book: RITUALS AND SPIRITUAL PRACTICES

There are stupid people who even use indigenous people to justify their belief in the Judeo-Christian god.

They say that the indigenous people already sensed that a creator existed because the indigenous people believed in a creator like the Great Spirit in the Sioux and Dakota, Sibú in the Bribri and Cabecar, Tocu in the Maleku, Ñamandu in the Guaraní and Omama in the Yanomami, just to give some examples.

What these ignorant people do not understand is that the biblical god is separated from nature, condemns magic and condemns worshiping other gods.

While the creator god with different names and stories in which each indigenous ethnic group believes: he is within nature (not separated from nature), his priests (shamans) practice magic (shamanism) and that creator god of the indigenous ethnic groups It does not condemn worshiping other gods.

Also, as the Mayan god Hun Nal Ye dies beheaded, descends to the Underworld, resurrects and ascends to the heavens, many ignorant people can compare it with the story of the life, death and resurrection of Jesus Christ.

But, there is no comparison:

Hun Nal Ye is a god of corn and his entire story represents a natural process, Hun Nal Ye's death by being beheaded represents the cutting of the corn cob, his descent to the Underworld represents the burial of the corn seed, his resurrection represents the birth of the corn plant, and his ascension to heaven represents the growth of the corn plant.

While the story of Jesus Christ does not represent a natural process, and Christians truly believe that Jesus Christ was born, died and resurrected, they never speak of a metaphor or symbolism that refers to a process of nature, although for that story of the death of The resurrection of Jesus Christ was inspired by the death and resurrection of the Egyptian god Osiris and the Greek goddess Carpos.

At least: Osiris did represent the natural process of when the waters of the Nile go down (death) and when the waters of the Nile rise (resurrection), and the burial of the wheat seeds (death) and the birth of the wheat plant (resurrection), and Carpo represented the end of a harvest (death) and the following harvest of autumn fruits (resurrection).

But, the character of Jesus Christ is just a bad copy of death and resurrection in Egyptian and Greek culture, changing the story and removing the symbolism of a natural process, although leaving evidence of how they were inspired by Osiris with the offerings of bread and wine.

The thing is that both the Jews and the Christians were so ignorant that they always left evidence of the sources from which they were inspired, which were the cultures they called pagan and that they condemned, although they served as inspiration.

One rubbish that the New Age always talks about is the unconditional. In nature there is no unconditional. Everything is an exchange.

For this reason, in the rituals to Pachamama (the goddess who represents nature as a whole), food and drinks are buried, a way of saying that, just as nature gives to us, we also have to give to nature, That is to say, everything must be a balance between giving and receiving, an exchange.

Unconditional is based on selfishness and individualism, because there is only a benefit for one of the parties, there is no mutual benefit. Therefore, in nature symbiosis occurs between different species where two species come together to survive, and by uniting they receive mutual benefits from each other:

On the other hand, unconditional for me is the same as parasitism where one species only receives personal benefits at the expense of the life of the other species.

The unconditional is the same parasitism that Christianity teaches of giving without expecting anything in return, on the other hand symbiosis is when both give and both expect to receive a benefit where an exchange always occurs, like the bee that takes nectar from the flowers, but takes pollen from one flower to another facilitating the reproduction of the plant (an exchange), or the crab and

the anemone where in symbiosis an exchange occurs where they mutually benefit.

The unconditional is the individual and selfish, and the symbiotic (mutual exchange that benefits both) is the collective. Sometimes the term between the individual and the collective is not clear, the collective is taken as individual and the individual as collective.

In the white and Western culture that is dominant, it is taken as collective that everyone integrates and is like the majority, with the same way of being, thinking and vision of the world brought by the Europeans. However, by collective I mean the indigenous worldview.

This is why I have every reason to hate the majority of humanity:

To this indigenous person from the Enawere Nawe ethnic group, a damn person from Brazil writes: -You are the ugliest people in Brazil.

The majority of humanity is cruel and always hurts those it considers most vulnerable or weakest.

While the damn majority of humanity considers those who harm the most vulnerable, those who harm the weakest and those who harm the innocent to be

powerful, virile, strong and brave, and defend them with those Christian teachings of loving one's enemies, forgive everything and turn the other cheek.

All the pain that the majority of humanity has caused, all that they have made them suffer and for all the people who, due to comments like this, have fallen into depression and committed suicide: the majority have no forgiveness.

Sincerely for their individualism, selfishness and for all the damage that the damn majority of humanity does to those who are vulnerable, to those who are innocent and to the weak, the cowardly majority believing that this makes them powerful, strong or brave (and both the Most men and most women think this way), is that the majority of humanity deserves the worst.

When Alexander the Great colonized Egypt, Egypt was already ruled by the Persians, just as when the Arabs colonized Egypt, Egypt was already ruled by the Greeks and Romans.

In other words, from the colonization of the Persians, they colonized each other, first the Persians to the Egyptians, then the Romans and Greeks to the Persians, and then the Arabs to the Romans and Greeks.

But obviously when they colonized each other, they carried weapons, so they were bloody.

Egypt's first monumental pyramids were built in the 3rd Dynasty and the classical Pyramids in the 4th Dynasty before they were invaded by the Persians, Greeks, Romans and Arabs.

Therefore, for someone to say that Alexander the Great helped build the pyramids of Egypt is the worst nonsense that someone can say or write, what was true is that Greeks and Romans like Pythagoras took knowledge in geometry and other knowledge from the Egyptians.

It is known that the indigenous ethnic groups of this continent arose from indigenous ancestors of Siberia, and the indigenous ethnic groups of Asia such as those of the Philippines have the same origin.

The ancient Egyptians of the first dynasties fall into the category of ethnic groups of Afro-Asian origin that are genetically related to both ethnic groups from Africa and ethnic groups from Asia. This may be why the ancient Egyptians had African features and the Asian trait of almond-shaped eyes.

And the white ethnic groups are of Indo-European or Eurasian origin, therefore, they are genetically related to the Persian Aryans who colonized India, and as the Aryans exercised their domination against the Dravidians (original inhabitants of India), from there it remained in genetics of the white ethnic groups to establish a relationship of hatred and domination against the indigenous people, remember that the Persians colonized both the Egyptians and the Dravidians of India.

We can say that the goddess Sekhmet was a goddess of war, but in the sense of revenge, not of invading other places, and not in the sense of dominating and subduing the most vulnerable.

But, the gods of war of white cultures such as the Greeks, Vikings, Romans, Slavs, Saxons, Celts and others, were gods of war in the sense of dominating and subduing the most vulnerable, of invading other places and eliminating its original population, hence in the sick society we live in this is associated with virility, strength, power or bravery (which in reality is cowardice and tyranny).

It must be remembered that the first monotheistic religion called Zoroastrianism emerged from the Persians, from which Judaism later emerged, and from Judaism Christianity and Islam emerged. The fire-lighting ritual in Mithraism resembles the fire-lighting ritual to the Celtic goddess Brigid, known as Saint Brigid to Catholics.

It must be remembered that Mithraism emerged from the Persians based on the cult of the god Mithra, which is represented by killing a bull and therefore the relationship with bullfighting, and that Mithraism was very popular among Roman soldiers, and also, 33rd degree Masons like Albert Pike made clear the relationship between Freemasonry and Mithraism.

White ethnic groups always considered light and darkness as enemies in war, and not as complements.

Brigid was a Celtic goddess of war and Brigid was a Tuatha Dé Danann, in Celtic mythology the Tuatha Dé Danann are children of the goddess Dana and represent the light that fights against the Fomorians who represent darkness. Brigid was associated with the Roman goddess Minerva.

When the Aryans of Persia invaded and colonized India, they stated that the Dravidians (the original or indigenous population of India) represented demons and the darkness that had to be subdued and dominated, that is, the Persians always had this belief that light and darkness are enemies.

Queen Isabella the Catholic was the one who gave her support to Christopher Columbus and Inés Suárez caused seven indigenous chiefs to be beheaded, all of this is celebrated by Hispanists and those who support colonization in general as something heroic and to be admired:

For the European colonizers (Spanish, Portuguese, Basque, English, French, Irish, Scottish, Italian and others): the war against the indigenous people, defeating them, dominating them and subduing them represented the triumph of light against darkness, the end of ignorance, the end of sexual immorality and the end of savagery according to them.

And just as they considered the animals of other species to be soulless beings, so they also considered the indigenous people (Indians as they called them) to be soulless beings, that is, the same relationship they had with animals of seeing them as things or objects, It was the same relationship they had with the indigenous people of seeing them as things or objects.

Also, as I have commented other times, any ritual to a god or gods is magic, atheists like Dalas Review and Christians consider indigenous rituals as ignorance, something primitive and they mock.

But, it turns out that magic is the power of the mind, of symbols or archetypes, and the ritual serves as a link to influence the way of thinking and feeling, these Europeans also used magic when they invoked Santiago Mataindios to defeat the indigenous people and when they defeated the indigenous people they gave thanks to their Judeo-Christian god.

The CIA is related to New Age beliefs and the CIA in the service of the United States government continues to be related to everything that indigenous people suffer in the present.

So when the Europeans invoked Santiago Mataindios with the phrase before each war against the indigenous people said by colonizers like Hernán Cortés, Pedro Marina de Lobera and Francisco de Ulloa: -Santiago and against them!

And the colonizer Berman Díaz del Castillo comments in his book called True History of the Conquest of New Spain that after murdering eight hundred indigenous people of the Mayan-Chontal ethnic group in the battle of Centla, they gave thanks to their god.

All those phrases were curses to the indigenous people, that is, magic.

All human races in their beginnings practiced cannibalism, infanticide, in all of them there was domination of the strongest over the weakest (social Darwinism), human sacrifices and sacrifices of animals of other species.

There was not a human race that did not practice these things in its beginnings. And this thing about infanticide, cannibalism and the strongest dominating the weakest also happens in animals of other species:

Photographs recovered from the Internet

Logically, with the passage of hundreds of years, in the case of human races they evolve and abandon part of those things.

As I have already commented on other times, there are no bad animals and there are no good animals because animals of other species lack concepts that define what is good and what is bad, It was the same with all human races many thousands of years ago when in the beginning they lacked a definition for what is bad and good.

Then someone could ask me, if all human races practiced these things in their beginnings many thousands of years ago: what is my problem with the white ethnic groups and with the majority of their descendants (Europeans, Creoles and mestizos because they have part of their genetics)?

And the answer is that: white ethnic groups and their descendants have evolved (devolved) to be more selfish, more individualistic, more social Darwinists, to believe that harming the most vulnerable is power, to believe that harming the weakest is strength, to be more separated from other nature, to reject what is indigenous, to see nature as a simple economic resource, and to be more warlike in the sense of invading and colonizing (not in the sense of revenge).

The white ethnic groups and their descendants developed livestock farming that is dedicated to raising bulls, cows, sheep and goats for meat, leather, wool, milk and dairy products that is contaminating and destroying the planet when thousands of hectares of forests and ecosystems to make pastures for these animals, when they generate excessive emissions of methane and carbon dioxide, excessive waste of water, and contamination of water with the blood, waste and excrement of those animals.

For this reason, white ethnic groups and the majority of their descendants admire cowboys, they like tops and they love the livestock that raises these animals, and they consider that manly, masculine or a symbol of power.

I think it is already very repetitive to have to explain why indigenous traits are the best; because their skin protects better from the sun's rays, absorbs vitamin D from the sun better, has less body hair and is more hydrated; because the shape of their eyes protects better from the sun's ultraviolet rays and the impact of the wind; because their black and radiant hair protects more from the sun, and is damaged less; and because its low or medium height prevents spine and back problems.

But, the cursed and sick society in which we live always tends to hate and destroy what is better to make way for what is worse.

It is very easy for the majority to consider a ritual, ceremony or dance as primitive and ignorant when practiced by indigenous people.

But, those who are not indigenous continue to use symbols and symbolic language, even if they deny it, and continue to practice rituals, prayers, phrases, ceremonies and events that generate influence on thinking and feeling, leading to trance or ecstasy (hypnosis), because all this is natural in all human races, but, since they are not indigenous, the majority does not consider them primitive or ignorant because of this.

CONCLUSION

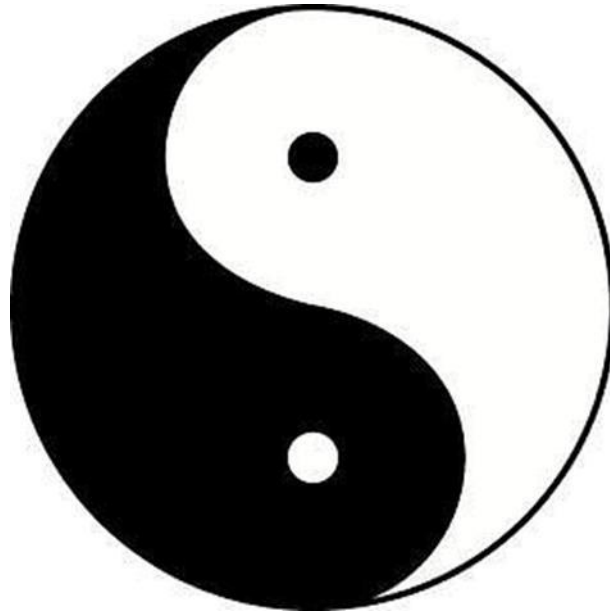

Image recovered from the Internet

What the majority does not have: the balance between opposing forces, and sometimes they apply each opposing force in a bad way, which is why in the sick society everything works backwards, always from one extreme to the other (Western way of thinking) and without a middle point that balances both forces.
